Hi folks
I am seeing again with difficulty, but back on the PC part time.
I am improving a small bit each day. Looking through a cloud and
around floaters to read and write.
I lost all the emails over the weekend when I hit the wrong key
and it
deleted all messages. Tried to get back to quickly. If you sent me a
message
from Thursday through last night, please resend. I am able to read now by
enlarging the print and going slowly.
Hope everyone had a great New Years.

From: "Mediterraneo Dx Club H.Q."<mdxc@...>

Murphy has been hitting us recently.

Been having problems getting equipment out of customs, but finally seeing light at the end of the tunnel. All equipment is expected to be in Puerto Princesa, Palawan, on the morning of January 5th. Thereafter, the gear will then need to be sent to Pag-Asa.

Some operators are also having weather related problems enroute to DU, thus delaying them. Additionally, the charter flight company advised that the plane to Pag-Asa will be delayed leaving Manila by a day.

Thus, DX0DX start-up is delayed too.

*Folks,
Due to my sight problems I will suspend the DX Alert and
Golister weekly reports. It is taking all my time just to update
the data file and that is the most important item. I will work on
the other reports when there is improvement in my condition.
Keep sending me the info and emails, it will just take me longer
to read
and respond to them.

I.C.P.O. Bulletin (07-14 January 2011)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

07/01/2011: Cezar, VE3LYC and Johan, PA3EXX will attempt a very challenging expedition to Wollaston Islands (IOTA SA-031) and Diego Ramirez Islands (IOTA SA-097) between approximately 7th-22nd January 2011. In demand by 98% of IOTA chasers, SA-031 currently ranks #6 on the Most Wanted IOTA list World Wide and #1 in South America, whereas SA-097 has never been activated. The plan is to operate for 4 days from Herschel Island (IOTA SA-031) and Gonzalo Island (IOTA SA-097). However, weather and sea conditions can influence significantly this schedule. The team has retained for this trip the services of Thomas, an experienced skipper, with his 40 ft yacht, well equiped for Antarctic waters. Callsigns: CE9/VE3LYC and CE9/PA3EXX. QSL ALL QSOs via VE3LYC, direct or bureau. Further information can be found on their website at: CE9iota.weebly.com/ [VE3LYC]

07/01/2011: Operators Alan VK3XPD, Kevin VK4UH and Mike VK3KH, will once again be active from Norfolk Island (IOTA OC-005, WLOTA 1469, WW Loc. RG30XX) as VK9NA from 7-20th January. This is the same group that did a VHF, UHF and Microwave DXpedition earlier in 2010. The team is planning to operate on 50, 144, 432, 1296, 2403, 5760, 10368 EME. Yagis up to 432, 1.2m dish for higher bands. 75w on 10 GHz from TWT. QSL via VK3KH. Further information and updates at: www.vk9na.com/index.html

08/01/2011: Francis, F6BLP, will once again be active as 6W7SK from Saly Portudal, Senegal, from 8-21st January 2011. QRV on 17/20/30/40m, mainly CW, with IC7000 and G5RV antenna. QSL via F6BLP direct, bureau and LoTW. [F6AJA]

08/01/2011: Patrick, F8DYD, will be active on Saturday 8th January 2011 as homecall/p from the Castle of Sechere (DFCF 86-078), Saint Secondin City (CP 86350), and the Mill of Vent (DMF 86-036), Usson City (CP 86350). Department Vienne/86 and Province Poitou-Charentes (DPF 19). Locator JN06GH. QSL via home call, bureau or direct. [F8DYD]

09/01/2011: Eddy, ON4AFU, will be leaving Belgium on the 9th of January 2011 for a 3 month stay in Thailand, with a side trip to Cambodia. His main QTH in Thailand will be Pathui, where he will operate as HS0ZJF. From 20th January to 10th February he will be active as HS0ZJF/8 from two different islands: Ko Samui (IOTA AS-101, WLOTA 1384) and Ko Tao (IOTA AS-101, WLOTA 1642). On 11-20th February he expects to be QRV as HS0ZJF/9 from the IOTA AS-126 group. From 23 February until 8 March Eddy will be active from Cambodia as XU7AFU with a possible activation of AS133 Koh Russei (IOTA AS-133) as XU7KOH. Dates may change according to local circumstances. On 10-22nd March he will be QRV as HS0ZJF/8 from Ko Yao Yai (IOTA AS-053). QSL via ON4AFU, direct or bureau. Website: www.on4afu.net/ [425 DX News/DE0MST]

10/01/2011: Marty, W2CG, will be active again as P40CG from the Oceania Condos, Eagle Beach, island of Aruba (IOTA SA-036, WLOTA 0033) on 10-24th January 2011. Operating time will be limited mostly to his morning and early evening hours; expect him to be QRV on 80-10 metre CW, with some SSB "on request". Equipment will be IC-7000 Transceiver, Icom AT-180 Tuner, 11 Meter collapsible Vertical and Carolina Windom. QSL via home call direct, bureau and/or LoTW. No eQSL! [425 DX News]

10/01/2011: Joe, DJ1JB (V31ML) and Max, DJ4EL (V31ME) will be active from four of Belize's islands during January 2011. They plan to activate the following IOTAs on the following dates: 10-11th January Ambergris Caye (NA-073); 11-14th January Caye Caulker (NA-073); 14-18th January Long Caye (NA-123) and 18-26th January Tobacco Caye (NA-180). Plans are to be QRV on 80-10 metre SSB using two stations with 100 watts into homemade Quads, a wire antenna and a vertical. QSL via home calls, bureau or direct. [OPDX Bulletin]

10/01/2011: Wade, AA8LL and Roger, K0RMK will be active as AA8LL/4 and K0RMK/4 from Key Largo (IOTA NA-062, USi FL049S, Monroe County), State of Florida, on 10-17th January 2011. QRV holiday style on 40-12 metres SSB (24950, 21260, 18128, 14260 and 7155 kHz), CW (28040, 24910, 21040, 18098, 14040, 10114 and 7030 kHz) and RTTY (24925, 21079, 18102, 14079, 10139 and 7039 kHz) with 200 watts and wires. QSL via home calls, direct or bureau. Wade will also upload his log to LoTW and eQSL. [425 DX News]

12/01/2011: Gerry, VE6LB, will be active holiday style from Dubai, U.A.E., as A6/VE6LB between 12th January and 8th February 2011. QRV on 40-10 metres, using 100 watts and G5RV. QSL via VE6LB direct, bureau or E-mail request. Logs will be uploaded to LoTW. [NG3K]

13/01/2011: Bernhard, DL2GAC, will be on a DX vacation to Honiara, on Guadalcanal Island (IOTA OC-047, WLOTA 0086), Solomon Islands, between 13th January and 12th April 2011. QRV mainly SSB, but will focus on 80 and 40 metres. QSL via home call. [OPDX Bulletin]

14/01/2011: A group of JA operators plan to take a DX holiday at the 'Captain's Last Resort' on Christmas Island (OC-002) from 14-20 January 2011. COUNTY HUNTING (USA-CA) -

K3IMC - Don - 2* - 1/12/2011 to 1/24/2011 - SSB and CW - ECC accepted
I am finally going to do it. My wife and I are going to Hawaii to put out all five counties. My wife does not necessarily agree with my priority, but what can I say. We are visiting the islands of Oahu, Kauai, Molokai, Maui, and Hawaii.

The schedule below may change based on weather and what we are doing. I will try to update this schedule daily, so check each morning.

The planned dates for each county are:

Oahu - Jan. 12 and 14
Kauai - Jan. 16 to 17
Kalawao + Maui - Jan. 19
Maui - Jan. 20 to 21
Hawaii - Jan. 23 to 24

I will have only 20m, and plan most of the activity on SSB (14.336 MHz), but will run CW off the 20m SSB net frequency at the end of the SSB run. Unless stated otherwise, CW will be run on 14.343 if it is clear.

I will probably be monitoring the net during daylight hours, and I will try to work any mobile stations I hear. After researching various propagation predictions, I feel that the best conditions for the east coast should occur between 2200 and 2400 UTC. That is 5:00 to 7:00 PM east coast time.

I hope sun spot cycle god keeps conditions good. I am sorry that I will only be on Kalawao one day. Good hunting! QSL via home call. [County Hunter Web]

SILENT KEYS -

A. George Spencer, VE3AGS, passed away December 21, 2010. He was 90. Spencer served as ARRL Canadian Division Vice Director from January 1970-January 1974. In 1974 -- upon the election of Canadian Director Noel Eaton, VE3CJ, as ARRL Vice President -- Spencer moved up to the Director position and served one term. An engineer by training and profession, Spencer lived all across Canada. While on the ARRL Board of Directors, he was VE2MS and then VE4IM; he later became VE6AW before moving to Ontario and obtaining his initials. [ARRL Letter-List]

Leonard Andrew "Woody" Woodward, W7KOP, of Mapleton, Utah, passed away December 25, 2010. He was 99. Woodward -- who, according to the Boy Scouts of America, was the "longest continuously registered Scouter" -- was involved with scouting for more than 87 years. BSA's Utah National Parks Council Program Director John Gailey called Woodward "an amazing man" and told the ARRL that his friend was still "very much active on the air weeks before his death." At the age of 8 in 1918, Woodward built his own radio. At the time of his death, he was using the Internet to connect Amateur Radio operators around the world. Woodward was known all over the world as an unofficial ambassador of America and Scouting through his radio contacts. FOR IMMEDIATE RELEASE
Yasme Excellence Awards

The Yasme Excellence Awards are given to individuals who through their own service, creativity, effort and dedication have made a significant contribution to amateur radio. (www.yasme.org/excellence.html) The contribution may be in recognition of technical, operating or organizational achievement as all three are necessary for amateur radio to grow and prosper. The YASME Foundation recognizes the following individuals in order to inspire them and others on behalf of amateur radio now and in the future.

* Ramón Santoyo V, XE1KK who is recognized for his work in advancing Mexican ham radio and representation within the international radio

community. In addition, Ramón serves as IARU Region 2 Secretary. He has been a tireless advocate of amateur radio in Central America and a strong proponent of radiosport and the World Radiosport Team Championships. Voices like Ramón's help the amateur community work together worldwide, strengthening our position and reputation as important members of the wireless community.

* Makoto (Mako) Mori, JE3HHT who deserves much credit for popularizing RTTY by writing the MMTTY software modem and making it available for integration into logging software. He also wrote MMVARI, which implements other popular digital modes, and several other digital mode software products. MMTTY is a great product and Mako has exhibited great ham spirit with a huge effect as can be observed as RTTY operation continues to be the fastest growing mode of HF digital operation.

* Bruce Horn, WA7BNM who continues to generate useful and innovative web sites including a complete upgrade of his excellent contest calendar Web site. Bruce supports contesting with a web site that enables contesters to convert paper and other forms of contest logs to Cabrillo format. His 3830 score reporting and compilation service has changed the nature of radiosport. Bruce was also a key player in the initial efforts to develop methods of exchanging scoring information in the web-friendly XML format.

* Rick Meuthing, KN6KB for developing the new WINMOR sound-card digital mode software now gaining wide use in the worldwide Winlink 2000 system. Many attempts at approaching the performance of the proprietary PACTOR III protocol and hardware failed before WINMOR, attesting to the difficulty of the problem. Rick also invented an improved "channel busy" detector that senses many different types of modulation and will drastically reduce the inter mode QRM common from other semi-automated digital protocols.

* Mikael Styrefors, SM2O who has developed the Remote Radio Interface. The ability to connect radios and operators transparently and robustly over the Internet is a key technological element of putting top-grade remote HF stations on the air - something more common every day. Remote stations will undoubtedly be important in making and keeping amateur radio available to urban and suburban amateurs in the future as they deal with an increasingly noise-filled and interference-prone electromagnetic environment.

* Alex Shovkoplyas, VE3NEA for developing DX Atlas, Morse Runner, HAM-CAP, CW Skimmer, Rocky and other innovative software. Alex's products are making a remarkable impact on the competitive HF operating environment. The quality of the software is remarkable, and having it available to the amateur community at little or no cost demonstrates excellent ham spirit. Programs like these are rapidly expanding the technological frontier of radio in general and are prime examples of how amateurs can continue to make contributions.

* Pepe Ardid, EA5KB who makes it possible for many Latin American DXers, who are in many cases saddled with deficient postal services and QSL Bureaus, to confirm contacts with attractive and unique QSL cards. Confirmations are rapid and he confirms not only direct but via bureau as

well. Pepe contributes countless hours of service in support of his fellow amateurs so they can continue to participate in one of amateur radio's most cherished traditions.

Hi

We are still (all the team members) this Sunday morning in Puerto
princesa (Palawan). We wait in sevaral hotels.
Some friends are QRV as HC/p/DU1 on several bands
I'm with Christian/EA3NT, Bjorn/SM0MDG , Simon/IZ7ATN and Monica.
We are QRV with 100 watts and vertical on 40/30/20//17/15, cw/ssb, but as
it's in Manilla, the local town QRM is very heavy
Some other friends like K1ZM, leave at 10km far from here near the sea
shore are QRV low vbands with a PA and without any QRM.

The last authorizations, needed to leave DU to DX0DX are awaited on next
Monday.

To the DX Community at large - It's with regret that as Team Leader, I have
to announce the postponement of the DX?DX Spratly Islands DXpedition 2011,
due to circumstances beyond the control of the DX?DX Team.

Our situation began when our original mode of transport by ship was terminally damaged back in late October 2010. We then went to our contingency plan which was to fly in, as there were no ships deemed to be safe and provided facilities for safe passage to Pag-Asa, available.

We hand landing permission and booked the correct sized aircraft and with the security cleared pilots. To simplify it, there was conflicting agreements and hence the aircraft could not get approval of its flight plan.

The bottom line is this. We have a licence, we have authority to land via ship, hence when the ship becomes available in the near future, it is my intention to activate this entity in 2011.

The team has worked tirelessly to remove the hurdles that were placed before
the team in the last minute.

As time was running out for this window of opportunity, and before more operators become stuck here in Palawan, the decision was made to postpone the activation.

A call was placed to PARA advising them that a postponement of the activation would be sought to a date in in the near future, where the activation will look at again taking place.

All equipment will need to be exported out of Philippines to comply with current Philippine Customs Law in which it was brought into the country.

The plan is to be re-assessed so the current operators have the first opportunity to be on this future trip.

Once more information is at hand, I will advise the DX Community.

SWODXA DX DINNER ANNOUNCEMENT
From: Joe Pater, W8GEX (W8GEX@...)

The SOUTHWEST OHIO DX Association (SWODXA) is pleased to again sponsor the DX Dinner ™, held in conjunction with the 2011 Dayton Hamvention®. The dinner will be held on Friday, May 20, 2011. This year the dinner will be at the Dayton Marriott, 1414 S. Patterson Blvd., Dayton, OH 45409.
We are excited about our new venue. It is less than five minutes from our previous location, has a much larger capacity, and the dining room is on the ground floor so there are no steps. There is ample, free, on-site parking.
As in the past, there will be some major door prizes. And there is always great anticipation as to who will be named the “DXpedition of the Year.” Program details and a list of the prizes will be available soon at (http://www.swodxa.org/) or (http://www.swodxa.blogspot.com/).
There will be a cash bar starting at 5:30 p.m., with dinner served at 7:00.
Tickets are $40 each, payable in US funds. Sorry, we do not process Paypal or credit card payments. If a vegetarian meal is desired, it must be indicated when tickets are ordered. We attempt to honor group seating requests when tickets are ordered together. Each table seats ten, and seats are assigned as the requests are received. Check or money orders, payable to SWODXA, should be sent to Kirk Swallow, W8QID at 3137 Compton Rd, Cincinnati, OH 45251. Be sure to include a SASE for ticket return.
The Marriott is a large hotel with many room choices. Should you need accommodations, their phone number is 937 223-1000 or the website is http://www.marriott.com/hotels/travel/dayoh-dayton-marriott).
Following the meal, there will be a separate room and cash bar available for more fellowship. This is an excellent opportunity to meet and renew old acquaintances. We look forward to seeing everyone at the DX Dinner™ at the Marriott and at Hamvention®.
Good DXing!

If like me, you have somehow missed Mt. Athos, Monk Apollo, SV2ASP/A, plans to increase his activity on CW, SSB and RTTY on multiple bands over the next few weeks.

He was spotted on 20 meter RTTY just a few hours ago. Good luck!

SPECIAL EVENTS -

12/01/2011: Lithuanian radio amateurs are currently using the following LY13 special event callsigns until 2200z, 27th January 2011. Activity is to mark the 20th anniversary of the January 13th event, where the Soviet army in 1991 attempted to occupy the independent Lithuania - all communications were blocked and only radio amateurs were the first who help to spread out the information about invasion around the world. There will be no awards issued for this event. This operation is "in memory". They hope some amateurs around the world can still remember this night. SILENT KEYS -

William Voedisch, W1UD, of Leominster, Massachusetts, became a Silent Key on January 1. He was 78. Voedisch was an avid CW operator who especially enjoyed operating in the CW National Traffic System nets. In recent years, he was the Manager of the NTS First Region CW net and almost nightly represented the First Region in the Eastern Area Net. He was also active in the Transcontinental Corps, relaying messages to other regional nets around the country.

Voedisch served several terms as ARRL Western Massachusetts Section Manager: from 1987 through 1989, in 1992 and 1993, and again from 1996 through 2005. He was an ARRL Life Member and was the former president of the Montachusett Amateur Radio Association and was still active before his death. Voedisch was the owner and operator of Imperial Television and Radio Service in Leominster since 1954.

Voedisch served as a US Army corporal in the Korean Conflict and its immediate aftermath, serving from 1952-1954. He received the Korean Service Medal, United Nations Service Medal and the National Defense Service Medal.

Voedisch served on the Ways and Means Committee and Cable Commission for the City of Leominster. A funeral service was held on January 6 at St Mark's Episcopal Church, in Leominster. [ARRL]

- On January, 14th will be two years sharp since the date of World Castles Award Program foundation.
In connection with this event on January, 15th and 16th, will take place activity radiohams from castles and fortresses of the world - WCA Happy Birth Day (WCA HBD).
At present we have support from radiohams of some countries who will be active from castles and fortresses their own countries during these days.

Co-ordinator of WCA (World Castles Award)

Mika will once again be operating this week end as SM/OH2FFP from the Swedish WASA antarctic base: "The night activation from Wasa is also ok. I try to set antenna for weekend so¨we can start on Friday. I have limited possibilities to change fast from 20 to 40 meters so please we need to agree the procedure. But we'll start next weekend" [F5PFP]

The DXpedition to Levantado Island (NA-122), January 27 to 2011 March 27 2011, by HI9/IK2GNW has been cancelled. [I2YSB]

TT8ET - Chad
Elke, TT8ET, is currently active from N'Djamena, Chad. Using a small vertical on 20m SSB, Elke reports she has no propagation at all from the central African continent to eastern Europe and beyond. Presently, local QRM from landlines & powerlines interrupts her transmissions, but she is hopeful of setting up a new antenna system and using battery power to overcome this.
QSL: Elke Takatsch, B.123, N'Djamena, Chad.

Further news from Chad indicates a team will be putting on a DXpedition from there by the end of this year. [dx-world.net

*Hi folks
I will be out of town Tuesday Jan 18 for eye surgery. I will not
be doing
any PC work tomorrow. Maybe Wednesday I will be able to work any new
orders / renewals and data file updates and corrections.
Please, when you work a station and they give you a Qsl Manager,
pleae
check GoWin to see if I have the correct manager iised a and/or if the
listed
date is the current year. If GoWin is not current drop me an email
with the
current manager info so I can make the record correct in the data file.
Your help is appreciated.

Hello Folks,

Andrew, G7COD, will be operational from Embudu Island on the South Male Atoll, Maldives, AS-013 using the call 8Q7AK from the 5th February to approximately 18th February 2011. Using SSB and CW on the 80 to 10 metre bands including WARC frequencies.

This one is a holiday trip, so he will be operational every day from approximately 07:30 to 08:30, 09:00 to 10:30, 13:00 to 1500 and 17:30 to 18:00 UTC.

Spot frequencies to be used are:

3.793, 7.063, 14.190, 18.133, 21.253 and 24.953 MHz SSB ± 10KHz to allow for qrm.

3.503, 7.003, 10.103, 14.003, 18.073, 21.003 and 24.893 MHz CW ± to allow for qrm.

He also hopes to have limited operation on the 160m band but this is not confirmed.

For comprehensive details of qsl information etc, please check 8Q7AK on QRZ.COM and website 8q7ak.freewebspace.com

All qsl’s should be sent via the bureau or direct to G7COD.

Please note: 8Q7AK is approved for DXCC credits.

01/02/2011: Marc, F5SSN, will activate special callsign TM40ZH during the month of February 2011 to commemorate the RAMSAR Convention. The Convention on Wetlands (Ramsar, Iran, 1971) -- called the "Ramsar Convention" -- is an intergovernmental treaty that embodies the commitments of its member countries to maintain the ecological character of their Wetlands of International Importance and to plan for the "wise use", or sustainable use, of all of the wetlands in their territories. Unlike the other global environmental conventions, Ramsar is not affiliated with the United Nations system of Multilateral Environmental Agreements, but it works very closely with the other MEAs and is a full partner among the "biodiversity-related cluster" of treaties and agreements. TM40ZH will operate from the site of La Brenne (FFF-150) (also FFF-031). QRV on the HF bands using CW and SSB. QSL via F5SSN (QRZ.com). [F5SSN]

02/02/2011: For the RAMSAR convention wetland day, Maurice F5IYU/p and Francois F5JNE/p will be active from the Etangs de la Champagne humide (WFF FFF-148) on 2nd and 3rd of February 2011. Maurice will be QRV on 40m, 30m, 20m, 17m and 15m CW/SSB, while Francois will be QRV 80m, 40m and 20m CW/SSB. QSL via home calls, direct or bureau. [wff44.free.fr]

05/02/2011: Andrew, G7COD, will be operational from Embudu Island (IOTA AS-013) on the South Male Atoll (WLOTA 4031), Maldives, using the call 8Q7AK from the 5th February to approximately 18th February 2011. Using SSB and CW on the 80 to 10 metre bands including WARC frequencies. This one is a holiday trip, so he will be operational every day from approximately 07:30 to 08:30, 09:00 to 10:30, 13:00 to 1500 and 17:30 to 18:00 UTC. Spot frequencies to be used are: SSB - 3.793, 7.063, 14.190, 18.133, 21.253 and 24.953 MHz +/- 10KHz to allow for QRM; CW - 3.503, 7.003, 10.103, 14.003, 18.073, 21.003 and 24.893 MHz +/- to allow for QRM. He also hopes to have limited operation on the 160m band but this is not confirmed. All QSL's should be sent via the bureau or direct to G7COD. Please note: 8Q7AK is approved for DXCC credits. For comprehensive details of QSL information etc, please check 8Q7AK on QRZ.com and website: 8q7ak.freewebspace.com/ [Pete's-DX-Newsdesk]

11/02/2011: Members of Casa do Radioamador de Pernambuco (CRAPE), namely Cris PY7GK, Luiz PY7LZ, Ben PY7VI, Jim PY7XC, Ciro PY7ZY and Luiz PU7RLM will be active as PY7CRA from Itamaraca Island (IOTA SA-046) on 11-13th of February 2011. QRV on all HF bands, CW and SSB. QSL direct or bureau to

PY7CRA. [rsgbiota.org]

24/02/2011: Jacques, F6BAX/p, will be active on 24th February 2011 from the Castle of Sainte Agnes (DFCF 06-039), Department Alpes Maritimes/06 and Province Cote d'Azur (DPF 20). QSL via home call, bureau or direct. [radioamateur.org]

25/02/2011: Hector, CE3FZL and possibly others will be active during the South America Lighthouse Weekend (25-27th February 2011) from the Faro Cofradia Nautica del Pacifico (ARLHS CHI-079, WW Loc. FF46DP), Algarrobo, Chile. Plans are to be QRV on 40, 20, 15 and 10 metres, with 100 watts and Mosley TA33M directional beam antenna. QSL direct (QRZ.com) with 2 IRC, or via the bureau. No eQSL! Website: www.qrz.com/db/ce2c [CE3FZL]

26/02/2011: Nathan, KA1YMX, will be active while on vacation to the island of Barbados (8P, IOTA NA-021, WLOTA 0999) between 26th of February and 5th of March 2011. QRV on SSB and CW with a K2. QSL via home call. [NG3K]

27/07/2011: Operators Paul M0TZO, Peter 2E0SQL, Gavin M1BXF, Iain M0PCB, Louis MU6FER and Chloe M0GEJ will be active as MP0HTJ from the island of Guernsey (IOTA EU-114, WLOTA 0013) between 27th July and 2nd of August 2011, including an entry in the RSGB IOTA Contest (30-31st July). Look for activity on all HF bands. QSL via M0TZO, direct or bureau. [rsgbiota.org]

29/07/2011: Amanda KI4IWS and Bill KG4CXY (FISTS #7651) will be active as W4OTN from Core Banks Barrier Island (IOTA NA-067, USi NC033S, WLOTA 0596, Pamlico County), North Carolina, between 29th July and the 1st of August 2011, including an entry in the RSGB IOTA Contest (30-31st July). Outside the contest they will be QRV on 80-10m CW and SSB. QSL W4OTN via the bureau or direct (QRZ.com). [rsgbiota.org]

30/07/2011: Ron, WA8LOW, plus others will be active as homecall/KH8 from Tutuila Island (IOTA OC-045, USi AS007S, WLOTA 4385, WFF KFF-053, Eastern county, Grid Loc. AH45), American Samoa, between 30th July and 14th August 2011. Plans are to be QRV with high power stations on 160-6 metre CW, SSB, RTTY and PSK. The will have beam antennas for 40-6 and vertical on 160 and 80. QSL direct to home calls. [NG3K]

Wish a Happy 100th to a Ham Radio Legend

Leo Meyerson, W0GFQ, a longtime leader in the ham radio industry as owner of
World Radio Laboratories (think Globe Scout and other Globe radios from the
"golden age" of ham radio), will turn 100 years old in February.

QCWA Chapter 154 is hosting a birthday party for Leo and running a special
event station (W0G) on February 24. (Look for W0G on or near 14.260 MHz

between 1800 and 2400 UTC. QSL via the operator you contact.) Leo is planning to be listening in, and may even make some contacts himself.

In addition, QCWA national president Bob Roske, N0UF, suggests that all hams who would like to join the celebration write "Happy 100th Birthday, Leo" on a QSL card and mail it to: Leo Meyerson, W0GFQ, 19 Park Lane, Rancho Mirage, CA 92270. [K4UK]

Ronald Reagan Centennial Special Events

Two amateur radio clubs in California are planning special event stations in honor of the 100th birthday of former President Ronald Reagan on February 6th.

The Ventura County Amateur Radio Society will operate N6R from Thousand Oaks, California, from 1600 UTC on Sunday, Feb. 6, through 0200 UTC Monday, Feb. 7, and intermittently at other times on Saturday (2/5) and Monday. Tentative frequencies (+/- QRM): CW: 3545, 7045, 14045, 21045, 28045 kHz; SSB: 3820, 7260, 14255, 21320, 28490 kHz, plus local repeaters and FM simplex. More details at: www.qrz.com/db/n6r E-mail scheduled requests to (n6rn6r@...m). QSL with SASE (no eQSL or LoTW) to Peter Heins, N6ZE.

The Santa Barbara Amateur Radio Club will operate W6R at various times and from various locations on Friday, Feb. 4 through Monday, Feb. 7. Main operation will be on 2/5 from 0300-2100 UTC. In addition, a rover operation from the Reagan ranch is scheduled on Feb. 7. For updates and QSL information, see: www.sbarc.org/w6r.html [CQ News]

PJ2 - CURACAO

Geoff W0CG/PJ2DX and I will be arriving at the PJ2T station on Curacao
Friday afternoon, and although neither of us are VHF ops, we will have a
radio on 6 meters over this coming weekend.

We have only 100W and a 4.5-element yagi (one element half has dropped off).

In the unlikely event that conditions allow, you will have a much better
chance to work Jean-Claude PJ2BVU, who knows and loves the band!

On the following weekend, please work PJ2T in the CQWW 160 CW Contest!

Hello DXers:

Larry, VQ9LA will be on the air this weekend... his last operating
from there. He leaves for good on Monday January 24th, so if you need
VQ9, work him this weekend. He was on 80 CW and 40 RTTY last night.
Hopefully he'll be on 160 ... lot of folks need him there.

The other item is from the VP8ORK team. A great photo of their
transportation.... on the web site: <http://www.vp8o.com/> says:
"The team sailed aboard BraveHeart at 10:30UTC today, Friday, January
21st, 2011. Watch this space for updates!"
They are expected to be on the air January 27 through February 8th.
Lots of great pictures of the team on that web site.
We wish them good luck and God speed.

A team led by IK0FVC, Francesco, will activate 1A0KM from the Sovereign Military Order of Malta, a rare and unusual DXCC entity, between January 27th and January 30th. He tells The Daily DX that joining him will be G4IRN, I0JBL, I0ZY, I8NHJ, IK0DWN, IK0FTA, IK0IXI, IK0PRG, IW0BYL, IZ0NRG and possibly some other guest operators.

The 1A0KM team is planning to start set-up Thursday morning local time to begin activity with the first station early Thursday morning. Plans are to be QRV on 3.5 through 28 MHz, and possibly 160 meters. They will have three stations, an Elecraft K3, an Icom IC-7400 and an Icom IC-7000. They will also be using three amplifiers, an SPE 1K-FA, SPE 2K-FA and a Heathkit SB-200. For antennas, they will be using a SteppIR "BIG IR" on 10-40 meters, a Cushcraft R6000, dipoles 40 and 80 meters, and a vertical dipole for 30 meters.

Activity is expected on SSB, CW, RTTY and PSK31. They will be QRV until about 1500Z on Sunday. QSL via the IK0FTA Callbook address. All QSOs will be posted on LOTW. All of the 1A0KM team members recommend respect for the DX Code of Conduct -- see http://dx-code.org.

Hi friends

The new final TJ3C web site is published at the following address.

http://www.tj3c.fr/ (http://www.tj3c.fr/)

Enjoy it.!

We need always sponsors. You may help us. On the sponsors page you'll find a suitable tool for. Thanks to all of you.

Don't forget to encourage the team through the guestbook , click on : " Sign in Please!"
Some of you may still use the AOL 9.O VR software; know in such a case that the home page appeared partly under it.

We think that's better to use Google or Google Chrome or Firefox toolbar browsers.

Thanks and 73

Hi friends

Two days ago we asked for an urgent response.

One of our TJ 2011 crew member, our friend Gerard, F2VX, unfortunately had to cancel his trip with us, and we had to find a substitute very quickly.

First we want to thank a lot, all of you who wrote or called us saying they were ready to help us and all of those who forwarded our ask throughout the Ham world community.

We have the great pleasure to inform you that Norbert, DJ7JC has joined the TJ9PF crew.

Norbert is a specialist in Digital and CW modes
In the past, some among you, could have contacts with him, when he was : W6/DJ7JC LA, Samoa 5W0NM (PA0BWL, DJ5IW et DJ7JC), A31A (A31JC) Tonga, ZL/DJ7JC New Zealand, E51NAA - Cook Islands.

Welcome Norbert, DL7JC

Bonjour à tous

Il y a deux jours nous lancions un appel urgent .

L'un des membres de TJ2011, notre ami Gérard, F2VX, a du malheureusement annuler son déplacement avec nous, et nous devions le remplacer très rapidement.

Tout d'abord, nous voulons remercier ceux qui, nombreux, nous ont écrit ou appelés pour nous indiquer qu'ils étaient prêts à nous aider, ainsi que tous ceux qui avaient relayé notre appel.

C'est avec grand plaisir que nous accueillons parmi l'équipe TJ9PF, Norbert, DJ7JC.

Norbert est un grand spécialiste des modes digitaux et de la CW.

Dans le passén certains d'entre vous ont sans doute pu le contacter en expédition à W6/DJ7JC LA, Samoa 5W0NM (PA0BWL, DJ5IW et DJ7JC), A31A (A31JC) Tonga, ZL/DJ7JC New Zealand, E51NAA - Cook Islands;

Bienvenue à Norbert, DJ7JC.

SPECIAL EVENTS -

28/01/2011: Special event station GB4CLB will be active on 28-30th of January 2011 to commemorate the Cromer Life Boat -- Sea Over Sand and SOS Radio Week, by the Norfolk County RAYNET group. QRV 80m SSB, CW and RTTY. QSL via G4PSH, bureau or direct. Website: www.norfolkraynet.org.uk/page92.html

28/01/2011: Southport and District Amateur Radio Club will be running GB5LLB from Lytham Lifeboat Station on 29 January 2011. The station is being run as part of SOS Radio Week and is being sponsored, with all monies received going to the RNLI. Contact can be made on 2m and whichever HF bands are open on the day. QSL via G0JCQ (QTHR). The club would like to express their thanks to Snowdonia Radio Company for supporting the station by supplying the vertical HF antennas that will be used. Further details can be found on the club's website at: www.sadarc.org.uk/. [GB2RS]

29/01/2011: In the period from 30th January to 6th February 2011 two key cities of Kazakhstan - Astana and Almaty will conduct the 7th Asian Winter Games. About 30 Asian countries are expected to send their sportsmen for the Games. The Games will include competitions on 11 sports and the sportsmen will contend for the 65 sets of medals. Almaty Amateur Radio League (ARL) is organizing activation of special amateur radio stations including UN2011G and 8 stations with UP2011 prefix. The suffix of UP2011-stations will imply the abbreviation of the 8 winter types of sports to be featured during the Games in Almaty and Astana. UN2011G (Game) - ARL club station, UP2011AS

(alpine skiing), UP2011BN (biathlon), UP2011CS (cross-country skiing), UP2011FG (freestyle skiing), UP2011HB (Russian hockey, bandy), UP2011IH (ice hockey), UP2011SJ (ski jumping) and UP2011SO (ski orienteering). Special stations will be active during the period from 29th January (starting at 18:00 UTC) until 6th February (ending 18:00 UTC) of 2011 on all the HF bands including WARC. Modes of operation: CW, SSB and Digital. Those who will manage to make QSOs with special stations can apply for a special award "Medeo - 2011" established specifically for the occasion. From: Zakrzewski Artur un6qc@...

Today, on January 29, 2011 from 18.00UTC, begin the 7th Winter Asian Games.

Members of the Almaty Amateur Radio League (ARL) is organizing the activation of special event stations that include UN2011G and 8 stations with UP2011 prefix (see list below) and one station UP2011AWG from Astana (capital city) during the 7th Asian Winter Games between January 29th (18.00 UTC) and February 6th (18.00 UTC). The suffix of UP2011 stations will imply the abbreviation of the 8 winter types of sports to be featured during the Games in Almaty and Astana.

Look for the following stations to be active on all HF bands including 30/17/12m using CW, SSB and the Digital modes:
UN2011G (Game) - ARL club station (regular callsign UN0GL)
UP2011AWG (Asian Winter Games) - contest team UP7Z from Astana,
UP2011AS (alpine skiing) - regular callsign UN8GU, op. Andy
UP2011BN (biathlon) - regular callsign UN7QCC, op. Victor
UP2011CS (cross-country skiing) - regular callsign UN6GAE, op. Alexander
UP2011FG (freestyle skiing) - regular callsign UN8GZ, op. Vitaliy
UP2011HB (Russian hockey, bandy) - regular callsign UN6GT, op. Valeriy
UP2011IH (ice hockey) - regular callsign UN2G, op. Evgeniy
UP2011SJ (ski jumping) - regular callsign UN6QC, op. Arthur
UP2011SO (ski orienteering) - regular callsign UN8GC, op. Michael

QSL via regular callsigns (direct or by the Bureau).

A special awards ("7th Asian Winter Games 2011 Award" and "Almaty2011 Award") is available for those hams who manage to make QSOs with these special stations.

For more information, see: http://www.un-dx.ucoz.com (ENG) and http://www.qrz.kz (RUS).

Program coordinator: Artur, UN6QC.

Hi friends

The TJ9PF licence has been signed to day by the Home Secretary of Cameroon government.

On next Thursday, it will be available to be picked up, when the crew will arrive in Douala, at Mr LOUMOU's office at the Telecommunication Regulation Authority of Cameroon.

Maurice, F5NQL

Bonjour à tous

La licence de TJ9PF a été signée ce jour par le Ministre de l'Intérieur du Cameroon. Dès jeudi prochain elle sera à la disposition de l'équipe, pour récupération à leur arrivée à Douala, au bureau de Mr LOUMOU, à l'ART Camerounaise.

BITS & PIECES -

‘The SOC CW Bash’
To commemorate the passing of one of its founding members, the Second Class Operators Club will be holding its first ‘SOC CW Bash’ on Saturday April 2nd between 0000z and 2359z. Many people will remember Hank Kohl K8DD (SOC #69) as one of the main engines behind QRP ARCI , a professional CW operator and a seasoned contester so as a fitting tribute, the SOC hopes to combine all aspects of Hank’s talents and passions in one event.
Any operator can take part in the ‘Bash’, and although not a contest, the SOC will be issuing its very own special certificates for top scorers in both a QRO and QRP section. The club will hopefully be activating all of its own call signs during various times of the 24 hour period - W0SOC, M0SOC, W1SOC AND W5SOC - and although there are no ‘strict rules’ the format will be roughly as follows:
- Time: 0000z to 2359z on Saturday 2nd April (nearest Saturday to April 1st).
- Call ‘CQ DD’ in memory of Hank around the QRP calling frequencies: 3560, 7030 (also check 7040), 14060, 21060, 28060. If QRO, please limit power to 100W.
- Members to exchange membership number, name and RST.
- Non members to exchange name and RST.
- Stations worked on different bands will count as separate QSO’s e.g. If you work W0SOC on 80m, 40m and 20m this will count as three points but if you work W0SOC twice on 80m this will only count as one.
Please submit your scores to Ryan G5CL at RPike78088@btinternet.com by Saturday 16th April (if you solely use QRP, please note this clearly in your email). [G5CL]

G3RAF OPERATIONAL -

As from 1st of December 2010 to 31st of March 2011 the G3RAF callsign will be held by Ian M0RGI, authorised by (Michael M0MJG) RAFARS Council. Royal Air Force Amateur Radio Society, G3RAF is the callsign of the RAFARS Council Group. It is operated by Council Members only. It is intended that it will rotate between suitably licenced Council Members and may be used for special event purposes throughout the United Kingdom. [Pete's-DX-Newsdesk]

AOTA, AIRFIELDS ON THE AIR WEEKEND 2-3 APRIL 2011
Once again The Royal Air Force Amateur Radio Society will be putting on an AOTA Weekend 2/3 April 2011.
All Radio Amateurs Stations World Wide are welcome to take part, and in particular RAFARS Members/ATC/Clubs are asked to take part to put on as many AOTA Stations as possible during this weekend to make it a great success. All that is needed is either a current or an old RAF Military Establishment which was used during the wars or perhaps may still be in current use.
The usual AR Licensing Regulations apply. You can either use a SES, GX or /P call-sign and to make it possible for your activation to give out points, you must register with the RAFARS AOTA Manager Vince G4DQP QTHr in qrz.com or email earlval@... with details of call-sign to be used, the Location/Airfield, Name and Call-sign of person operating or running the SES.
Once you have registered with Vince you will then be able to inform stations worked that you are on the AOTA activations list and points can be claimed from your Station by any Station or SWL for an AOTA Certificate. The operating details are SSB CW on any Band (No Digital modes at present).
Certificates are available to all Radio Amateurs/SWL. To obtain a Certificate you must work a minimum of five AOTA Registered stations for a Bronze Certificate and/or 50 AOTA Registered Stations for a Gold Certificate.
The Cost of a Certificate is £5 payable to RAFARS and sent to RAFARS Award Manager Andrew M3NDZ QTHr in call books and in qrz.com.
Andrew is also the RAFARS QSL Manager and can be contacted via email at andrewhumphriss@... if required. Send Andrew the usual details required from your log Date, Time, Call-sign, Band, QTH,Op Name, Name of Airfield or Military Establishment and do not forget to enclose your address where Certificate are to be returned.
If you have any queries or are not sure of regulations then contact Vince G4DQP. AOTA Activations may also be seen on: http://www.qsl.net/g4dqp/Activations.html [Pete's-DX-Newsdesk]

9924. [ICPO] 4A4A DXpedition - Revillagigedo (XF4)

UPDATE -
==========
Dear friends:

The Revillagigedo (XF4) March 2011 DXpediton has been finally officially announced.

The assigned callsign is "4A4A".

See the web site: http://www.revillagigedo2011.com/

The team leader, and expedition organizer, is Marcos, XE1B and the QSL manager is David: EB7DX (see: http://www.eb7dx.com). Confirmation will only be DIRECT and LOTW.

A team of 9 operators (see the official web site for operators details) will operate from "Isla Socorro" from the 4th to the 19th of March 2011.

Isla Socorro, iota NA-030, (officially "Benito Juarez" island) is located -aprox- at longitude 111º West and latitude 18º 46´ North. WAZ zone 6. ITU zone 10. Locator: DK48MS

Sunrise will be around 13:20 UTC and Sunset around 01:00 UTC.

I have placed various maps and images of Isla Socorro, and Revillagigedo, in my picassa album: https://picasaweb.google.com/EA4AK.Santos/4A4AVARIOS#

Because propagation conditions are still low or average we must make an special effort to optimize the DX windows. I have prepared some "propagation movies" (one per band) for Revillagigedo to help those with less experience estimate the best times/bands to work 4A4A. You can see the movies in my YouTube "channel": http://www.youtube.com/user/EA4AK

All the JPG images of those movies can be more carefully scrutinized at the picassa
album:https://picasaweb.google.com/EA4AK.Santos/4A4APROPAGATIONIMAGES#

DXpedition plans include to keep a CW team and a SSB time simultaneously on the air at all times. Yagis will be used for the top bands and verticals for the low bands. Efforts are being made to bring some linear amplifiers to the island. All bands from 160 to 10 (maybe 6) will be active in CW, SSB and digital modes.

The 4A4A DXpedition is exclusively financed by the personal financial effort of the team of operators. Please help us find some support from sponsors, clubs or other organizations. See the official web site for details on how to help us. http://www.revillagigedo2011.com/

The licenses and permits for the 4A4A DXpedition have taken long time to obtain due to the complexity of this archipelago. Revillagigedo is a natural reserve, a protected reserve of the biosphere. Only visits or expeditions of scientific nature are permitted by the relevant Mexican authorities (a prestigious Mexican geologist will travel with the team to perform studies of natural life interest while 4A4A is running). Also it is an emplacement of military interest, and tightly under the control and supervision of military authorities. These two permits from those two mentioned authorities are absolutely necessary beforeproceeding to request an amateur radio operating license to the telecommunications authorities.

The 4A4A March 2011 Revillagigedo has all the licenses and permits on hand. The documentation will be sent to DXCC bureau.

To keep everyone updated on the evolution of the 4A4A DXpedition I will personally twitt status messages from my @EA4AK twitter account. Please follow me at: https://twitter.com/EA4AK

See you on the air!

* * * * * *
On June 30th 2011, The Teslin Historical and Museum Society, owner and
operator of the George Johnston Museum, Mile 804 Alaska Highway,
Teslin, will host a large gathering to celebrate the Grand Opening of
its historical and (now) unique Aeradio Navigation Range Building
(1941), with its interior exhibits.

The exhibits tell the story of Teslin from 1940-55 when its quiet and
simple northern village life was overturned with the coming of RCAF
Teslin base, the Aeradio Navigation Range, and the Alcan Highway.
The story is told with transmitters, other artefacts, text and
photographs inside a rare 1941 radio range air navigation building.

We would be delighted if Yukon ham operators, former DOT telegraphers,
amateur radio and radio telecommunication enthusiasts would attend the
Opening. We feel that this is appropriate because DOT staff of RCAF
Teslin not only handled hundreds of thousands, perhaps millions, of
radio messages from 1940-55 but because they were avid amateur radio
hams on their off duty hours. They controlled this aeradio building
and were central to Teslin's wartime role.

The Society will welcome dignitaries and guests, such as yourselves, to Teslin for a formal ribbon-cutting, a sit-down traditional Dominion Day Silver Tea, to view other new exhibits inside the Museum, a display of ham radio (so popular in the 1940s) and other events recalling that era in Teslin. Guests will be invited to "make a day of it" and visit the local high-quality Yukon Wildlife Gallery and Teslin Tlingit Council's elegant Heritage Centre exhibits. This invitation is a preview to the formal invitation to be sent in Spring of 2011.

Should you wish to arrange overnight accommodation, please contact Yukon Motel (1 867- 390 2443), Teslin Lake Motel (-390 2521) or Dawson Peaks (-390-2244) for a selection of rooms, cabins and meals. Teslin Lake offers superb trout, grayling, burbot and pike fishing. Charters and leisure boat rides are available. Excursions for small groups can be arranged by the Museum.

HAITI, HH. Operators Don, AF4Z and Jan, K4QD will be QRV as HH4/home calls from
Northwest Haiti on Feb 18 to March 5. Activity will be on 80 to 10 meters using
CW, SSB and RTTY as time and availability of power permits. QSL via home calls.

Operator note: For much of this planned trip we will be working at an orphanage
in a remote area about 30 miles from the mission where we normally stay and
operate. We will be much more portable and this is the reason for no planned
160 meter operation this trip.

73,
Jan K4QD

The Future Country of Southern Sudan

http://en.wikipedia.org/wiki/Southern_Sudan

As reported widely in the world press, the results of the recent
referendum
on the future of the Southern Sudan region are now public, and with an
overwhelming majority, the people have readied the way for another
independent state. Also, the current mother country, the Republic of
Sudan,
has agreed to honor the referendum results while the President of the
United
States has pledged U.S. recognition of the new country in July, 2011.

The current plan calls for that country to declare its independence on
July
9 this year, likely to be followed by its well-prepared entry to world
organizations, such as the United Nations. Several alternative names for
the new republic are still under consideration ? probably the name Sudan
will not be part of the new republic's nomenclature.

With that scenario in mind, a working group has been established to enable
Amateur Radio to enter the scene with a professional, supportive role
in the
context of introducing the new country to the world of Amateur Radio. It
should be noted that this potential new country is emerging with a limited
administrative structure, and the first Amateur Radio activation should -
prior to the operation - be accompanied with a well-thought-out plan
prepared in partnership with Southern Sudan's relevant authorities,
such as
telecommunications, security and education.

The group of Alex, 5Z4DZ/PA3DZN; Robert, S53R and Martti, OH2BH has organized such an effort in discussions with Southern Sudan's institutions and other related parties in the region.

Many of Southern Sudan?s current institutions are represented in Nairobi, the home base of 5Z4DZ. Nairobi makes a practical hub for the project, facilitating the conduct of negotiations and travel to Juba, the region?s future capital.

S53R and his team, with several well-known hams, are based in the region and
maintain the telecommunications structure for UNWFP with related professional contacts. Their regional offices are in Southern Sudan with all needed facilities and equipment.

The plan is to use OH2BH?s past work and material for the establishment of Amateur Radio in evolving societies as a foundation for assisting the newborn nation to draft and utilize Amateur Radio to its full potential in a
professional setting when Southern Sudan joins the international family of nations.

As public interest in Southern Sudan will run high over the next several months, this group has invited Bernie, W3UR to be its spokesman in dealings
with the Amateur Radio community. The group will also be holding discussions about the provision of potential help to Southern Sudan's prospective Amateur Radio Service with several entities, such as NCDXF, in addition to obtaining resources from Japan.

The group wants to encourage the DX community to closely follow the rather complicated process unfolding around the emerging new nation, and hopes for
a peaceful continuation of the process as the official referendum results are announced, leading up to the ultimate declaration of independence by the
new country.

Updates will be released from time to time between now and July, and it is predicted that prospects for a new DXCC counter are some months away with preparations well underway.

Hi friends
Last news from TJ9PF
Four stations were active last night. Only one beverage antenna was set up for 160m.
To day, the last parts of the antenna farm will be settled.
There were a big problem with the AC supplying yesterday afternoon, but now all seems to be in order.
For the online log , please be patient ; the Internet connexion is out of order and have to be fixed.
After 17h00 of traffic, the first results are : CW/SSB 3950 QSO and RTTY 950 QSO
The weather is very hot .

I.C.P.O. (Islands, Castles & Portable Operations)
UPDATE -
==========
This Dxpedition "update" email is being sent to:
Sable Island Dxpedition Supporters, Consultants/Advisors and
supporting Clubs/Organizations/friends. Please feel free to forward
this update to other interested parties. (The CY0 team appreciates and
thank you for your continuing interest and encouragement)
==========
Sable Island (CY0) update: The team has set 7-15 March 2011 as the target
operational schedule for Sable Island. We welcome, Wayne, K8LEE who has
recently joined the team replacing WA4DAN who had to withdraw due to
business commitments.

We will be traveling to Halifax, Canada on 5 March to take care of final
logistics details in preparation for the charter flight to Sable on the 7th.
The team has maximized their personal schedules to be as flexible as
possible to adapt to any potential weather delays. The website will be
updated periodically as to the status and any potential impact on the
planned activation date, including while we are in Halifax.
http://www.cy0dxpedition.com/

As most everyone knows, this will be our third attempt due to long term
weather delays. Although weather will always be impossible to predict
accurately, we have been encouraged by several successful "supply" flights
to Sable this past month. Should we experience weather delay, we hope to
"stay" in Halifax hoping that the delay with be short term rather than an
extensive delay. Thus, we will remain ready to go on a day-to-day basis for
a period of time as the weather permits.

Keeping fingers crossed to "see you in the pile up" soon!! :-)

Hi friends

Last news from TJ9PF

Four stations were active last night. Only one beverage antenna was set up for 160m.

To day, the last parts of the antenna farm will be settled.

There were a big problem with the AC supplying yesterday afternoon, but now all seems to be in order.

For the online log , please be patient ; the Internet connexion is out of order and have to be fixed.

After 17h00 of traffic, the first results are : CW/SSB 3950 QSO and RTTY 950 QSO

The weather is very hot .

Atauro Island DXpedition
VK8NSB, VK8FNCY, 9M6DXX, 9M6XRO and MW0JRX will be operating from Timor-Leste in East Timor between 16 and 26 September.

The location will be Atauro Island, OC-232, 30km north of the capital, Dili. The group is working closely with the Timor-Leste licensing authority and the DXpedition callsign will be announced soon.

There will be three stations, two using full licensed power linear amplifiers and a third running 100W.

Antennas will mainly be quarter-wave verticals and vertical dipoles, all located within a few metres of the ocean.
For 160m an inverted-L will be used.

Activity will be on all bands 10 - 160m using CW, SSB and RTTY.

Atauro Island was chosen in order to provide a quiet location, well away from the electrical noise of down-town Dili. The beach-front site will also allow the group to put up vertical antennas right by the ocean, providing additional low-angle gain.

In addition, the island counts as OC-232 and is part of a very rare IOTA group, having being confirmed by only 18% of active IOTA participants.

TJ9PF News

3/02/2011 07h30 GMT

By phone to Thierry, F4TTR:

Frank, F4AJQ says

14 000 QSO's logged this morning but :

Biggest problems ever seen with AC supplying this morning . It's annoying
and annoying, so the PA temporization may delayed TJ9PF calls or answers,
after a power cut.
Listen the frequencies and wait for the complete QSO before leaving .

The first signals on 17m CW are starting now (This band was not worked
yet at the time)

The Internet is extremely slow and capricious;However we will continue to
try
the log uploading on Club Log, as regularly as possible.. PATIENCE PLEASE

Le compteur est à 14 000 QSO ce matin ...

Appel de Frank F4AJQ sur mon 600 fixe .
Enormes problèmes ce matin avec de très nombreuses coupures d'électricité .
Ne vous étonnez pas si çà coupe d'un seul coup restez à l'écoute, à chaque
coupure il faut attendre la tempo des amplis etc ....

Ils doivent démarrer sur 17m CW dans qqs minutes car pas encore travaillé
ce mode sur cette bande.

L'Internet est très capricieux et extrêmement lent,
Dès que possible les logs seront chargés sur Club Log! PATIENCE SVP !!!

Hi friends

All the day long there were heavy problems with the AC supplying.

Now it's night in Kribi Te crew have decided to be present on the bandswith six stations, but five are barefoot 100 watts.

Only one station on 160m uses an Acom 1010 PA.

More than never, you have to listen carefully and more than never we ask you to be patient.

The Internet is still instable! know we do all that's possible to upload our log without too long delays.

Salut amis

Tout le jour long il y eu de gros problèmes de coupures de courant.

Maintenant c'est la nuit à Kribi. L'équipe a décidéd'être présente sur les bandes avec six stations, mais cinq sont n'ont que 100 watts.

Une seule station sur 160m, utilise un ampli Acom 1010.

Plus que jamais, veuillez écouter soigneusement et nous ne vous demandons plus que jamais d'être patient.

L'Internet est toujours instable ! sachez que nous faisons tout qui est possible pour télécharger notre log dans les moins mauvaises conditions de délai.

Hi friends

Yesterday we said ypu that the team had to stop five upon six PA. Only one
was used for 160m.
This is the explanation:
The TJ9PF works with the Hôtel AC generator, and all the energy was used
for the traffic radio .
So it means also numerous electricity cuts, no current water and showers
availables nor conditioned air.
It was the main reason.
The weather is very hot.
Have an idea reading the forecast for Kibri at:
http://monde.lachainemeteo.com/meteo-cameroun/ville/previsions-meteo-kribi-8531-0.php
(http://monde.lachainemeteo.com/meteo-cameroun/ville/previsions-meteo-kribi-8531-0.php) in
centigrades
or
_http://www.datameteo.com/meteo/weather_kribi_
(http://www.datameteo.com/meteo/weather_kribi) in Farenheit.
For the traffic on lower bands and dispite the robbery of the most part of
a Beverage antenna (more than 150 meters of copper wire robbed), to day
are set up three Beverage antennas as follow :
One for NA - 130m
One for EU - 250m
One for JA and Far East – 150m
To make contacts with the VK/ZL area is always very difficult , even if
the crew send spécific calls.
About 9000 QSO were logged yesterday on Sunday.
To day Monday the traffic is scheduled like that :
- 10 SSB
- 15 SSB
- 12 CW
- 17 CW
- 20 et 15 RTTY

I'm always receiving messages about the traffic, or with questions
informing for mistakes or losses in the log.
All of them are forwarded to Serge/F6AML, Pilot station.

To avoid time losses, I think it's more convenient to send them directly
to Serge/F6AML at :
pilote.f6kop@...

Bonjour à tous
Nous vous informions hier, que l'équipe avait réduit à la seule bande 160m
l'utilisation d'un amplificateur.
L'explication est simple, TJ9PF fonctionne sur le groupe de l'hôtel et
consommait toute l'énergie disponible pour le trafic radio.
.
Ce qui voulait dire aussi beaucoup de coupures d'électricité, pas d'eau
courante, pas de douches, pas de climatisation.
Ceci était la raison principale.
La chaleur est étouffante .
Voir les prévisions pour Kribi :
http://monde.lachainemeteo.com/meteo-cameroun/ville/previsions-meteo-kribi-8531-0.php

degrés
centigrades
ou _http://www.datameteo.com/meteo/weather_kribi_
(http://www.datameteo.com/meteo/weather_kribi) en degrés Farenheit.
Pour le trafic bandes basses, et malgré le vol d'une grande partie d'une
Beverage dans la nuit de samedi à dimanche (plus de 150 mètres de fil de
cuivre) , aujourd'hui 3 Beverages sont installées :
une pour NA de 130m
une pour EU de 250m
une pour JA de 150m
La zone VK/ZL est toujours très difficile malgré les CQ VK/ZL répétés
Environ 9000 QSO hier dimanche.
Aujourd'hui lundi prévision de trafic :
- 28 SSB
- 15SSB
- 12CW
- 18 CW
- 20 et 15 RTTY

Je reçois toujours des demandes concernant le trafic ou des questions
concernant le log, la présence d'erreurs etc…
Ces messages sont transmis à Serge/F6AML, station pilote. Cependant pour
éviter les pertes de temps, il serait préférable d'envoyer ces messages
directement à : _pilote.f6kop@..._ (mailto:pilote.f6kop@...)

Phil, G3SWH and Jim, G3RTE will be active from West Island in the Cocos (Keeling) Islands between 22nd February and 5th March 2011.
The 2009 "Most Wanted" survey by the DX Magazine shows the Cocos (Keeling) Islands at #75 worldwide for DXCC purposes.
The Cocos (Keeling) Islands also count as OC-003 for IOTA purposes, CQ zone 29 and ITU zone 54.
We will both use the single callsign of VK9C/G6AY. Our activity will be on CW only on all bands 80-10 meters. There will be no 160, 6 metres or EME activity.
Propagation permitting, we plan to have two stations on the air for as many hours every day as is possible. Our main objective is to work as many European, North American and ROTW stations on as many different bands as possible and plan to make at least 15,000 QSOs.
QSL via G3SWH, either via the OQRS facility on Phil's web site www.g3swh.org.uk <http://www.g3swh.org.uk> (preferred), direct with SAE and adequate return postage, or via the bureau.
This will be a very expensive DX-pedition. We are happy to meet the costs of transport to and from the islands, but are seeking sponsorship and donations from individuals, DX clubs and organisations towards our living expenses on the island, printing QSLs and the like. Donations with QSL requests are very welcome.
Subject to a good Internet connection, we will update the on-line log on Phil's web site and upload to LoTW on a daily basis.
There is more information at www.g3swh.org.uk/vk9c-g6ay.html <http://www.g3swh.org.uk/vk9c-g6ay.html>

Hi friends
The most important thing was yesterday the return of the
public AC supplying returned, so the PA's were used anew.
The band program was used as scheduled on 17, 15, 12 and 10 meters, in the
three modes.
The last log upload is marked on Feb, 14th. Please be patient for an
other, the Internet connexion is always so slow and unstable.

Bonjour à tous
L’une des plus importantes nouvelles est le retour dans la journée d’
hier, du courant secteur qui a permis de réutiliser les amplificateurs
Le plan de bande prévu a été suivi sur 17, 15, 12 et 10 m dans les trois
modes.
Le log en ligne est marqué du 14 février. SVP soyez patient pour le

Hi friends

33500 QSO are logged and uploaded on Log-online on Feb 15th at 1614 utc

Know that the Internet flux is around 4 Kb/sec. when the system performs well.. If Internet doesn't perform, the crew has to consider a lot of cuts during the transfer;.
The messages forwarded by Serge/F6AML, pilot station cannot be open the most part of the time.
They decided that all rhe messages received about mistakes or so in the logbook will be treated when the crew will be back home.
More than ever be Patient. Thank you

You will be informed in time.

Some ones asked why the longest Beverage antenna was directed to Europe while the shortest ones are directed one toward America and the other toward Far East Asia/Oceania.

The crew had to consider the surface of the yard available around the Hotel building.

Exceptionally they were been authorized to set some parts of the antennas out of the yard , with some precautions but they could do only this :

The longest Beverage antenna is set up along a short part of a road directed to Europe.

One of the other is set up from one of the Hotel floors, and goes accross the road to end in the bush.

The last one , is set up toward America, runs along the short track going from the hôtel to the beach.
Don’t forget they had to do so also after the loss of a big part of copper wire which was stolen last days, as we said in a previous message..

The weather is always very hot and storms are often coming. Statics are annoying the traffic and the propagation is sometimes very strange.
This night focus on low bands as usually and 40m.
Even if the public AC distribution came back, there are always a lot of cuts and Murphy helping they
always arrive at worst the moment

Bonsoir à tous
33500 QSO dans le log téléchargé ce soir 15 février à 1614 utc

Sachez que le débit d'Internet est d'environ 4Kb/seconde quand le système est au mieux de sa forme, sinon ce ne sont que coupures et autres blocages.
La plupart du temps les messages envoyés à l'équipe par Serge/F6AML, station pilote, ne peuvent être ouverts qu'une fois sur deux voire moins.
Il a été décidé que tous les messages concernant des éventuelles rectifications sur le log seraient traités au retour de l'Equipe en France.
Plus que jamais il vous faudra être patients.
Vous serez informés en temps utile.
Quelques uns se sont interrogés sur la configuration des antennes Beverage. Pourquoi la plus longue est elle pointée sur l'Europe, et les plus courtes sur l'Extrême Orient et l'autre sur l'Amérique. ?
La configuration du terrain en est la cause. La surface disponible autour de l'hôtel étant insuffisante, ils ont du installer une partie de ces Beverage en dehors de la propriété à des endroits accessibles malgré tout. La Beverage Europe court le long d'une petite partie de route pointée sur l'Europe.
Pour l'Asie, elle enjambe la route et finit dans la brousse, quand à la troisième, elle est disposée le long d'un chemin menant à la plage.
N'oubliez pas non plus qu'ils se sont fait voler 150 m de fil de cuivre.
La température est toujours aussi élevée et les orages provoquent des statiques qui perturbent le trafic. La propagation est parfois très étrange.
Cette nuit bandes basses comme d'habitude + 40m
Même si le courant secteur est revenu, ça n'empêche quand même pas les coupures, qui interviennent toujours au mauvais moment bien sûr.

Hi friends

Last night there were again a stormy weather

The final target has been reduced to 70 000 QSO (first it was 80 000)

These afternoon following a big ask of the ham community, three bands were worked in RTTY, mode which will be in focus for the next days.

Bands and modes scheduled for this evening and next night:
160 ssb between 20:00 and 21:00 GMT

On the other bands :
80 cw, 17 cw, 20/30/40 rtty

Know that all the bands except 80/160 are completly dead between 0200 and 0500 utc.
It's for a crew a good bargain took to sleep a little; why staying behind the xcvers for nothing, when the operators, begun all of them to be tired ?

To morrow, according to the propagation forecast they will be active as follow :

20 m - 6h30 utc, 17 m - 6h45 utc, 12 m - 8h00 utc, 10 m - 8:30 utc

Bonsoir à tous

La nuit dernière il y a encore eu des orages !

L'objectif à été ramené à 70.000 qso

3 bandes cette après midi sur rtty et le trafic va s'intensifier sur le mode RTTY selon une demande importante de la communauté

Ce soir 160 ssb entre 20:00 et 21:00 GMT

Egalement en soirée
80 cw, 17 cw, 20/30/40 rtty

Pour info toutes les bandes sauf 80/160 subissent un Black Out entre 2h00 et 5h00 GMT, les OM en profitent pour dormir un peu ; cela ne sert à rien de rester devant un TRX pour rien et les heures de sommeil commencent à manquer...

Demain matin Ouvertures des bandes hautes selon la QTR
20 m 6h30 tu
17 m 6h45 tu
12 m 8h00 tu
10 m 8:30 tu

BITS & PIECES -

8th ANTARCTIC ACTIVITY WEEK (AAW) -
The 8th Antarctic Activity Week (AAW) will take place from Feb 21-27, 2011.
Several special event stations will be activated and this is a good chance
to collect WAP reference numbers for the Worldwide Antarctic Program (WAP).
For more information check the website: www.waponline.it/
One special event station will be AO1AAW from Spain operated by Jose EA1CUB,

Juanjo EA1WX, Javier EC1KV, Daniel EB1LA, Juan EA1AUM, and Jose EA1CS. They
are QRV on all bands from 160m-10m handing out the reference number WAP-023.
QSL cards should be sent to EA1GHT, via bureau, direct or via LoTW.
Another special event station will be IO5ANT from Italy (WAP-210).
The station is situated in the "Museo Nazionale Dell Antartide" in Siena.
QSL cards should be sent to IW5EFX, via bureau, direct or via LoTW.

VK4LDX/P HORN ISLAND (UPDATE) -
Craig, VK4LDX, will be active as homecall/p from Horn Island (IOTA OC-138)
in the Torres Strait Islands, on 10-14th of March 2011. He plans to operate
18 hours per day. Craig will arrive on the island in the morning and will be
QRV as VK4LDX/P from around 0800 UTC on the 10th using a 40m dipole,
Butternut HF9V vertical and Spiderbeam 10-15-20 tribander. Operation will be
on SSB, PSK31 and RTTY (I don't do CW) on 10, 15, 20 and 40m. This IOTA has
only been claimed by 19.5% of participants, it was last activated in 2007
for 2 days and prior to that for two days in 2002. QSL via home call, direct
or bureau. Craig does not use eQSL or LoTW. More details will be provided
over the upcoming months. Website: vk4ldxoc138.blogspot.com/ and

Hi friends
We thank, John/F5VHQ and Sam/F6AML for the news :
As the best things , the TJ9PF 2011 aventure is ending. The last 24 hours of traffic are on.
For to day, look for them as follow.
14CW 18 CW 28 RTTY , untill the bands will dead, and also on 14+21+24 RTTY

The next night look for them on 40m.
The antennas will be dismantled to morrow morning in this order 160, 80 then 40m.
After the last QSO around 1300 UTC, TJ9PF will be off.
The time of the memories and the assessment will start
The last upload of the log happened yesterday evening at 1900
If statistics have any interest for you, have a look at :

The last QSO has been logged at 1200 z.

The first target of 80000 QSO wasn't reached but despite all of the problems they suffered with electricity, statics and propagation they finnally stopped on about 67000 QSO.

One of the most important thing is they have once again broken the RTTY QSO ’s number world record in a Dxpédition, with more than 17000.

They kept the previous reord since they broke it for the first time in 2009 during TS7C dxpedition. They always keep also the Digital Dxpedition QSO World record..

Yann, F1NGP has uploaded the complete logbook on Club_log - _http://www.clublog.org/charts/?c=TJ9PF&a=embed_ (http://www.clublog.org/charts/?c=TJ9PF&a=embed)
The
corrections to be made will be considered when Yann will be back home.

They are all occupied to dismantle and pack the gear. They have no more time for the bus will pick up them at the hôtel at 1700 , for driving to the Airport.

We are waiting for our TJ9PF friends to morrow morning at Paris CdG

Many thanks to all of you who made TJ9PF a success.

Opération TJ9PF, terminée.
Le dernier QSO a été enregistré vers 1200 z.
Les 80 000 QSO n’ont pas été atteints à cause notamment des problèmes de coupures électriques, des statiques d’après orage et de la propagation parfois incertaine.
Finalement le trafic s’est arrêté à 67 000 QSO.
Le record de QSO en modes numériques qui avait été battu par les KOP de l’ équiipe TS7C en 2009 a été pulvérisé par les KOP de TJ9PF, avec plus de 17000 QSO en RTTY.
Le record de QSO tous modes digitaux a également été pulvérisé.
Yann, F1NGP a téléchargé le dernier log sur _http://www.clublog.org/charts/?c=TJ9PF&a=embed_ (http://www.clublog.org/charts/?c=TJ9PF&a=embed)
Les corrections s’il y a lieu seront éffectuées dès son retour à la maison.
Ils démontent et emballent les derniers éléments d’antennes et des stations.
Ils n’ont pas trop de temps car le bus vient les chercher pour les emmener

à l’aéroport à 17h00.
Nous attendons nos amis de TJ9PF, demain matin à Paris CdG.
Merci à tous, grâce à vous, TJ9PF aura été un succès.

VK9C, COCOS KEELING ISLANDS (Update/Reminder). Operators Phil/G3SWH and Jim/G3RTE will be active from West Island in the Cocos (Keeling) Islands between February 22nd and March 5th. The Cocos (Keeling) Islands count as OC-003 for IOTA purposes. The 2010 "Most Wanted" survey by the DX Magazine shows the Cocos (Keeling) Islands at #76 worldwide for DXCC purposes. Both operators will use the single callsign of VK9C/G6AY. Their activity will be on CW only on all bands 80-10 meters. There will be no 160, 6 meters or EME activity. Propagation permitting, they plan to have two stations on the air for as many hours every day as is possible. Their main objective is to work as many European, North American and ROTW stations on as many different bands as possible and plan to make at least 15,000 QSOs. QSL via G3SWH, either direct with SAE and adequate return postage (recommended), via Phil's web site for a bureau reply or via the Bureau. This will be a very expensive DXpedition. They are happy to meet the costs of transport to and from the islands, but are seeking sponsorship and donations from individuals, DX clubs and organizations towards their living expenses on the island, printing QSLs and the like. There is more information at: http://www.g3swh.org.uk/vk9c-g6ay.html

WTDXA is a sponsor of this DXpedition

UK Six Metre Group launch newsletter
The United Kingdom Six Metre Group (UKSMG) has launched an initiative initially to UK radio clubs and societies, to keep them informed regarding operating on 50MHz. A bi-monthly newsletter will be e-mailed to club secretaries who have registered to receive it. The newsletter will contain a wide variety of information including practical operating tips. Much will be specifically targeted at the large number of operators who have not previously experienced the enhanced F2 propagation expected during the sun spot cycle peak in 2012. Any club secretaries who have not already registered to receive the newsletter can do so at www.uksmg.org/phplist

ARLB009 New Section Manager Elected in Arkansas

In the only balloted Section Manager election this winter, ARRL members in
Arkansas have elected Dale Temple, W5RXU, North Little Rock, as Section
Manager for the next two year term of office that starts April 1. Temple
received 362 votes, and his opponent, incumbent Section Manager J. M. Rowe,
N5XFW, of Hot Springs, received 290 votes. Rowe has served as Section
Manager since December 2008. Ballots were counted and verified at ARRL
Headquarters on Tuesday, February 22.

Temple has served as the top elected Section official in Arkansas before. He was Section Communications Manager for one term of office in 1981-1983, and as Section Manager from January-September 1988. Over the years, Temple has also remained active in the Field Organization, serving as an Emergency Coordinator, a District Emergency Coordinator, an Official Emergency Station and as an Assistant Section Manager.

The following incumbent ARRL Section Managers did not face opposition and were declared elected for their upcoming terms of office beginning April 1: Tom Fagan, K7DF, Arizona; Tom Brehmer, N0LOH, Iowa; Jim Brooks, KY4Z, Kentucky; Malcolm Keown, W5XX, Mississippi; Doug Dunn, K7YD, Montana; Jay Urish, W5GM, North Texas; Carl Gardenias, WU6D, Orange, and Garth Crowe, N7XKT, Wyoming. Hi Folks,

This is the bulletin of information #6 about FT5YK/P-VP8DLM-CE9XX
Expedition
in the Antarctic peninsula.

We are lucky today, I have received right now 2 emails from Mehdi and from
the skipper. Here they are :

"66?24S,67?10W Feb27th 0005 UTC, Hi from near Watkins Island,
impossible to
land for the radio, very bad conditions, snow, icebergs everywhere,
wind is
yelling in the ropes of the mast and I love it. We now must cross the
Gullet
Passage that was closed by an ice pack barrier one week ago. Still hope to
operate from bases : Y, W, E, Blaiklock refuge and East base of Marguerite
Bay, impossible to give you a date. 73 Mehdi F5PFP"

"Saturday: We are at Prospect Point tonight, close to Muton Cove, Mehdi
hoped to transmit this evening but due to the snow and wind out there
is no
question of going back and forth in the annex. Tomorrow we will start
early
at Watkins to stash before kick northeast happens.

Sunday : We arrived at noon at Watkins, after the grains of snow we had a
beautiful clearing and the arrival was easy. We have strengthened the
moorings and tonight it blows ... like old times ... but all is well.

Note : if you don't wish to receive the next bulletins, please just
send me
an email in order to be withdrawn of the mailing list.

Kindly yours (73).

9976. RTTY Most Wanted survey 2011

From: Larry Gauthier (K8UT)
Topic: 9864 Message: 9976

All RTTY operators are invited to participate in the RTTY Most Wanted Survey 2011. This survey is being conducted by Larry K8UT and myself. Larry has graciously offered to host the survey on the Southeast Michigan DX Association website. This makes perfect sense since Larry already had the form created and ready to go.

This survey will be run for 3 weeks beginning now until midnight EST Monday, March 20, 2011. The results of the survey will be announced when they have been compiled.

Please submit to the survey only once per callsign unless you have made a mistake or your "needs" list on RTTY has changed within the survey period. If more than one survey is submitted with your callsign, we will use the last one submitted. The survey can be found at:

http://rttysurvey2011.semdxa.org

Thank you for your participation. Thanks to Larry K8UT and the Southeastern Michigan DX Association for hosting the survey. Please report any problems with the survey directly to Larry at k8ut@....

NOT just another DXpedition: Sierra Leone 2011: 9L5MS - March 28th
- April
18th 2011

By the end of March 2011 Arie PA3A, Bas PD0CAV, Ad PA8AD and Arie
PA3AN will
leave for Africa to meet up with Dickson EL2DT to kick off a
DXpedition to
Sierra Leone. The dxpedition team will arrive in Freetown on 28 March
2011 and
will be on the air by the 29th. Departure date is set for April 18th.
(This
dxpedition was originally planned two weeks earlier but our cargo
container got
delayed and because of that we lost that time-window.)
Sierra Leone as DXCC entity will be on the air on all MF/HF bands and
6m for
almost 3 weeks in RTTY, SSB and CW (and possible 6m EME in JT65 if
conditions
permit). The team will make a serious effort to work as many stations as
possible on different bands and modes and pay special attention to the
smaller
stations.
Important goal for this hamradio project is to bring the good work of
Mercy
Ships to the attention of the worldwide amateur radio community so that
healthcare projects in poor countries will get more worldwide support.
Special about this dxpedition is that sponsoring (donations, extra QSL
green
stamps, etc.) will be donated to the Mercy Vision Healthcare project
of Mercy
Ships in Sierra Leone. This is the third dxpedition in cooperation
with Mercy
Ships after Liberia 2007 (5L2MS) and Benin 2009 (TY1MS).
Mercy Ships programs promote health and well-being by serving the urgent
surgical needs of the forgotten poor, and empowering developing
communities. For
this Mercy Ships uses a seagoing hospital ship, the Africa Mercy. On this
hospitalship and on bases ashore more than 400 volunteers use their
skills to
make a difference. The Africa Mercy holds 6 operation rooms and
laboratories and

patient rooms for 78 patients. 7000 operations can be performed per year and
teams can go ashore to carry out different projects. In 2011 the Africa Mercy
is visiting the African country Sierra Leone.

For further information about this DXpedition, its objectives and sponsoring,

Hi Folks,

This is the bulletin of information #7 about FT5YK/P-VP8DLM-CE9XX
Expedition
in the Antarctic peninsula.

Here is a very good news sent by Mike VP8DMH from Rothera Station (British
Antarctic Survey - Adelaide Island). Thank you very much Mike.
February 28th 2343 UTC :

"Mehdi and co have arrived in the Rothera area this evening. Unfortunately
they haven't been able to come ashore at Rothera yet, but have sailed off
towards Lagoon. Mehdi hasn't mentioned his intentions, but it wouldn't
surprise me if he was on 40m from Lagoon Refuge shortly.
We did speak to him on marine VHF earlier and invited him to breakfast on
base tomorrow, so hopefully we might meet up then.".

Folks
The Golist web server has died. We are working at transferring
all the
server files to a new server. When completed we will have to update
all the
server script files so that the web pages will work. This will be
completed just
as soon as possible.

Hi Folks,

This is the bulletin of information #9 about FT5YK/P-VP8DLM-CE9XX
Expedition in
the Antarctic peninsula.

A short message from the sailboat sent yesterday, 3rd March :

"We arrived at the Argentine base San Martin, wonderful welcome, they
invite us
to take a shower, then eat with them. Everyone is preparing, calm
weather on
Marguerite Bay, tomorrow we continue to Stonington 5 NM from here ...
this is
our most southern point.".

So maybe tonight, Station E (
http://french-polar-team.fr/VP8_Station_E_Stonington_Island.php) or
East Base
(http://french-polar-team.fr/KC4_East_Base_Stonington_Island.php) on
the air
!!!

Let's be ready and good luck.

Kindly yours (73).

Hello DXers:

A couple of late items of interest this morning.

Earlier this morning, Randy, N0TG sent the following email concerning the CY0 DXpedition:
?As of 1300z we are checking out of the hotel and headed to the aircraft hanger. WX in Halifax great. Final check on beach conditions to be made shortly...earlier check all okay. All indications it is a go and we will depart in about an hour.?
****It is reasonable to expect CY0 to be on the air by later this weekend?keep listening for them.

FOR TOP BAND OPS from Art. K9XJ:
?I sent a query to Ed, KG4KL/KN4KL, about maybe arranging a sked for a 160M CW QSO. He replied that KG4KS checks to see if 160M is open and tries to work as many as possible. However, they have a power station right across the street from the station that is putting out a 20 over 9 noise level making it difficult to hear anyone. If they can hear through/above the noise they'll give it their best shot.?

GL with the ARRL Contest as well as the above operations.

73,
Carl, N4AA

Worked Wayne K8LEE/CY0 last night @ 0422Z on 40 CW, with 100 watts and vertical. Randy was on 80 meter CW but I can't work down there (antenna won't tune in the CW band). Jeff N1SNB/CY0 was on 30 CW. All had good signals and should be quite workable once the lids go away.

FYI for ARRL DX News;

IOTA OC-195, Deal Island.
Six operators to activate Deal Island, in the Bass Strait, using the
callsign VK7DI. Planned departure date from Hastings, Victoria will be
around 20th March, and the sea trip aboard Wanderlust II is expected to
take around 2 days. Two or three stations will be active for an
estimated 4
days onshore, and maritime mobile operation there and back. Equipment will
be 100W radios on battery supply with solar and generator charging, and
vertical and wire antennae. There will be no Internet or telephone access.
Operators will be: Les VK3MLM, Peter VK3ADO, Mark VK3FMGF, Lino VK3EI,
Luke
VK3HJ and John VK3DQ.
Check around the usual IOTA frequencies. QSL via VK3DQ. It is planned to
upload to LOTW on return.
See QRZ.com for further information.

HI Folks,
just received this mail from VU3BPZ on board of M/V Papanin still
mored at
Indian Bay Antarctica.

We are in struck in fast ice and will be moved to the barrier may be
today.
A/K Fedorov made track in fast ices and will be retuning back to Cape
Town next
week. On board of A/K Fedrow there is Mr Butoski aged 88 old person
who come
many antactic russian govy relesed stamps. He will be sending his phto
soon,
also with me while I will meet him on the ship.
No chance to work from here The RIS have not 20/15/40M band It is
GMDSS MF/HF
set with certain frquency in limites 4/8/12/16/18/22 Mhz
with little fall band, but power 400w
All ok bye for now, BP, VU3BPZ

I will try to suggest Bhagwati to check if 8 MHz can go down to 7150
to allow
him to operate as VU3BPZ/MM.

Topic: 10010 Message: 10010

Guys,

Can anyone assist with the proper RIG and/or software settings to configure Win-EQF2 with my TenTec Omni 564 (6+)?

So far, I guessing, but the following settings are 'not' working:

Model: Omni VI
COM Port: 1
BAUD: 1200
DATA Bits: 8
STOP Bits: 1
PARITY: None

XVTR Offset: 0

DTR Handshake: ON
RTS Handshake: ON

For the interface cable, I'm using a CI-V type cable with DB-9 from the computer to the 1/8" serial port jack on the Omni 6.

Thanks in advance/73,
Ron, K5XK

Bonsoir à tous:

QTC ! A tous les membres DX du A1 CLUB , et autres

Comme vous le savez, un terrible tremblement de terre s'est déroué vendredi dernier dans l'après midi.

Après trois jours le bilan provisoire est établi à 2000 tués et environ 10 000 disparus.

la situation de la centrale nucléaire de Fukushima-pref. est également préoccupante.

En tant que radioamateurs nous sommes tous rassemblés et sachez que des messages d'urgence sont échangés sur les fréquences suivantes, qu'il serait utile de laisser libres à cet effet. Nous vous en remercions

Hams Invited to Track Satellites

In November 2010, five research satellites were carried to orbit aboard a Minotaur V rocket from Kodiak Island, Alaska. Two of these satellites -- FASTRAC 1, known as "Sara Lily" and FASTRAC 2, referred to as "Emma" -- entered orbit as a single nanosatellite, but on March 15, scientists sent the command to have them separate.

According to FASTRAC Student Program Manager Sebastian Munoz, KE5FKV, students at the University of Texas will be confirming the separation as the satellites pass: "We started one of the most exciting phases of our project by separating both of our girls so that they can compute on-orbit real-time relative navigation solutions while both of them are freely drifting from one another."

Munoz said that they will continue to update the satellites' two line elements (TLEs) on their website for those radio amateurs interested in tracking the two nanosatellites. "I want to thank the ham community all over the world for supporting our project," Munoz said. "Your support has been incredible and we really value it. We really appreciate all of your help so far and we hope that we can continue to count on it."

The FASTRAC website with the current TLEs can be found at:

From: Al Danis W6HGF:

Because of a loss of equipment in transit to the DX site, I was delayed in becoming operational, and had to send a special courior (my son-in-law) to bring the interface cables necessary to run RTTY. They arrived just in time for the BARTG, but I did not get much operation time prior, so I have decided to extend my operation here on St Pierre and Miquelon until Sunday 27 March 2011 to make sure everyone that wants a RTTY contact gets a chance at one. So, please extend the END DATE to 27 MAR 2011 on FP/W6HGF entry that started on 14 Mar.

Thanks,

Al W6HGF

Ho,

Just heard Tim Heller, the chief meteorologist for ABC13 in Houston, say he was a ham operator. He was explaining to the news anchors how radio signals bounce off the ionosphere after they did a story about a ham in Stonewall, Texas hearing an SOS from a disabled sailor a hundred miles off the coast of California. The ham contacted authorities and the man and his dog were rescued.

Go HAM ops!!!

SPECIAL EVENTS -

25/03/2011: Special event station 8J2OIDEN is currently active until 31 March 2011 to celebrate the 60th Anniversary of Toyota-city, Chubu region, Aichi prefecture [Aichi-ken], island of Honshu (IOTA AS-007, WLOTA 2376), Japan. ("Oiden" comes from "Toyota Oiden Matsuri (or Festival)," and originally means "Come on!"). The town of Koromo, the predecessor of present day Toyota, was a major producer of silk and prospered in the Mikawa region from the Meiji Era through the Taisho period. The town gained the status of a city on March 1, 1951. The town changed its name to Toyota in 1959, and one year later, became the sister city of another automotive city, Detroit, Michigan. Toyota-shi is also twinned with the County of Derbyshire, England, where Toyota operates a manufacturing plant. QSL via the JARL bureau. [JJ1WTL/AC6IM]

25/03/2011: Special event station 8J400MK is now QRV until 4 December 2011 to celebrate the 400th Anniversary of Matsue Kaifu (or Construction of Matsue Castle and Castle Town). Matsue Castle (WCA JA-00103) is a feudal castle in Matsue-city, located in Chugoku region, Shimane prefecture [Shimane-ken], island of Honshu (IOTA AS-007, WLOTA 2376), Japan. Nicknamed the "black castle" or "plover castle", it is one of the few remaining medieval castles in Japan - at least of the few remaining in their original wooden form, and not a modern reconstruction in concrete. The construction of Matsue Castle began in 1607 and finished in 1611. QSL via the JARL bureau. [JJ1WTL/AC6IM]

27/03/2011: The Mesilla Valley Radio Club of Las Cruces, New Mexico, will activate special event station K5B on 27 March 2011, in conjunction with the 22nd annual Bataan Memorial March Marathon held at the White Sands missle range from 1000z - 2300z. Look for K5B to be QRV on +/- 3893, 7225, 14330 and 21337 kHz SSB and 14070 kHz PSK. QSL direct only to: Special Events Station K5B, c/o Mesilla Valley Radio Club, P.O. Box 1443, Las Cruces, NM 88004-1443, U.S.A. Website: www.n5bl.org/bataan [425 DX News]

28/03/2011: BJ8TA is the callsign to be used by AMSAT-China during an EME and satellites expedition between 28 March and 1 April 2011. Activity will take place from Shangri-La County (NL97ut), Yunnan Province and from the Yunnan Astronomical Observatory of the Chinese Academy of Sciences in Chengjiang County (OL14kq). QSL via Alan Kung, BA1DU (P.O.Box 8091, Beijing 100088, China). [425 DX News]

28/03/2011: Celebrating the 300th anniversary of the discovery of the Ile de la Passion (3 April 1711), later known as Clipperton Island, the Clipperton DX Club will be active as TM300CDXC from 28 March to 11 April 2011. QSL via F5IL. [425 DX News]

BITS & PIECES -

Want to go on a DXpedition?
Chris, VK3QB, reports that the members of the 'Oceania Amateur Radio DX Group' (ODXG) are planning to go to Vanuatu again, but this time look for operators to join the fun and some sightseeing.

Plans are to arrive in Port Vila on September 28th, to get set up. Then operate the 2 contest weekends, with relaxed DXpedition operations between October 3-7th - another 2-3 days of relaxed operations following the CW Contest, then leave Vanuatu on October 14th.

Plans are still developing and depending on interest, ODXG will run multiple stations from two separate locations on the island of Efate (Port Vila) which is just a 4 hour flight from Melbourne.

Any interested people should register with Chris, VK3QB. Please provide a brief overview of your interests, any relevant or special skills (many skills contribute to a successful DXpedition) that may be useful for the trip.

Send via E-mail to vk3qb[at]wia.org.au [Southgate ARC]

Thormod (Tom) Bøe LA7OF - SK
Thormod (Tom) Bøe LA7OF, former head of the European Radiocommunications Office, passed away on March 21, 2011 at the age of 71.

At the time of his death Tom was president of the Norwegian Radio Relay League (NRRL).

The Amateur Radio community is shattered by the sad news. In this time of bereavement the International Amateur Radio Union Region 1 President, Executive committee and member societies, convey their heartfelt condolences and sympathy to NRRL, his family, friends and to all those who admired him as they mourn his loss. Tom is survived by his XYL Brit. May his soul rest in peace.

From: Craig Edwards vk4ldx@...

Craig VK4LDX will be doing his last visit to Magnetic Island OC-171 on April
17 ? 20 operating as VK4LDX/P. He?ll arrive in the afternoon and hope to be on
air around 0800 UTC using a Spiderbeam tribander on the 10m Spiderbeam mast
along with a vertical and 40m dipole. This location is on a small cliff and has
a good water take off to North America on the long and short paths and Europe on
the long path. There is a hill blocking short path Europe and JA but these are
the most reliable paths and with the Spiderbeam he still should be heard in Asia
and Europe short path. Craig will do updates during the DXpedition on his blog
http://vk4ldxoc171.blogspot.com/ and intends to operate from 2100-0200 UTC and
0600-1600 UTC each day.

SPECIAL EVENTS -

25/03/2011: Special event station 8J2OIDEN is currently active until 31 March 2011 to celebrate the 60th Anniversary of Toyota-city, Chubu region, Aichi prefecture [Aichi-ken], island of Honshu (IOTA AS-007, WLOTA 2376), Japan. ("Oiden" comes from "Toyota Oiden Matsuri (or Festival)," and originally means "Come on!"). The town of Koromo, the predecessor of present
day Toyota, was a major producer of silk and prospered in the Mikawa region
from the Meiji Era through the Taisho period. The town gained the status of
a city on March 1, 1951. The town changed its name to Toyota in 1959, and one year later, became the sister city of another automotive city, Detroit,
Michigan. Toyota-shi is also twinned with the County of Derbyshire, England,
where Toyota operates a manufacturing plant. QSL via the JARL bureau.

BITS & PIECES -

Want to go on a DXpedition?
Chris, VK3QB, reports that the members of the 'Oceania Amateur Radio DX Group' (ODXG) are planning to go to Vanuatu again, but this time look for operators to join the fun and some sightseeing.

Plans are to arrive in Port Vila on September 28th, to get set up. Then operate the 2 contest weekends, with relaxed DXpedition operations between October 3-7th - another 2-3 days of relaxed operations following the CW Contest, then leave Vanuatu on October 14th.

Plans are still developing and depending on interest, ODXG will run multiple stations from two separate locations on the island of Efate (Port Vila) which is just a 4 hour flight from Melbourne.

Any interested people should register with Chris, VK3QB. Please provide a brief overview of your interests, any relevant or special skills (many skills contribute to a successful DXpedition) that may be useful for the trip.

Send via E-mail to vk3qb[at]wia.org.au [Southgate ARC]

Thormod (Tom) B?e LA7OF - SK
Thormod (Tom) B?e LA7OF, former head of the European Radiocommunications Office, passed away on March 21, 2011 at the age of 71.

At the time of his death Tom was president of the Norwegian Radio Relay League (NRRL).

The Amateur Radio community is shattered by the sad news. In this time of bereavement the International Amateur Radio Union Region 1 President, Executive committee and member societies, convey their heartfelt condolences
and sympathy to NRRL, his family, friends and to all those who admired him as they mourn his loss. Tom is survived by his XYL Brit. May his soul rest in peace.

ETHICS AND OPERATING PROCEDURES FOR THE RADIO AMATEUR ---> At its June
2008
meeting the IARU Administrative Council, noting that "poor operating
behavior adversely affects the enjoyment of all radio amateurs and
does not
enhance the reputation of the Amateur Radio Services", endorsed and
recommended the principles set out by John Devoldere, ON4UN and Marc
Demeuleneere, ON4WW in their booklet "Ethics and Operating Procedures for
the Radio Amateur". The booklet is currently available in 28
languages, and
can be downloaded for free from quite a number of websites. The entire
collection can be found at www.ham-operating-ethics.org

HR5/F2JD ---> Gerard has started his activity from Honduras [425DXN 1035]
and the first batch of his log is online at

OPERATORS NEEDED ---> Operators are being sought for an expedition
organized by the Oceania Amateur Radio DX Group to take place from Port
Vila, Vuanuatu (YJ) from 28 September to 14 October. Preliminary plans and
contact information can be found at www.odxg.org

PJ7DX ---> Logsearch and statistics for the recent PJ7DX operation from
Sint Maarten can be found at www.pagus.it/pj7dx. The QSL cards have been
received from the printer and requests are being processed by I8NHJ.

QSL A92IO ---> "Due to the deteriorating situation within the Kingdom of
Bahrain", Dave (A92IO/ EI3IO) says, "it is becoming incresingly difficult
to travel within the country. Therefore please do not send QSL requests to
my Bahrain address (PO Box 31183) until further notice. Also please do not
send to Ireland for the time being. At present all QSOs are confirmed by
ARRL's Logbook of the World for DXCC and by eQSL for WAZ etc. Sending QSLs
via EI3IO through the bureau system (not via the A9 bureau) is also OK".
His website is at www.connogue.com/ei3io/html/body_a92io_as002.html

SOUTHERN SUDAN ---> Antonio, EA5RM reports that "after a long way, a
lot of

hard work and several successful meetings with Southern Sudan Government officials of various Ministries", the first amateur radio license was issued by the new government on 18 March. "Our DXpedition will start on July 9th from Juba so please stay tuned". Bookmark www.dxfriends.com/SouthernSudan2011/ for updates.

VU4PB ---> The current expedition to the Andaman Islands "was hit by a noticeable pirate operation on 40m CW between 1527z to 1817z on 16 March", VU2PTT says. He adds that "three of our key operators have been unable to join us at VU4PB as planned due to health and family issues and we have been working hard to fill the gaps with the operators that we have". Updates, logsearch and OQRS can be found at www.arsi.info

+ SILENT KEYS + Thormod "Tom" Boe, LA7OF, former head of the European Radiocommunications Office and current president of the Norsk Radio Relae Liga (NRRL), passed away on 21 March at 71 years of age.

10029. [ICPO] UPDATE - 9L5MS Sierra Leone DXpedition

I.C.P.O. (Islands, Castles & Portable Operations)
UPDATE -
==========
9L5MS operations change of planning

26-03-2011

There is a major change in the planning of the DXpedition. Here’s the bottom-line.

We expect that our first radio operations will start a couple of days later than expected. Hopefully during the weekend of April 2nd. Reason for this is that the container, that carries our antenna’s and other stuff that we need for the station (our food&water supplies and generators), is still in the customs-process. We expect that the customs will not release the container until 4th of April! Last Thursday March 24th we evaluated the situation and the team have decided to go for plan B.

So what’s plan B? Plan B is that on Friday March 25th we redesigned a new minimal antenna-farm that we can take with us on the plane. We decided that we will take 3 fiberglass verticals that will bring us on the air on 40m - 10m. Sorry, no verticals available for the low bands and no RX-antennas during the first phase. Still... food, water and electricity are a problem. We will have to figure this out when we are in Freetown on the hospitalship Africa Mercy next week. During that week we will also work on Mercy Ships projects as volunteers.
As soon as the material arrives we will concentrate on the Low Bands, using beams and Receiving arrays.

So we will be on the air from Sierra Leone soon, but the exact starting date is still unknown. We will inform you about our proceedings via our website, Twitter and the DX-cluster. Stay tuned!

73,
9L5MS - Sierra Leone DXpedition team. [Pete's-DX-Newsdeck]

See the message below from Paul, N4PN, of Macon, GA who is assisting the widow of Gordon Rowe, K4OD, to dispose of his equipment If interested in any of it, please contact Paul ASAP. Thanks. Paul's address is n4pn@.... 73, John, K4BAI.

Hi John:
Here's the list of "stuff" left of Gordon's...
Faye is really hurting.....almost no money to even buy groceries...

1. HyGain TH-3 Tribander.....less than 3 years old
2. 45' Rohn 25
3. Yaesu G-800SA Rotor.....less than 3 years old
4. Hustler 4BTV w/80m Coil (fair condx) but is working all ok
5. Alpha/Delta 80/40 dipole ... less than 3 year old (Great antenna - I've been using one for years)
6. MFJ 969 Deluxe Tuner - like new
7. Yaesu FT-897 w/Manual - less than 3 years old - New $845.00
FT-30 110/220v Power Supply - New $175.00
8. CT-62 CAT Interface Cable
9. Yaesu Desk Mike - Model MD-100
10. Heil Proset Headphones (Proset 5) w/switch and manual
11. Rig Blaster Plus
12. ICOM IC-2100 UHF (2m Xcvr) w/PS - Good Condx
13. 2 - Weller Soldering Guns
14. 2 - 2007 ARRL Antenna Handbooks - perfect condition

I have sold a few items to N4RJ and N4VDL....
Not sure how to handle this.....she'll be happy with any money but hope nobody would
take advantage......Maybe you could list this with your various outlets and see what happens...
Any help, of course, would be greatly appreciated.

Hi from Ushuaia
Game over for us, the end of an adventure but the begining of another one of course, sailing condx and propagation were much more difficult as in 2009.
The trip was very tiring, and the landing condx very dangerous sometime, at Detaille and Yelcho in particular, crew members of the sailing boat made an outstanding job as you can't imagine maybe...that's why some comments made me laugh...
I was not active on the way back, too much radio...and unable to listen agn the usual european qrm makers...
Clarification, i operated under 2 callsigns at Stonington island, VP8DLM from the british Base E then KC4/FT5YK from the US East base...

TIMOR-LESTE DXPEDITION PRESS RELEASE NUMBER 2:
CALLSIGN& WEBSITE ANNOUNCED

The September 2011 Timor-Leste DXpedition has now received its callsign - 4W6A - from ARCOM, the licensing authority in Dili. The team is very grateful to ARCOM for issuing this special one-letter callsign for use on the DXpedition.

The DXpedition has a website, atwww.4w6a.com, which includes profiles of the team members, propagation predictions and lots of information about Timor-Leste and Atauro Island, the location of the DXpedition.

Unfortunately, Franck, VK8FNCY, has had to withdraw from the DXpedition due to health reasons. His place has been taken by Tim, M0URX, and Ant, MW0JZE. Oliver, MW0JRX, is now resident in Darwin and has recently received his Australian callsign, VK8DX. The other team members remain Stuart, VK8NSB; Steve, 9M6DXX, and John, 9M6XRO. As the team now comprises six operators, we have increased the number of stations from three to four.

The group is requesting donations from DX clubs and individuals who wish to help, in order to cover the high cost of generator hire, fuel for the generators and the boat charter to and from the island. There is a "Donations" page on the 4W6A website. Payments may be made by credit or debit card (you do not need to have a PayPal account

yourself in order to make a donation).

4W6A will be QRV from Atauro Island (IOTA OC-232), Timor-Leste (East Timor), from 16 to 26 September 2011. Activity will be on all bands 10 to 160 metres, using CW, SSB and RTTY. The QSL manager is M0URX, direct (SAE plus 1 IRC / $2), via the bureau, or LoTW. The entire log will be uploaded to LoTW as soon as possible after the end of the operation or, if possible, even during the DXpedition. QSLs may also be requested using the QSL request form on the website.

73,
Steve, 9M6DXX (4W6A Team Member)

* I have been working on making updates to the database and I am finding that most of the changes are to the older records. It is apparent that DX stations are now changing manager much more frequently than they did in the past. There are exceptions but this seems to be the trend.
Now this were I need help from the users. Do the majority of you use the older record information for DX stations. I have a good many DX call signs with multiple records. Some, of course, are contest stations and may have different managers for each contest. Others like 3V8BB have quest operators, sometimes different one each day with different qsl managers. Most difficult to keep accurate.
My question to you is: Do you want the Golist to keep these older records even if the route is no longer valid for the DX call?
If the majority thinks I should only keep current records, how many years back should be the cut off dates?
I hate to have inaccurate routes, but I know there many. Some are due to age, others are due to manager changing call signs and I have not been updated to the changes.
Please send any opinions back to me through the reflector so that everyone can see what is going on. Please help me out with your opinions.

Hello DXers:

Press Release 7 March 30 2011

With just a few hours left in the operation, two more operators have left for the mainland this morning as originally planned as they had to get back to their work places.

This now leaves just six operators and we are working with three stations and will have to start dismantling from tomorrow as the team returns on the 2nd April.

As earlier reported we have had several instances of pirate operations which has spoilt the fun for numerous DXers- a real pity and one is not sure what joy it brings to those ? radio amateurs? who indulge in such activity.

The team will go *QRT at 1829 HRS on 31st March 2011*

A further release will be issued after we conclude this operation

Most of the email responses I have received ask me to keep the old
records> I sure don't mind doing this, but remember to look at the
date in the records (if one) and understand the manager may have changed.

I spend most days working on the database, checking to see if the
managers are current and picking up
new info on manager, etc. If you find that a record in the database
needs to be updated, either goto the update form on the web site or
send me an email with the DX call, new Manager and dates(if known).

Please remember that I only list stations with managers (call sign
different than Manager) or if a station is using LOTW and OQRS as qsl
routes. All others are ignored and not placed in the database.

I will need your help in keeping the data current. I just can't read,
research, change all this information alone. Not enough time in a
day....ha... All info is appreciated.

ARRL Bulletin 12 ARLB012
>From ARRL Headquarters
Newington CT March 31, 2011
To all radio amateurs

SB QST ARL ARLB012
ARLB012 Revised Spread Spectrum Rules to Go Into Effect April 29,
2011

The revisions to the FCC rules affecting Spread Spectrum
transmissions will go into effect April 29, 2011. The Report and
Order was published in the March 30 Federal Register.

Details on the revisions can be found on the web at,

http://www.arrl.org/news/fcc-adopts-spread-spectrum-rules-changes

Adopted February 22 and released March 4, 2011, the Report and Order
eliminates the requirement that amateur stations transmitting Spread
Spectrum use Automatic Power Control (APC) to reduce transmitter
power. The Commission also reduced the maximum power of a Spread
Spectrum emission from 100 W to 10 W PEP.

The Question Pool Committee of the National Council of Volunteer
Examiner Coordinators has removed a related question, E1F13, from
the Amateur Extra Class Question Pool.

Directly form the team.
Today we install the spiderbeam antenna for the SSB station.
Yesterady we made some QSOs in SSB with the vertical antenna for 80m
tuned
in some way, just to be on air with the caalsign.
Everything OK. Internet now is running, fingers crossed, usual slow speed
and narrow band (200 kbyte, but it's all we have).
Yesterday we made some QSO in 24 MHz SSB, but the first 10 QSO have been
added in the log as CW. We fixed the problem in our local log and we will
fix it in the log on line as soon as we can. So, if you find out in
our log
on line your SSB QSO in 24 MHz as CW, don't worry. It's everythig OK.

It's all, for now.
More news later.

Direttamente dal team.
Stamattina montiamo la spider per la ssb ... ieri abbiamo fatto
qualche qso
in ssb con la verticale degli 80 e quindi accordata in qualche maniera,
giusto per uscire con il call.

Per il resto tutto bene..... incrociamo le dita ma internet si ? messo a
funzionare (soliti 200 kbyte di veleocit? ma questo abbiamo!).... ieri
sera
abbiamo fatto anche qualche qso in 24 in ssb .... ma, i primi 10 qso sono
andati a log in cw ..... li abbiamo sistemati sul nostro log ma non
ancora
sul log on line. Se qualcuno si trova il qso in 24 mhz in cw anzich?
che ssb
di non preoccuparsi che abbiamo comunque corretto e risolto. Appena
avremo
tempo sistemeremo anche il log online.
Per il momento ? tutto .... seguiranno altre news.

I have for sale a like new Kenwood TS-2000 transceiver for $1,000.
Most of you know me and know that I take great care of equipment in my
non-smoking shack. I think this radio is "about" a year old. If you'd
like to buy it then I'd prefer that you come to my shack, try it, and
then pick it up though I will deliver it anywhere in the immediate
vicinity of Alpharetta. This rig has been used VERY little and I have
the original box and manual. It is a great all round rig but frankly I
have too many radios and this one just sits here. Here is the Kenwood
website with the specs:

directly by the team
Tonight we had problems with internet access and we remained without
uploading the logs from 00:00 UTC..... Given our phisical effort in
recent
days, last night we decided to stop transmitting early and try to rest a
bit.
So we did not lower bands ..... we'll make this night!

This morning we have arranged and we have internet connection again
(there
was a 5 GHz bad link).

There are still problems to the generators and not only how they
work.....
We are been asked for an increase in cost compared to the agreements
and we
are evaluating different options ..... Unfortunately, the dollars
requested
are many more and we do not know if we can meet the cost .... in the
event
we'll have to agree on the hours of blackouts to avoid excessive costs.
Today will be a day spent to discuss and find a better solution, but
something tells me it will not be a final agreement: I wonder why we
are not
surprised about this....

We managed to somehow fix the vertical but its efficiency is very
low.....
In RTTY we do our best but we can not guarantee all the bands.

We are trying to satisfy all requests for contacts and sked but keep
in mind
that we are 5 and we are not able to do miracles..

I JUST SAW AN EMAIL YOU SENT OUT ABOUT JOE V31JP. I WANTED TO LET YOU KNOW THAT I AM NO LONGER HIS QSL MANAGER. I TALKED TO JOE LAST YEAR WHEN HE WAS VISITING HIS DAUGHTER AND TOLD HIM THAT I WILL NOT BE HIS QSL MGR. ANYMORE. PLEASE PASS THIS INFORMATION AROUND SO OTHER HAMS DO NOT WASTE TIME, POSTAGE & MONEY SENDING QSL's TO ME AS I WILL ONLY BE SENDING EVERYTHING BACK TO THEM.

The crew write:
Yesterday evening we made 40m and 80m for all those who asked this bands...
The signals are not very strong and there is a lot of noise but some QSO went to log.

Problems persist in RTTY due to saturation of the sound blaster while decoding ..... It's not a problem of audio levels, but too many signs that
knocked the software MMVARI .... never seen anything like that. We tried different PC but nothing to do ..... We tried MMTTY also but the problem is
not solved .... so RTTY QSOs do not go so fast but, despite everything, we
have exceeded the 800 QSOs in this way.

We are following all the openings with the JA, but the conditions are not favorable , short path and long path .... Next day we'll insist.

Tonight in 80m SSB excellent opening for the U.S., instead Europe with very
weak signal ..... here again our ears are always alert!

At present, the situation with the power generators is in stalemate ..... negotiations continue to the bitter end!

Greetings and kisses!

I.C.P.O. Bulletin (08-15 April 2011)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

08/04/2011: Rick, AI5P, will be active as AI5P/KH8 on 8-18th April 2011 from Tutuila Island (IOTA OC-045, USi AS007S, WFF KFF-053, WLOTA 4385). Activity will be holiday style. Bands and modes of operation were not provided. QSL via home call. [OPDX Bulletin]

08/04/2011: Operators Friedrich DL4BBH, Helmut DL1BGC, Karl DJ4FO, Peter DJ4RU, Henning DB5BZ and Ric DL2VFR will be active as DF0WFF from the island of Langeness (IOTA EU-042, GIA N-19, WLOTA 1245), and the National Park and Nature Reserve Schleswig-Holstein Wadden Sea (WFF DLFF-013, Grid Loc. JO44) on 8-10th April 2011. QRV on HF/VHF/UHF using CW and SSB. QSL direct or bureau to DL2VFR. [rsgbiota.org]

08/04/2011: Rick, K6VVA, plans to be active as K6VVA/6 from St. George Reef (NA-184, USi CA064S, WW Loc. CN71UT), Del Norty county, California, on 8-9 April 2011. This activity will also count for the St. George Lighthouse (ARLHS USA 793, TWLHD WLH K-157, WLOTA 0077). He will operate CW and some SSB on 40-15 metres. QSL via N6AWD. The operation is weather dependent, because of the helicopter transportation involved. In case of bad weather, only one more attempt can be made before the end of April. Should that happen, the NA-184 activation trip will be rescheduled for November, when flights can resume. [425 DX News]

08/04/2011: Bjorn, LA5UKA and Trond, LA9VDA will be active as LA6Q from IOTA group EU-079 on 8-11 April. They will operate CW, SSB and RTTY on 80-10 metres. QSL via LA9VDA, direct or bureau. Website: www.la8aja.com/ [425 DX News]

SPECIAL EVENTS -

08/04/2011: Special event station 5F6SIA will be active until 1 June 2011 for the 6th International Exhibition of Agriculture In Morocco. Expect activity on all HF bands and modes. QSL direct to G5XW (QRZ.com). [AT International]

08/04/2011: Kazakhstan, Special Event Stations - 50 years of manned spaceflight is the 50th anniversary of the first flight of Yuri Gagarin. Besides of other events (contest, awards, etc) there will be two special event stations active from the cosmodrome in Baikonur. R50YG (Yuri Gagarin) and R50SK (Sergej Korolev) will be QRV until 14 April 2011. Both stations will take part in the "Gagarin Cup 2011" contest and count as an additional multiplier in this contest. Furthermore there will be also the special callsign R50KEDR (KEDR was the callsign of Yuri Gagarin during his flight) activated from the launch site of Yuri Gagarin on Apr 12 from 0507 until 0655 UTC. This is the same time like the 108 minutes of Gagarin's first flight. [DX Newsletter]

08/04/2011: Special event station RG50F is currently active from Star City, the Cosmonaut Training Center, until 30 April 2011 to commemorate the 50th anniversary of the first cosmic flight of Yuri Gagarin. QSL via operators' instructions. [AT International]

09/04/2011: GB2RAF Air Defence Radar Museum, RAF Neatishead, RAFARS Permanent S.E.S. - GB2RAF will be operational every 2nd Saturday of the Month 1000-1500 local. GB2RAF will be operational on Saturday 9th April 2011 and the 2nd Saturday of the month thereafter again after the H and S closure. Quite a number of people have requested for CW time from GB2RAF. So as from the 9th April GB2RAF will be going to CW at 1300hrs local (GMT +1 hour) on 3.515Mhz +/- until frequency is calls clear. Sorry GB2RAF will not be operational on the 2/3 of April but an AOTA point may be claimed for working GB2RAF at all times. For contact or schedule e-mail Terry G4PSH via the Museums web site at: www.radarmuseum.co.uk/ . [Pete's-DX-Newsdesk]

09/04/2011: The Philippine ham community is deciding to put up a special event station 4D69DM on 9th April 2011 at Mt. Samat, located in the Town of Pilar, Province of Bataan, Luzon Island (IOTA OC-042, WLOTA 0081) Republic of the Philippines. Mt. Samat is the site of the Dambana ng Kagitingan or "Shrine of Valor". The date was chosen because of the Death March that happened on 9th April 1942 - some 69 years ago, hence the numeric indicator in the callsign. Butch DU1RP, Alex DU3LCA and Bong DU3BS will conduct a site survey where to put the equipment and put up a tent. It will be a straightforward set-up - TS850, SB201, Steppir BigIR. The back up will be an FT897, SB200 and home-brew wire dipoles. The operators will be Thelma DU1IVT, Alex DU3LCA, Bong DU3BS, Butch DU1RP and Ramon DU1UGZ. They will be operating for 24 hours only. QSL via operators' instructions. [dx-world]

10/04/2011: Hugo PA2HW, Robert PA2RDK, Frank PA3CNO, Paul PA3DFR and Gert PE0MGB will activate the special Swedish/Norwegian peace monument "Morokulien" (WW Loc. JO69CW) as LG5LG and SJ9WL on 10-16th April 2011. QRV on 160-6 metres using CW, SSB and the digimodes. The callsign will change every day at 0000z. An award will be available for 2 contacts with each call on different bands and different days. QSL via LA4EKA, bureau or direct. Website: www.sj9wl-lg5lg.com/ [OPDX Bulletin]

12/04/2011: To commemorate the 50th anniversary of the First Man in Space (Russian pilot Yuri Gagarin who in April 12, 1961, was the first human being to go into space on an 108 minute flight), and the first flight of the Space

Shuttle Columbia (Sunday morning on April 12th, 1981, known as mission STS-1, opening what is called the Shuttle era), look for special event station, N4S, to be on the air in remembrance of these two events: One which changed the course of history, and the other helped expand our knowledge of the space sciences and in the construction of the International Space Station (ISS). The special event will be active on the HF bands, 80-10 metre SSB. The KP4IA-R (145.370 MHz) and the simplex frequency 147.480 MHz will be used for local contacts in Puerto Rico. A special electronic certificate will be issued for this occasion. For information go to: www.qrz.com/db/wp3gw or write to wp3gw[at]arrl.net . They also want to remind everyone that the Arissat-1 satellite inside the ISS will be activated that same day and will send voice messages and Slow Scan TV images, plus CW and data from the new PSK1000 mode on the frequency 145.950 MHz. For more info go to: www.amsat.org/ and www.arisat1.org/. [OPDX Bulletin]

"The Columbus of the Cosmos" Award
2011 is the year of 50th anniversary of the first human flight to outer space which was done by Mr. Yuri Gagarin. To commemorate this event Kazakhstani information website "UN Amateur Radio News" www.un-dx.ucoz.com together with Almaty Amateur Radio League have established a special award under the name The "Columbus of the Cosmos". The award is issued in electronic format only for QSOs with Kazakhstani special stations using UN50, UO50, UP50, UQ50 prefixes as well as UP50ASTR and UP1ASTR.

French HAMs try to get an allocation for the 6m band -

F1DUE, the president of the French amateur radio union REF, writes about his efforts to open the 6m band for French amateurs. Already last year the REF asked the French frequency regulation authority (ARCEP) to deal with the case of the 6m band which was suspended two years ago. The ARCEP informed the REF that they consider to assign the frequency range 50-52 MHz for amateur radio. Thus ARCEP placed this proposal on the agenda of the Frequency Planning Commission (CPF) which was held in March. Yet nobody knows when the change of the bandplan is finalized and comes into effect.

Hi friends

FRANCE - Special event -

For the 26th annual meeting of the French CW Society, the Union Francaise des Telegraphistes UFT, the callsign TM26UFT, will be aired between April 10th to 24th.

HF bands and even more, for this CW only operation.

All the QSO will be confirmed by the bureau and the log will be uploaded further on the LotW.
SWL QSL cards should go also via the French bureau.

After the operation and before qsl'ing, each one will be able to check his QSO's on the UFT website (_www.uft.net_ (http://www.uft.net))

Those who however woul have a direct card, should ask it not before July, to Gerard, F6ICG , (address correct on QRZ.Com) .

Don't forget SAE and 1 valid IRC or sufficient money for return (not less than 2$).

Have fun

Maurice, F5NQL (one of the operators gang)

Bonjour à tous

INDICATIF SPECIAL:

A l'occasion de l'Assemblée Générale de l'Union Française des Télégraphistes UFT, l'indicatif spécial TM26UFT sera actif sur les bandes HF et éventuellement plus, du 10 au 24 avril 2011.

Opération : CW ONLY.

Tous les QSO seront confirmés automatiquement via le bureau. Les cartes des écouteurs transitent également par le bureau.

Ceux qui malgré tout souhaiteraient une QSL directe pourront s'adresser à partir de juillet, avec enveloppe et timbre ou IRC valide ou frais de retour (au moins 2 USD), à Gerard, F6ICG (nomenclature).

Après l'activité, le log sera mis en ligne sur le site de l'UFT (_www.uft.net_ (http://www.uft.net/))

Bon trafic et 73

daily news from 5M2TT
Today we had big opening on high bands. We did what we could do,
anyway we
should have at least two other operators. At some point, you don't know
where to go on air, becouse wherever you go, the QSO rate is very high.
Conditions really good. We feel we have satisfied a lot of people so far.

Tonight we tried on 40m but no condition. Around 23UTC we'll try again
hoping to ear something but we have to consider that at that time we
have to
be also on 20m to meet many request from the west coast of USA. We don't
know anymore how we have to move :-) Anyway, we'll do something also
on 80m.
Tomorrow morning, like today, we'll try the long path and the gray line.
Today we did'n get so much but we hope to be luckier tomorrow.
Continue the negotiations started the other day for the cost of power
generators. This will be our sword of Damocles to the end of the
dxpedition..
At least we managed to contain the forced and sudden stops .... Today
we had
three planned stop and only 4 sudden ....
Bye

From: "K2ARB" <k2arb@...>

Dear Antarctica Chasers:

Given that this past year the amateur radio community has invented a "new" South Pole Station and has thereby generated a wave of requests for QSLs for KC4AAA, perhaps it is time to repeat some facts about Amateur Radio and the US Antarctic Program:

1) Amateur radio operation at the US Antarctic bases exists solely as a form of recreation for hams working professionally in Antarctica; while the stations are of top quality with equipment provided by the US National Science Foundation, amateur radio operations are not closely supervised.

2) The United States has an enormous operation in Antarctica with several thousand staff members and many different hams use the amateur stations for their own enjoyment. Some operators are logistics staff working in Antarctica for six months or more; most are scientists visiting for only a few days.

3) As use of the station is "recreational" only, centralized logging is not enforced by USAP and each radio operator using the amateur station maintains his own log; some amateurs send their log to K1IED promptly; some send their logs after a long delay; some do not send a log at all.

4) The most active amateurs in recent years are scientists and/or rugged individualists who have extremely busy lives when they return to the US. Few of them are active hams, and fewer still are concerned about amateur radio awards programs. Therefore, dealing with logs is not necessarily their top priority once they return and sometimes it is a long time before their logs are received, if ever.

5) If you are lucky to have worked an operator at a US Antarctic station who is diligent in getting his logs to K1IED, and if you are "in the log", you will get a QSL. If the operator does not send a log to K1IED, you will not get one. We encourage the Antarctic operators to send their logs to K1IED promptly, but it is not possible to force them to do so.

My suggestion is that whenever you work KC4AAA, KC4AAC or KC4USV, you should obtain the home call sign and the name of the operator at the station. This will allow K1IED an opportunity to figure out who the operator was and attempt to track down the logs.

It is my past experience that if K1IED receives a QSL for which there is no log, he will hold onto the QSL in the hope that in future a log will turn up. Perhaps a better solution someday would be to use the JARL approach at 8J1RL, where computer-generated paper QSLs are sent for all QSOs via the bureau, and no direct requests are accepted.

Adam

SB SPACE ARL ARLS005
ARLS005 ARISSat-1 On the Air for Gagarin Anniversary

To celebrate the 50th anniversary of the first human spaceflight by cosmonaut Yuri Gagarin, the ARISSat-1 satellite aboard the International Space Station will be on the air using the station's external antenna. Transmissions will begin on Monday, April 11, at 14:30 UTC and continue until 10:30 UTC on April 13.

To preserve the satellite's battery, transmissions will cycle on and off. ARISSat-1 will transmit for 40 to 60 seconds, and then remain silent for 2 minutes.

The FM transmissions on 145.950 MHz will alternate between a voice ID, telemetry values, SSTV images and audio greetings in 15 different languages. One of the transmissions will contain audio of a conversation between Gagarin and ground controllers that was recorded during the historic flight.

A CW beacon will be heard on 145.919 MHz cycling between the ARISSat-1 call sign, telemetry and call signs of individuals involved in the ARISS program.

BPSK-1000 telemetry transmissions will also take place on 145.920 MHz SSB using the new 1kBPSK protocol developed by Phil Karn, KA9Q.

AMSAT will issue commemorative certificates to listeners who receive the ARISSat-1 transmissions. Reports can be e-mailed to Gagarin@... or yuri@.... Include your name, call sign, a description of what you heard and the UTC time you heard it. Recording the battery voltage telemetry values and the UTC time you received them will be especially helpful.

You can determine when the International Space Station will be passing overhead by using the AMSAT-NA online pass prediction tool at, http://www.amsat.org/amsat-new/tools/predict/.

I.C.P.O. (Islands, Castles & Portable Operations)
UPDATE -
==========
T31A Kanton Island -

April 13 - The boat chartered for sailing to Kanton is delayed and will not arrive in Apia, Samoa, until late the 14th or early 15th, so the departure is delayed until maybe as late as the 16th. The boat captain arrived in Apia by plane. All operators are anxious about the delay as to how it may affect the T31A total operating days and also return flights to home QTHs beginning on May 2nd. Standby for updates (www.t31a.com/). [VE3EXY]

17/04/2011: After the failed attempt on October the 10th 2010 due to bad weather conditions, we going to try again this time on the 17th of April 2011 to activate "The Submerged Forteress". If the meteorological conditions are adverse then, we will be forced to postpone the activity again. Constructed in 1652, between the Armona Island and Culatra Island (EU-145) with the purpose of defending Olhão harbour. Currently inside of the Natural Park of Ria Formosa (CTFF-07), the only remain ruins are three iron cannons. What remains of the fortress is totally submerged except in the lower tides of the year, which happens next April the 17th. Operators Arlindo CT1EGW, Jose CT1EHX, Toze CT1GFK, Goncalo CT1GPQ and Miguel CT1IUA plan to be QRV as CR6A on 40-10m CW and SSB from the fortress. This operation is good for the following award references: DPRN & WFF - CTFF 007 - DCFP F-171 (New One) - DMHP FR-106 - WCA CT-1595. QSL via CT1GFK, bureau or direct. Website: algarvedx.com/ [Algarve STAR DX Team]

17/04/2011: Team TM95BV (Special Event Station for the 95th Anniversary of the Battle of Verdun) will be active on 17 April 2011 from the Fort de Belrupt (DFCF 55-055), commune of Belrupt en Verdunois (CP 55100), canton [county] of Verdun Est (DDCF 55-26), Department Meuse/55 and Province Lorraine (DPF 14). QRV starting about 0900 UTC on 40 metres, then QSY to 20 metres, using SSB and CW. QSL via F6KUP, or direct to F5LPY (with SAE/postage). [F6FNA]

17/04/2011: Craig, VK4LDX, will be active as homecall/p from Magnetic Island (IOTA OC-171, WFF VKFF-299) on 17-20th of April 2011. The IOTA antenna has been upgraded so the old Butternut HF9V will now be the back up. The main antenna will be a newly acquired Spiderbeam 0m-15m-10m tribander to be put on a 10m aluminium pole with tripod. QSL via VK8PDX, direct (QRZ.com). Craig does not use eQSL or LoTW. More details will be provided over the upcoming months. Website: vk4ldxoc138.blogspot.com/ and vk4ldxoc171.blogspot.com/ [dx-world.net]

18/04/2011: Jose PT9ZE, Ric PY2PT, Anderson PY2TNT, Alex PY2WAS and Fernando PY4BZ plan to be active from Mayotte Island (IOTA AF-027, DIFO FH-001, WLOTA 0376) between 18th and 25th of April 2011. QRV with three stations active simultaneously on 160-10 metres using CW and SSB. More details and the QSL route is forthcoming. [OPDX Bulletin]

Special temporary call signs for Royal Wedding -
Special temporary call signs that Radio Amateurs may use subject to prior
authorisation, from 29 April to 9 May 2011 - signifying the marriage of
H.R.H. Prince William and Miss Catherine Middleton.
Facilitating the use of special temporary Amateur call signs in respect
of the Royal Wedding for Amateurs holding UK; Full Licences, Full
(Reciprocal) Licences, Intermediate Licences and Foundation Licences;
The only format for the individual special temporary call sign permitted,
is as follows:
1. Following a request from the Radio Society of Great Britain (RSGB),
Ofcom has decided to permit Amateurs holding valid UK; Full Licences, Full
(Reciprocal) Licences, Intermediate Licences and Foundation Licences to
apply for and receive authorisation for the use of individual special
temporary call signs which are linked to their existing licensed call sign.
2. Subject to prior authorisation, the existing Regional Secondary
Locator in the existing call sign may be replaced by the Letter "R" except
in the case where no Secondary Locator exists, the Letter "R" may be
inserted as a Secondary Locator. For the avoidance of doubt, where the
existing call sign commences with the digit "2", the Secondary Locator i.e.
the second character of the existing call sign (the letter "E", "U", "D",
"J", "I", "M" or "W") may be replaced by the letter "R".
3. The duration for use of these special temporary call signs will be
from 29 April 2011 through to 9 May 2011 inclusive only.

Examples: G0ABC is amended to GR0ABC; GM0ABC is amended to GR0ABC; 2E0ABC is amended to 2R0ABC; 2W0ABC is amended to 2R0ABC; 2J0ABC is amended to 2R0ABC; M1ABC is amended to MR1ABC; MI0ABC is amended to MR0ABC; MD6ABC is amended to MR6ABC; and MU3ABC is amended to MR3ABC.

Surprisingly 1st class intl mail rates remain at $.98 (for now). Too bad they don't make a "forever" stamp for Intl mail. Guess I better get my QSL's out before I have to add postage to my .98 cent stamps I have laying around.

10073. IOTA 50TH ANNIVERSARY MARATHON

ANNOUNCING THE IOTA 50TH ANNIVERSARY MARATHON, 1 JANUARY 2012 - 31 DECEMBER
2013

The year 2014 marks the 50th anniversary of the launch of the Islands On The
Air (IOTA) Programme by British SWL Geoff Watts, BRS-3129. As a build-up to
our celebrations on this occasion, the RSGB IOTA Manager and Committee
announce an exciting activity period in which all licensed amateurs
world-wide are invited to participate.

For a two-year period during 2012 and 2013, IOTA chasers are encouraged
to contact as many different IOTA groups as possible, and IOTA activators to
play their part by operating from as many groups as possible, with special
emphasis on the less-frequently activated ones. The points system adopted
rewards 'Activators' with higher scores for activating the rarer IOTA
groups. Certificates and awards will be available to both 'Chasers' and
'Activators' to reflect attainment of graduated bands of performance
together with attractive prizes for top scorers.

The challenge provides a level playing field for everyone, whether they
are complete newcomers to IOTA or are holders of the prestigious IOTA 1000
Islands Trophy, because everyone starts with a clean slate on 1 January
2012.

We hope that all our readers will consider ways in which they can support
this event. We would like to see work starting now to schedule activity from
as many IOTA groups as possible throughout the 24 months. Let us target 500
groups initially in the hope and expectation of being able to raise this
higher as the Marathon progresses.

Attached are the full rules of the IOTA 50th Anniversary Marathon as they
appear in the forthcoming 'RSGB IOTA Directory' to be released at Dayton.
They can also be seen on G3KMA's website at www.g3kma.dsl.pipex.com. They
will be uploaded to the RSGB IOTA website at www.rsgbiota.org shortly when
key personnel return from Visalia.

We would be grateful if you would give this event maximum publicity. As all
islands qualifying for IOTA count also for DXCC, this will be a big

boost to
DXCC activity during these two years. Update bulletins will be issued from
time to time.

Best regards

Roger

Any operation from T31A the past two days is a pirate. The team is not to arrive until very late tonight and can not possibly be on until Wednesday at
the earliest. Please ONLY use official "news" on our T31A website as true information. We pilots will update the web as we get valid information from
the team. Thanks for understanding.

April 21 - The team arrived at sunset T31 time (about 0500Z), and since sunrise is not until 1830Z and the team is VERY tired, it is hoped all necessary equipment, antennas, tents, generators etc can be done as quickly
as possible during daylight hours. There are meetings with local officials
and much to do for all team members. Expect one station operational by perhaps as early at 2000-2200. Keep in mind, to this point at 1730Z, it is
total darkness at T31 until 1830Z.

ANNOUNCING THE IOTA 50TH ANNIVERSARY MARATHON,
1 JANUARY 2012 - 31 DECEMBER 2013

The year 2014 marks the 50th anniversary of the launch of the Islands On The Air (IOTA) Programme by British SWL Geoff Watts, BRS-3129. As a build-up to our celebrations on this occasion, the RSGB IOTA Manager and Committee announce an exciting activity period in which all licensed amateurs world-wide are invited to participate.

For a two-year period during 2012 and 2013, IOTA chasers are encouraged to contact as many different IOTA groups as possible, and IOTA activators to play their part by operating from as many groups as possible, with special emphasis on the less-frequently activated ones. The points system adopted rewards 'Activators' with higher scores for activating the rarer IOTA groups. Certificates and awards will be available to both 'Chasers'

and 'Activators' to reflect attainment of graduated bands of performance together with attractive prizes for top scorers.

The challenge provides a level playing field for everyone, whether they are complete newcomers to IOTA or are holders of the prestigious IOTA 1000 Islands Trophy, because everyone starts with a clean slate on 1 January 2012.

We hope that all our readers will consider ways in which they can support this event. We would like to see work starting now to schedule activity from as many IOTA groups as possible throughout the 24 months. Let us target 500 groups initially in the hope and expectation of being able to raise this higher as the Marathon progresses.

The full rules of the IOTA 50th Anniversary Marathon can be seen on G3KMA's website at www.g3kma.dsl.pipex.com/. They will be uploaded to the RSGB IOTA website at www.rsgbiota.org/ shortly when key personnel return from Visalia.

CR6A - 17.April
As you know, the submerged forteress activity was postponed to August 2011 low tides.
On Saturday, team visited the forteress to see condition in loco. Wind around 30km/h!
On Sunday, wind on 50km/h was impossible travel and landing on the fortesses.
All team stay on HQ in Armona Island and setup one station on the island to make few contacts with our CR6A callsign. Atention: All CR6A QSO on April, 17th are not from submerged forteress, only from armona island.
Some pictures (only 4) from our stay on Armona Isl on http://algarvedx.com

Hi John

I plan to be QRV once again from Brunei on May 4-9th, 80-10m
on RTTY/CW/SSB. As before I will be running 400w to a Butternut HF6V up
about 100' on the hotel roof.

BTW during my visit to Brunei in March, I made close to 2500 Q's with a
high percentage on RTTY. I have been asked by some Southern Hemisphere
stations to look for them on 80m CW so I will give that my best shot on
this trip :-)

On a personal note, I will be visiting the U.K. and I.O.M between May 19th
and June 1st.

I plan to spend the first part until the 28th in the Isle of Man -
then the
latter part in Ayrshire. I hope to put GD3OOK on the air from home base
for a last time!

73 for now - take care - John - 9M6XRO

April 23 @ 2130Z addendum ? On-line logs are NOW up! If you do not find your
call for a QSO before 1700Z, then rework us. Any errors in uploading or mistakes in logging will have to be addressed after the DXpedition by comparing the log data and possible errors. NO corrections will be made during the trip. All attempts are being made to try and work the areas of the world with the shortest window and possibly weakest signals, despite other areas coming in that might be stronger at the same time frame. Please
understand DXpedition attempts to work as many who need T31 for a new country overall and secondarily those who need band countries. We plan on leaving on the published departure date. We are doing our best under difficult circumstances.

April 24 ? Team leaving Wednesday night, no extra days :-(. LOT of bad weather last night there and roof collapsed causing equipment damage from rain coming through the roof. All antennas needed repair.

T31A UPDATE:

On April 25 @ 0300Z they posted this: ?It has been confirmed that the boat captain is using the 5W?-Samoa calendar day (east of dateline) as the day of departure, since that is where they departed from and going back to. Therefore, the Wednesday evening departure from T31A is actually THURSDAY GMT date. If the boat departs at 6-7 PM on Wednesday evening from T31A, that will be approximately 0500 - 0600Z Thursday. So there will be 3+ more days of operation. The weather is improved some from the bad weather of two days ago that did some damage to the radio operating positions. Unknown if RTTY or 6m will be attempted due to time constraints from all the unexpected delays. Check for news updates and watch DX Summit for spotting. Thank you for being understanding that the team is operating under adverse conditions! Northern Europe's narrow propagation window is being considered, knowing that signals are weak AND the SSN/Flux are down considerably.?

Carl, N4AA

April 25 @ 1745Z - Talked to the 17m SSB op N1EMC with update
information.
RTTY will probably be starting tomorrow, Tuesday Z. Also, 6 meters has a
beacon running and there IS an operator nearby in case any answers.
Lastly,
operator N1EMC will be capturing the log data and uploading to the
website
at about 2200Z, very doubtful before that due to local problems. So watch
for log update later today. This will answer the RTTY, 6m and log
inquiries.
The team is doing the best they can with lack of sleep, weather
problems and
other related antenna repairs.

10089. A quick note on T31A…

Hello DXers:

A quick note on T31A?..

I got a call this evening saying the team will be operating tonight, but will be tearing down tomorrow. From the conversation, it would appear that they will be on the air until around 1600-1700 UTC Wednesday, April 27th.

This is NOT absolute, definite time, only the best I can conclude from the conversation as it was relayed to me from one of the Team earlier this evening.

Suffice to say, if you need T31A, you might want to lose some sleep to get it in your log now.

In the last few hours they have been spotted on 10 SSB/CW, 15 RTTY and 12 SSB.

Although not stated, they will probably be trying to work the low bands tonight so keep listening/watching. This will be your last chance to work them.

Carl, N4AA

Folks, I need your help.
I spend most of my time working on updating the DB with new info
and making changes to current records. I am trying to keep the Dates
in the records current, but there are just to many for one person to
catch and change.
Please whenever you are checking the DB for info and you find a
current record with the correct Qsl Mgr, but not a current year Date,
please send me the DX call and let me know the Mgr is correct but to
add the current year to the record. This will sure help me out a lot
and give you much more accurate info in the DB. I always need help.
Thanks in advance.

10091. T31A will stop operation at 1900Z

April 27 @ 1830Z - The T31A will stop operation at 1900Z. HOWEVER, some of
the operators will be on different bands using THEIR OWN T31 callsigns. When
you hear T31 - - , it will be the individual operators using their calls as
a courtesy to the team members. This will happen for a short time on
different HF bands as slowly the equipment and antennas will be packed up
for the boat loading during daylight hours. The boat will leave at DARKNESS
T31A time, about 0500Z. So, ONLY T31A until 1900Z , then individual call
signs. Have fun!! Good luck to the team on their 4 day boat trip back to
Samoa and then home. Thanks to Eddie and Roberto for helping me keep the
news up-to-date as much as possible on the website. Thanks to the DXers who
have been understanding about all our problems during the trip. QSLs and any
log corrections only via W2IJ after the trip.

QTH will be a rented cottage on the west of the island near Balliekine (WW Loc. IO75HO). As usual most HF bands will be activated with SSB, data and some CW. VHF wise they will be on 6m and 4m SSB/data (JT6m) and being a little more south than Harris they will again activate 2m both SSB/data (FSK441). If they have time, they will also be active on 2m and 70cm satellites. This year the CRG (Cambridgeshire Repeater Group) has a new callsign G6PYE which they will use alongside the traditional G3PYE, as the activation is in Scotland the prefix becomes GS for a club station in Scotland. Listen out for both GS3PYE/p and GS6PYE/p. QSL direct or via bureau to M0VFC. Website: dx.camb-hams.com/ [rsgbiota.org]

01/05/2011: Noel, OO4O, will be active as OZ/OO4O from Fyn Island (IOTA EU-172, DIA FY-001, WLOTA 2690) on 1-6 May 2011. QRV on the HF bands using mostly SSB. QSL via ON bureau and via the LoTW. [OPDX Bulletin]

01/05/2011: The Intrepid-DX Group is pleased to announce their next DXpedition, as T6PSE from Afghanistan to take place during ten days in May of 2011. Due to security concerns, the exact dates and location of the DXpedition will not be given at this time. The Intrepid-DX Group is the same group which brought you the April, 2010 YI9PSE DXpedition from Iraqi Kurdistan. The primary objective is to activate Afghanistan with a goal of providing as many DXers as possible a "new one" with this rare DXCC entity and, as a secondary objective, to give as many band-slots as possible. They will focus on North and South America during those periods when propagation is possible to those areas. The team is expected to consist of ten operators including: Co-Leader Paul Ewing-N6PSE, Co-Leader David Collingham-K3LP, Hrane Milosevic-YT1AD, Krassy Petkov-K1LZ, John Kountz-WO1S/T6EE, Heathem Sabah-YI1UNH, David Flack-AH6HY, Jack Ritter-W0UCE and Wayne Rogers-W5KDJ. Further information can be found on their website at: www.intrepid-dx.com/t6pse/index.php [NG3K]

MS Shower Info 2011, May:
The most prominent shower this month is Eta - Aquariids, peaking May 06, around 13h UT. This shower is characterized by a broad maximum; predicted ZHR at peak for 2011 is 70 hr-1. Some daytime showers (Omicron - Cetids, peaking May 20th being the most significant) will be also active this month; in addition to increasing Sporadic Meteors background, they will provide good conditions for MS DXing.

JX7VPA - JAN MAYEN -
Hello DX Friends,
I'd like to inform that we just have launched our website dedicated to our another ham radio project - DXpedition to Jan Mayen island. We will activate the island as JX7VPA between July 6-14, 2011.
You'll find all details at: janmayen2011.org/
Since Jan Mayen is a very expensive destination, please consider donating to our project to help to organize the DXpedition - thank you!
All the best of greetings.
Stan SQ8X - JX7VPA team leader and organizer.

EZ ? Turkmenistan Activity
Sunday May 01, 2011

May 1, 2011

The following is an update [edited for clarity] by Vlad EZ8BP almost six months on:

<<< On this day, things are very bad. Our amateur radio league cannot re-register with the Ministry of Justice of Turkmenistan due to the fact they now have no legal address. For that reason, the State Inspectorate for Spectrum Communications, Ministry of Turkmenistan refuses to issue permits, andsuch, Turkmenistan is off air. >>>(DX WORLD)

As of April 18, 2011, Buzz (NI5DX) will no longer be assisting 9M6JC as QSL manager. John has decided to handle the QSL duties himself. Please do NOT send any 9M6JC cards to NI5DX either direct or via the bureau.

It appears that the loss of a large parcel of QSL cards that Buzz sent to 9M6JC containing cards for both John and Tom, 9M6TMT, has caused the two to decide to handle their own paperwork, hopefully avoiding the future loss of cards.

I have booked the club station from 00:00 on the 7th until I'm leaving at 1:00pm on the 9th. I'll actually be arriving there on the 6th, 2:00pm, but as the rent is quite expenive I'll try to be QRV from the hotel for the first hrs of my stay - with just a simple wire antenna stretched out the window.

I.C.P.O. Bulletin (06-13 May 2011)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

06/05/2011: Operators Torsten, DL1THM and Anja, DH2AK will be active as ZF2TH and ZF2AT respectively, from Grand Cayman Island (IOTA NA-016, WLOTA 1042) on 6-13th May 2011. QRV holiday style and mostly on 20 metre SSB. Most of the operation will be from the beach using a LiPo battery pack, IC-7000 and Buddipole. The two operators will also be active from New Providence [Nassau] Island (IOTA NA-001, WLOTA 1115), Bahamas, as DL1THM/C6A and DH2AK/C6A. QSL ZF2TH and DL1THM/C6A via DL1THM, bureau or direct. QSL ZF2AT and DH2AK/C6A via DH2AK, bureau or direct. [OPDX Bulletin]

06/05/2011: Once again the "HAMCOW" team will be active as W1ACT from Martha's Vineyard (IOTA NA-046, USi MA005S) and Gay Head (Aquinnah) lighthouse (ARLHS USA 319, WLOTA 2804, Admiralty J0476), Dukes County, Massachusetts on 6-8th of May 2011. They will also participate in the New England QSO Party. Operators will be Roland N1JOY, Paul KE1LI, Dave W2DAN, John WA1ESO, Don N1PMB, Melanie KB1TQB and Bob KB1JBC. QSL direct SASE only via N1JOY for QSL card. Website: hamcow.net/ [rsgbiota.org]

07/05/2011: Gus IK4RQJ, Sergio IZ4BBF, Luca IK3AES and Alex 9A8AMS (IZ4AMS) will be active 7-15 May 2011 from Sveti Nikola (IOTA EU-110, ACIA IC-016, IOCA CI-118, MIA MC-414, ARLHS CRO-164, CLH-153, WLOTA 3152, WW Loc. JN65TF) as 9A/homecall and 9A8AMS. Alex, 9A8AMS, will focus on 160, 80 and 6 metres, all modes, while the others will be QRV on 40-10m all modes. QSL direct or bureau to homecalls or QSL 9A8AMS via QRZ.com. [rsgbiota.org]

07/05/2011: Patrick, F8DYD/p will be active on 7th May 2011 from the Castle of Cibioux (DFCF 86-084, WW Loc. JN06EB), located in the commune of Surin (CP 86250), Department Vienne/86 and Province Poitou Charentes (DPF 19). QSL via home call, bureau or direct. [F8DYD]

07/05/2011: Look for Laurent, F8FSC/p, to be active on 7th May 2011 from the following French mills: the Mill Rentreux (DMF 39-044) (if time permits) and the Mill Antides (DMF-39-045), Department Jura/39 and Province Franche-Comte (DPF 10). Expect activity on 80-20 metres. QSL via home call. [F8FSC]

07/05/2011: Han DS2GOO/4, Son DS3HWS/4, Chae DS5BSX/4 and possibly others will be active from Pigum Island (IOTA AS-060) on 7-9th May 2011. Plans are to operate CW, SSB and digital modes on 80-10 metres. QSL via home calls. Log search at: ds2goo.karl.or.kr/2011/Pigum_Island/ after the operation. [425 DX News]

07/05/2011: PG6N will be active again this year from the Noordwijk Lighthouse (ARLHS NET-019, WW Loc. JO22FF) on Saturday, May 7th 2011, during the Dutch

Lifeboat Day. QSL via QRZ.com. Updates will be available on their website at: pg6n.jouwweb.nl/english [425 DX News]

07/05/2011: Mike, VE9AA, will be active aprox 7-16th May 2011 from many grids all across VE9, VE1 and (mostly) Newfoundland (IOTA NA-027, CIsA NF001, WLOTA 0345), as VO1TTT/M using 100w and a large vertical (HS-1800/Pro). This will be holiday style and not a dedicated expedition, but he will probably call CQ beacon style while in motion (QRG to be determined). QRV from 40m thru 2m, mostly CW and concentrating on 6m. May also monitor 28.885MHz when no 6m prop. QSL via home call. [MMMonVHF]

07/05/2011: Rich, W2VT/p will activate Long Beach Island (IOTA NA-111, USi NJ-001S), Ocean County, State of New Jersey, on 7th & 8th May 2011. Look for activity on, or near, the usual IOTA and island frequencies. QSL via home call, direct or bureau. [rsgbiota.org]

30/05/2011: Klaus, DK6AO, will be active as VE7/DK6AO from Quadra Island (IOTA NA-091, CIsA BC006, WLOTA 1757) between 30th May and 7th June 2011. QRV on all HF bands. QSL direct or bureau to DK6AO - no eqsl! Further information and possible online-log at: www.dk6ao.de/ [rsgbiota.org]

01/06/2011: Wally, VK6YS, will be active from Cocos (Keeling) Island (IOTA OC-003, WFF VKFF-577) as VK9CI for around one week from Wednesday 1st June through to Tuesday 7th June 2011. As this is a holiday away with his wife, Gaye, the radio will be secondary and most operations will be early local morning and through the evenings, propagation permitting. Wally's intention is to operate mostly digital modes, predominantly PSK31 and some RTTY with an occasional play on Olivia. QSL's will be direct to VK6YS (see QRZ.com). Further info and updates at: www.westozdx.net/ [rsgbiota.org]

04/06/2011: The North Cork Radio Group, using their Club Callsign, EI1NC/P, will be activating the Blarney Castle (CASHOTA EI010/C, WCA EI-00057, WAI W67, WW Loc. IO51RW), County Cork, Ireland (IOTA EU-115, WLOTA 2484), over the June Bank holiday Weekend 4th 5th and 6th of June 2011. QSL direct to EI1NC (QRZ.com). [CASHOTA]

18/06/2011: Yigal, K2EFG/p will be active on 18-23 June 2011 from Fire Island (IOTA NA-026, USi NY013S, WLOTA 1922), Suffolk County, State of New York. Focus will be on 40 and 20 metres. QSL via home call, bureau or direct. Website: YouTube.com/k2efg/ [rsgbiota.org]

27/07/2011: Jari, OH1JO, will be active again from Kaunissaari island (IOTA EU-140) between 27th July and 4th August 2011, using the callsign OH1K. Main band will be 20m, but other bands will be used too. QSL via OH1JO, direct or bureau. Further information will be posted at: www.qrz.com/db/OH1K [dx-world.net]

16/08/2011: Reinhard, DH6DAO, will be active as EA7/DH6DAO from Velez, Malaga Province, Spain (WW Loc. IM86AR) between 16th August and 2nd September 2011. This includes the activation of Torrox lighthouse (FEA E-0074, ARLHS SPA-219). QRV holiday style on 6m CW/SSB only. QSL via home call, bureau or direct. [MMMonVHF]

==========

SPECIAL EVENTS -

08/05/2011: On Sunday 8 May, the Whitton Amateur Radio Group will be presenting amateur radio to the public using the special event callsign GB2IKE in Bushy Park as part of an open day called Chestnut Sunday at Bushy Park, located in-between Teddington and Hampton Court Palace in Middlesex, England (IOTA EU-005, WLOTA 1841). Whitton Amateur Radio Group has the Royal Parks to thank for allowing the station to be situated in the park and it is likely that these will be the first radio transmissions from this location since the base was operational in WW2. QSL via the RSGB bureau. Website: www.qrz.com/db/GB2IKE [GB2RS]

U.S.A. Special Events can be found at: www.arrl.org/special-event-stations

COUNTY HUNTING (USA-CA) -

K7RE/M - MAY 7 to MAY 7 - CW Only
I will be doing the 7 Land QSO Party (7QP). My home QTH is only 7 miles from the WY border. The detailed route is not yet planned, but I will be doing Eastern WY, and South Eastern MT. We plan on starting in Crook and Campbell counties in WY, and then head north up into eastern MT. My XYL, KD7GLY will be doing the

driving. I will be exclusively CW in the Rover category. Frequency will be any free spot on 20M just below the CHN frequency which is 14056.5. I probably will stay on 20M from about 0800 until about 2100 Local mountain time. This is 1300Z 5-7 (Saturday) until about 0300Z 5-8 (Sunday). QSL's *only* replied to with an SASE, but I QSL 100% if you do send an SASE. WX is predicted to be very good. QSL via home call.

KM9X - Dan - 3* - MAY 7 to MAY 7 - SSB Only
KM9X -3* AND KB9MGI -1 * - Indiana QSO Party Run
**** Trip may be rerouted and some counties dropped due to extreme flooding and roads closed in Southern Indiana as of Wednesday MAY 4. *****
May 7 2011 - 1600z: Ripley, Jennings, Jefferson, Scott, Washington, Orange, Martin/Daviess, Pike, Gibson/Posey, Vanderburg/Warrick, Dubois/Spencer, Perry/Crawford, Harrison/Floyd, Clark, Jefferson and Ripley.
Will run on 7188 and 14.336 when able and INQP frequencies 7190 and 14250 between runs in a county. QSL via home call.

C21A - Nauru Expedition (Nov 13 thru to Dec 7, 2011) -
Eddie, VK4AN/3D2A, will be in Fiji prior to these dates and will arrive at Nauru either 2 or 7 November which will give him a chance to begin setting up some of the equipment. It is possible that he will be on the air in a limited manner prior to the official launch date.
We expect to have 6 operators and 3 stations active on all bands 160-6m, CW/SSB/RTTY/PSK31. Will participate in the CQ WW DX Contest as a M/M or M/2 entry. QSLing will be handled by the Pacific DXers. QSL's provided by VK4FW Print. The Pacific DXers DXpedition Kit will be used, plus additional equipment provided by operators. No 'spot' frequencies will be published. Watch the DX reflectors for our QRG's.
An online log will be updated on a regular basis (if possible).

HA South Pacific Tour -
Pista, HA5AO and George, HA5UK will be active from 3D2/F, T2, T30 and possible from T33 between 1st October and 15 November. They applied for the T2HA, T30HA, T33HA and also for 3D2UK (Fiji) callsigns, but they are waiting for the licences. There will be two stations simultaneous on the air from 160-10 meters, on CW, SSB and RTTY modes. Info and logsearch will be available at http://ha5ao.novolab.hu. QSL via LoTW, direct via HA5AO, and buro. More details will be announced later. [HA0HW]

T6PSE Afghanistan DXpedition cancelled -
The group planning a big DXpedition to Afghanistan this month have been forced to cancel it following security concerns.
The group have posted the following statement on their website:
"The Intrepid-DX Group has been planning for many months to conduct a large multi-national DXpedition from Kabul, Afghanistan as T6PSE.
We had been receiving advice and assistance from Jim McLaughlin WA2EWE/T6AF, who was killed in Kabul earlier this week.
The Taliban subsequently announced their 'Spring Offensive'.
Last night, President Obama announced the killing of Osama Bin Laden.
Given these circumstances, and with careful consideration, we have decided to cancel our plans for a DXpedition from Afghanistan. There is just too much uncertainty in the region for us to continue to move forward with our plans.
In the next several weeks, I will refund all donor/sponsor monies that have been given to support our plans.
Thank you,
Paul S. Ewing-N6PSE
Co-Leader T6PSE DXpedition [Southgate ARC]

JX - JAN MAYEN - The team heading to Jan Mayen island in July, initially announced as JX7VPA, is pleased to report they have the privilege to activate the island under the unique, special callsign JX5O thanks to assistance and

support of the LA5O Ringsjøen Contest Club founded by Rag LA6FJA and Svein LA5FHA. Following Norwegian regulations, the usage of the callsign has been arranged at Norwegian Post & Telecom by the Club's committee. Website: janmayen2011.org/ [dx-world.net]

VK4 - LIZARD ISLAND - Aki, JA1NLX, is planning to operate as JA1NLX/VK4 from Lizard Island (OC-187) in August, 2011. Lizard Island is located about 240Km north of Cairns, Queensland. He plans to be QRV for three or four days in August on HF; CW and SSB. Exact details are not fixed yet. [dx-world.net]

Nauru..... Dates Nov 13 thru to Dec 7, 2011. Plans are well
advanced. If you would like to join in as an operator there are still
a couple of vacancies. As the airline only flights every Sunday and
return every Wednesday it is necessary for each operator to spend a
minimum of 10 days on the island.
Interested people should contact vk4fw@... for further details.

4W6A TIMOR-LESTE (EAST TIMOR) DXPEDITION SEPTEMBER 16 ? 26, 2011
www.4w6a.com
PRESS RELEASE NUMBER 3 ? May 11, 2011

Everything is on schedule for the 4W6A DXpedition. All the team members have now booked and paid for their air tickets from the UK, Malaysia and Australia to Dili, East Timor. A boat has been chartered to take the team and their equipment from Dili to Atauro Island, the site of the DXpedition, and back again. The accommodation on the island has been booked and the team members are now also booking their overnight transit stops in Bali, Darwin and Dili.

The DXpedition will be operating from generators which will be hired and picked up in Dili the day before the start of the operation. The generators have been booked and arrangements have been put in place for sufficient fuel to be transported to the island for our use whenever necessary.

It is hoped to be able to use an Internet connection on the island and, if this proves to be reliable, logs will be uploaded to Club Log (www.clublog.org) and Logbook of The World on a daily basis.

The team is very grateful to the LA DX Group, CDXC (Chiltern DX Club) - The UK DX Foundation, the Oceania Amateur Radio DX Group, and the Northern Ohio DX Association, who are the first four DX associations to have offered sponsorship to the 4W6A DXpedition. Thanks too go to Tony Burt, VK3TZ, of Rippletech Electronics (http://www.rippletech.com.au), who is kindly loaning three monoband vertical antennas for use on the DXpedition. We are also very grateful to a growing number of individuals who have also made donations towards the cost of shipping equipment to East Timor, the boat charter, the hire of the generators and the cost of fuel. All sponsors are listed, with thanks, on the 4W6A website at http://www.4w6a.com/sponsors.html. If you or your DX club also wish to help, there is a "Donations" page on the 4W6A website. Payments may be made by credit or debit card and you do not need to have a PayPal account yourself in order to make a donation.

4W6A will be QRV from Atauro Island (IOTA OC-232), Timor-Leste (East Timor), from 16 to 26 September 2011. Activity will be on all bands 10 to 160 metres, using CW, SSB and RTTY. The QSL manager is M0URX, direct (SAE plus 1 IRC / $2), via the bureau, or LoTW. The entire log will be uploaded to LoTW as soon as possible after the end of the

operation or, if possible, even during the DXpedition. QSLs may also be requested using the QSL request form on the website.

SPECIAL EVENTS -

13/05/2011: Henri, TJ3AY is currently active as TJ3IC until 30th May 2011 to commemorate the 51st anniversary of the independence of Cameroon. Expect Henri to be QRV on all HF bands. A special QSL card is via F5LGE, direct or bureau. [dx-world.net]

14/05/2011: Special callsign TM90LH will be in use again on 14-15 May, 4-5 June and 9-10 July 2011 to celebrate the 90th anniversary of the Societe Havraise de Telegraphie Sans Fil (F6KOH), one of the oldest amateur radio clubs in France. QSL via F6KOH. [425 DX News]

14/05/2011: Members of the Laurel Amateur Radio Club will be active on 14 May 2011 as W3P to celebrate the Waterfront Festival at the Piney Point lighthouse (ARLHS USA-601, WW Loc. FM18RD), St. Mary's County, State of Maryland. QRV on 40, 20 and 17 metre, SSB and PSK31. QSL direct to KA3UNQ (QRZ.com). [OPDX Bulletin]

15/05/2011: On Sunday May 15th 2011, radio operators of the Radio club of Binche (ON7RY) with the help of their colleagues of the Milton Keynes Amateur Radio Society (MKARS) will be on the air from the historic place of Bletchley Park (Buckinghamshire), England, using the special callsign M/ON4WAR. QRV CW only on 3.566 - 3.583 MHz and 7.006 - 7.012 - 7.016 - 7.025 MHz. The transceivers used for this event will be essentially replicas of the Whaddon MK VII (Paraset) constructed by amateurs radio of the Radio club of Binche

(Belgium). QSLs either direct or via ON7RY. [F5NQL]

15/05/2011: On Monday 16th May 2011, the Lincoln Short Wave Club will be operating G5FZ on the 80m band as near to 3.617 as conditions allow. The transmissions will commence at precisely 21.39 - the time the first wave of nine Lancaster bombers of RAF 617 Squadron, led by Wing Commander Guy Gibson, took off on the night of 16/17 May 1943, to attack the Mohne, Sorpe and Eder Dams in Germany using Barnes Wallace's famous 'bouncing bomb'. Transmissions will cease at 01.39 - this is the time the Mohne Dam was breached by the fifth Lancaster flown by Flt Lt D J H Maltby, the rest of the bombers went on to attack the Sorpe and Eder dams. This will probably go down in history as the most daring attack ever undertaken by Bomber Command, immortalised by the famous film The Dam Busters. All nineteen aircraft took off in three waves from RAF Scampton, this is less than a mile from our club shack. There will be a limited edition QSL card sent to all contacts. [Southgate ARC]

16/05/2011: Between 16 May and 22 May 2011, TCSWAT will be on the air as TC130ATA, to celebrate the 130th birth anniversary of Mustafa Kemal Ataturk. They will also activate special callsign TC1919ATA to commemorate the start of the Turkish war of independence. The team will be TA7EB, TA7BC, TA3AX, TA2RX, TB2MYE and TA1HZ, working from Canakkale-Istanbul and Giresun. QSL via TA1HZ. [Southgate ARC]

4W6A TIMOR-LESTE (EAST TIMOR) DXPEDITION SEPTEMBER 16 - 26, 2011
www.4w6a.com
PRESS RELEASE NUMBER 3 - May 11, 2011

Everything is on schedule for the 4W6A DXpedition. All the team members have now booked and paid for their air tickets from the UK, Malaysia and Australia to Dili, East Timor. A boat has been chartered to take the team and their equipment from Dili to Atauro Island, the site of the DXpedition, and back again. The accommodation on the island has been booked and the team members are now also booking their overnight transit stops in Bali, Darwin and Dili.

The DXpedition will be operating from generators which will be hired and picked up in Dili the day before the start of the operation. The generators have been booked and arrangements have been put in place for sufficient fuel to be transported to the island for our use whenever necessary.

It is hoped to be able to use an Internet connection on the island and, if this proves to be reliable, logs will be uploaded to Club Log (www.clublog.org) and Logbook of The World on a daily basis.

The team is very grateful to the LA DX Group, CDXC (Chiltern DX Club) - The UK DX Foundation, the Oceania Amateur Radio DX Group, and the Northern Ohio DX Association, who are the first four DX associations to have offered sponsorship to the 4W6A DXpedition. Thanks too go to Tony Burt, VK3TZ, of Rippletech Electronics (http://www.rippletech.com.au), who is kindly loaning three monoband vertical antennas for use on the DXpedition. We are also very grateful to a growing number of individuals who have also made donations towards the cost of shipping equipment to East Timor, the boat charter, the hire of the generators and the cost of fuel. All sponsors are listed, with thanks, on the 4W6A website at http://www.4w6a.com/sponsors.html. If you or your DX club also wish to help, there is a "Donations" page on the 4W6A website. Payments may be made by credit or debit card and you do not need to have a PayPal account yourself in order to make a donation.

4W6A will be QRV from Atauro Island (IOTA OC-232), Timor-Leste (East Timor), from 16 to 26 September 2011. Activity will be on all bands 10

to 160 metres, using CW, SSB and RTTY. The QSL manager is M0URX,
direct (SAE plus 1 IRC / $2), via the bureau, or LoTW. The entire log
will be uploaded to LoTW as soon as possible after the end of the
operation or, if possible, even during the DXpedition. QSLs may also
be requested using the QSL request form on the website.

May 2011 will be the month for chasing castles and stately homes on air. The
weekend of the 21st and 22nd will be the international castles weekend from 1am
on the 21st to 11pm on the 22nd. For UK stations, information can be found at
www.cashota.co.uk as well as links to regional activity. The website now allows
interested amateurs to complete activation forms online. [GB2RS]

UFT New Board Of Directors -

The French EUCW Society, the Union Française des Telegraphistes, The UFT, has elected its new board of directors for the years 2011/2012 as follow :

President; Francis FAGON, F6ELU,

Vice President : Vincent ORTEGA, J28JV/F5MJV

Secretary :Jean-Claude MERCIER, F6JOE

Treasurer : Gerard TOUSSAINT, F6ICG

Trustees: Ms Evelyne TERRAIL, F5RPB, Ms Claudine DECLEF, F5JER, Maurice MATHIEU, F5IYU, Paolo PARAVAGNA, F8ENY, Bernard IRIGOYEN, F5HEW, Frederic BOSSU, FR8NE/F5INL, Christian CHEFNAY, F9WT. [F5NQL]

IOTA Updates -

With the publication this month of the new IOTA Directory a number of rule changes have come into force including the raising of the minimum QSO threshold from 200 to 1000 QSOs for first-time activated new IOTA groups and amendment of the handling of islands previously deleted following a deletion of a DXCC entity, allowing acceptance of old Penguin Islands and Red Sea Islands QSOs for AF-070 and AS-009 respectively. A note of the main changes has been uploaded to G3KMA’s website at: www.g3kma.dsl.pipex.com

The following operations in April 2011 have provided acceptable validation
and are therefore approved for IOTA credit: EG5CI (EU-069), K6VVA/6 (NA-184),
P29VCX (OC-101), P29VLR (OC-231) and P29NI (OC-257).

Hi friends

The QSL cards for the last TJ9PF activity in Kibri, Cameroon, - Feb 2011 10 to 20, by the Provins ARC F6KOP team are printed.

Didier, F5OGL, QSL manager is expecting to get them this week, from the printer.

We ask all of you who asked for direct QSL cards, a little patience.

The labels are printed and the French stamps are purchased; they are ready to be put on the cards and envelopes.

So , the first batch will be mailed very soon.

It's useless to renew your cards requests, please don't do.

By the way, know that, as usually for all F6KOP's dxpeditions, the upload on Lotw, is scheduled when all the direct cards, and the first bureau batches will be answered, so allow us some months.

73 and many thanks to all of those who called and QSO'd TJ9PF.

Bonjour à tous

Les cartes QSL pour la dernière expédition du RC de Provins, F6KOP, au Cameroun, du 10 au 20 février dernier - TJ9PF - sont imprimées.

Didier , F5OGL, QSL manager, les attend cette semaine.

Nous demandons donc à chacun de ceux qui ont demandé QSL directe, encore un petit peu de patience.

Les étiquettes sont imprimées, les timbres sont achetés. Celà devra donc aller vite.

il est donc inutile de renouveler votre demande de carte QSL.

Pour répondre à quelques questions posées, le téléchargement sur LotW est prévu comme pour chacune des expéditions de F6KOP, après le traitement des cartes QSL directes et les premiers lots de QSL bureau.
Merci de nous accorder encore quelques mois.

Encore merci à tous ceux qui ont appelé et contacté TJ9PF.

Maurice, F5NQL

10136. Bonaire, PJ4 DX News from the GOLIST

Hello ham friends:

I suspect that many of you don't have Bonaire, PJ4, the new DXCC entity confirmed on all bands and modes. Early tomorrow, May 24, Dick, K4IQJ, and I will fly down to the K2NG/PJ4G rental QTH on Bonaire where we will be QRV until we return home on May 31. We will be QRV on many bands and modes outside the CQ WPX CW Contest and I will be QRV in the contest as PJ4A SO AB HP. If Dick is QRV on CW on the contest bands and modes during the contest, he will sign PJ4/K4IQJ and we will both use PJ4/home calls outside the WPX Contest. QSL my non-contest and contest QSOs via K4BAI and Dick's via K4IQJ. The PJ4A QSOs will be uploaded to LOTW within a few weeks by KU8E.

If everything works OK, we will be able to send and receive e-mails. Of course, I will not do that during the contest as I will not be in the assisted category. I will work mostly CW, but can and will QSY to SSB upon request. Dick will also work mostly CW, but can and will QSY to SSB and also I expect to RTTY. Dick will be taking down a K9AY loop. He spoke to the antenna forum at Dayton on Friday on using multiple K9AY loops to improve reception on 160 and 80M. Dick plans to emphasize 160M in spite of it being late May. Last year, I made only three QSOs on 160M in a week of operating, so 160M will see more activity from Bonaire this May than last. Note that Hans, PJ4LS, will also be QRV in CQ WPX CW SO AB LP.

Unfortunately, we will not have equipment or an antenna for six meters this trip. KU8E and I will return with others probably in November for CQ WW CW and 160M will be a better band then.

If travel plans go exactly as scheduled, I could be QRV as PJ4/K4BAI in the SKCC SKS Sprint Tuesday night 00-02Z. I bought a light weight hand key from Don, K8MFO, at Dayton for that purpose, but any SKCC members who wants a straight key QSO outside the contest may send me their SKCC number and I'll try to change to the hand key for a QSO.

I do expect to be QRV as PJ4/K4BAI in the NCCC SNS and NS sprints on Thursday night. Don't forget to count PJ4 as a multiplier for that Sprint even though it is in South America since a special rule added the SA PJ2 islands when DC was added as a multiplier.

P40W by W2GD will also be QRV in the contest and John and I are both shooting for the SA record, which I set last year. RD3A should be QRV from the Canaries as EF8R and I am sure he is shooting for another world record.

Best wishes to all for the next week and the WPX contest and safe travel to all who will be traveling. I hope that Dick and I can give out many new band/mode countries from PJ4. We will emphasize the WRTC bands for that purpose and will also try to be QRV when Asia contacts are possible.

73, John, K4BAI/PJ4A.

I just received the Summer 2011 RAC cd's and have them ready to
goto the
post office in the morning. I have only 3 copies left over and do not
expect to make
another order for this issue. The next release (Winter 2012) will
become available
in late November 2011.

I.C.P.O. Bulletin (27 May - 03 June 2011)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

26/05/2011: Laci, HA0HW, will once again be active as J48HW and SV8/HA0HW from Thassos Island (IOTA EU-174, GIOTA NAS-037, MIA MG-124, WLOTA 4186, WW Loc. KN20HS) between 26th May and 5th June 2011. He will take part in the CQ WPX CW contest as J48HW on SO HP AB TB-WIRES. After the contest Laci will be QRV on all HF band +6 m with monoband fishing pole verticals and a 2x17m doublet feeding with ladder line. He has a small MOS-FET amplifier with 300-400 Watts output power. All QSLs are ok via HA QSL bureau! [HA0HW]

26/05/2011: Francis, OP4A/p will once again activate Groot Schietveld Nature Reserve (WFF ONFF-135) from 1630 UTC 26th May to 0330 UTC 27th May, 2011. QRV on 30m CW and PSK31. QSL via home call, bureau preferred. [MM0DFV]

26/05/2011: A group from Germany will be QRV from Fyn Island (IOTA EU-172, DIA FY-001, WLOTA 2690) from 26-30th May 2011. Plans are to be QRV on all HF bands using CW, SSB, RTTY and BPSK31. Operators include Mike OZ/DF7MR, Guido OZ/DL1HRG, Frank OZ/DL9FR, Tom OZ/DM2TO, Horst OZ/DM3KF, Peter OZ/DM3VA and Manfred OZ/DM7DX. QSL via their individual home calls. [DX Newsletter]

26/05/2011: Cliff, SV1JG, will be active as SX8V during the CQWW WPX CW Contest from the island of Milos (IOTA EU-067, GIOTA SAS-089, MIA MG-072, WLOTA 4149). Also, look for activity before and after the contest as SV8/SV1JG. QSL via home call, direct or bureau. [OPDX Bulletin]

27/05/2011: Freddy, J28RO and Darko, J28AA will be active from Arta City, Djibouti (CQ Zone 37), as J25DXA for the CQWW WPX CW Contest. In addition, look for operators Marek, J28WR and Mohamed, J28AP to be active on 27-30th May using SSB and the same callsign (also during the contest period). Vincent, J28JV will work both modes, work schedule permitting. QSL via F8DFP, direct or bureau. [NG3K]

28/05/2011: Members of Radio Club Cavancha will be active from Iquique, Chile (CQ Zone 12), in the CQWW WPX CW Contest as 3G1R. QSL via CE1RKV. [NG3K]

28/05/2011: Ash, KF5EYY, will once again be active as 3V8SS from Hammam Sousse, Tunisia (CQ Zone 33), in the CQWW WPX CW Contest as a Single-Op/All-Band/Low-Power entry. QSL via LoTW. Website: www.qsl.net/3v4-002/ [NG3K]

28/05/2011: Andy, UU0JM, will be active from Obcha, Georgia (CQ Zone 21), as 4L0A for the CQWW WPX CW Contest as a Single-Op entry. QSL via LoTW or EA7FTR. [NG3K]

28/05/2011: Zoli, HA5PP, will be active as 5B/HA5PP from Larnaca, island of Cyprus (IOTA AS-004, MIA MCI-002, WLOTA 0051, CQ Zone 20) in the CQWW WPX CW Contest as a Single-Op/Single-Band entry. QSL via home call. [NG3K]

28/05/2011: Zorro, JH1AJT, will once again activate the callsign A5 (that's it!) from Thimphu, Bhutan (CQ Zone 22), during the CQWW WPX CW Contest as a Single-Op/All-Band entry. QSL direct to JH1AJT. [NG3K]

28/05/2011: Look for B7P to be active from Foshan city (WW Loc. OL63NA), China (CQ Zone 24), during the CQWW WPX CW Contest as a Multi-2 entry. Operators include BA7NQ, BA7JS, BA7JC, BD7IXG, BD7IBS, BD7KS, VR2KW, VR2AAW and VR2XZK. QSL via BD7IXG, direct or bureau. [NG3K]

01/06/2011: Italian Air Force Special Call II3NKE will be active between 1st June and 31 August 2011 commemorating the NIKE Hercules Missile Base Tuono - Passo Coe - Folgaria, Italy. The Radio Club Valsugana-Valsugana Servizio Radio Onlus will organize on Saturday 18th and Sunday, 19th June 19 a special event station with ham radio callsign II3NKE in the ex NATO base named "Thunder Base", near Folgaria (TN, Italy). At "Thunder Base" are three of these missiles, the last remaining in Europe, positioned on the launch pads, while a fourth missile to be dissected and placed in the building for educational purposes. The special radio station II3NKE will be managed by amateur radio operators of the Radio Club Valsugana - Valsugana Servizio Radio Onluss and will operate on all amateur bands HF/VHF/UHF/SHF on Voice, CW, PSK31, RTTY, APRS and wi-fi. A special QSL card created for the event, will be sent via bureau to all amateurs who will contact the station, all the info about the QSL manager will be avaiable online. The activation of the special name II3 NKE is queued to the "3rd Reunion" of ex soldiers who served at the "Thunder Base" and other Italian Nike missile bases during the Cold War period. The II3NKE amateur radio station will operate from control area IFC, on the summit of Mount Toraro, about 3 km from the launch site, where in the cold war period was installed the antenna for radio communications and the three radar for the control of the air space. [RAFARS]

Software update VK3UM EMECalc v 7:10
EMECalc v 7:10 is now available from www.vk3um.com . This release includes provision for varying the Solar Flux (sfu) value and refinements to Sky Noise, Beam Fill factor, and sfu interpolation values above 10GHz. For a more detailed description of the changes please refer to:
http://www.vk3um.com/Reference%20Data/EMECalc%20v710_Supplementary.pdf
The web site has also been updated to include additional information regarding the programming and interface connections to some versions of the FE 5680A Rubidium Standard as well as a method of rejuvenating Rubidium Lamps. Finally for those of you that may contemplating EME on higher frequencies and have not seen Graham F5VHX 3 dimensional Dish Installer Software, I have included it for your enlightenment at:

QSL INFORMATION -

TJ9PF QSL Cards Status -
The QSL cards for the last TJ9PF activity in Kibri, Cameroon, - Feb 2011 10 to
20, by the Provins ARC F6KOP team are printed.
Didier, F5OGL, QSL manager is expecting to get them this week, from the

printer.
We ask all of you who asked for direct QSL cards, a little patience.
The labels are printed and the French stamps are purchased; they are ready to be put on the cards and envelopes. So, the first batch will be mailed very soon.
It's useless to renew your cards requests, please don't do.
By the way, know that, as usually for all F6KOP's dxpeditions, the upload on Lotw, is scheduled when all the direct cards, and the first bureau batches will be answered, so allow us some months.
73 and many thanks to all of those who called and QSO'd TJ9PF.
Maurice, F5NQL

10151. SOUTH SUDAN DXCC STATUS

SOUTH SUDAN DXCC STATUS

by Martti Laine, OH2BH

With great anticipation, DXers the world over are looking forward to the 9th of July this year as the predicted day of South Sudan's declaration of independence. Indeed, that declaration is set to happen, but it will not yet guarantee the birth of a new DXCC entity, at least at that time. The DXCC rules are written in such a way that only a new country's membership in the United Nations and/or its ITU country prefix will result in the anticipated DXCC counter. The U.S. State Department Geographer's list of Dependencies and Areas of Special Sovereignty obviously does not apply in this case.

The opinion from the ARRL is that no exceptions will be made in this case. They state that the event date - i.e. declaration of independence - will not cause potential QSOs to be counted retroactively. Rather, Newington categorically assumes that U.N. membership, which will most likely come first, followed by the release of an ITU prefix by the U.N. telecommunications agency, will lead to country status.

The prospect of a new country has taken an unexpected turn just recently. The country's borderline has never been settled between North and South Sudan in the area (Abyei) where most of the oil reserves are located. It was agreed under the 2005 Peace Agreement that the border issue will be resolved by the people in that province. A referendum to settle the matter has not happened. Instead, the North (ST2) has entered the disputed province with force. Additionally, the North has stated that they will not support an independent State in the south unless the contested region is theirs. The matter now remains totally in limbo. <http://www.bbc.co.uk/news/world-13560829>

While the amateur radio project announced earlier this year by 5Z4DZ, ST2AR, W3UR and OH2BH is well underway, it is not yet reasonable to swing your antennas toward South Sudan, as we speak. The project has two well-known DXers now permanently based in South Sudan: SM7PKK and YI1DZ/ST2DZ. The knowledge and the professional presence are in place to proceed with an immediate activation as soon as the above country status matters are resolved.

More news to follow.

I.C.P.O. Bulletin (03-10 June 2011)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

03/06/2011: Bert, 7Z1IR (EPC #3154) and Hamdi, 7Z1TT plan to activate Marzok Island (IOTA AS-191) from 3-5th June 2011. This island group has never been activated before. QSL via DK6IR. Website: www.qrz.com/db/7Z1IR [dx-world.net]

03/06/2011: Ed, W0SD, will be active as PJ4E from the island of Bonaire (IOTA SA-006, WLOTA 1279, WFF PAFF-024, WW Loc. FK52TF) on six metres from 3-18th June 2011. He will be operating in the attended beacon mode. The frequency will be 50.103 MHz since Ed will be there ahead of the other PJ Caribbean DX-Peditions. There will be some HF operation, mainly RTTY, but six meters will always be on the air. QSL via W0SD, direct only (QRZ.com). [MMMonVHF]

04/06/2011: Members of the GyeongNam DX Club, namely Choi 6K5AQY, Kim 6K5AYC, Ha 6K5BHZ, Soo HL5BMX, Kim HL2FDW, Sang DS4NMJ, Kim HL2DYS and Kei HL2UVH will be active as 6M0W/5 from Kadok Island (IOTA AS-081, WLOTA 0304), South Korea, from 4-7th June 2011. Expect activity on all HF bands and modes. QSL via HL5BMX, bureau or direct. [OPDX Bulletin]

04/06/2011: Look for Han DS2GOO, Yongsup DS3GLW, Rew DS4NYE, Rocky HL1VAU and Jung-man DS4CDA to be active as D9K from the island of Chuja (IOTA AS-084) on 4-6th June 2011. Plans are to be QRV on 160-10 metre CW, SSB and RTTY. QSL via LoTW or direct (see QRZ.com). [OPDX Bulletin]

04/06/2011: The North Cork Radio Group, using their Club Callsign, EI1NC/P, will be activating the Blarney Castle (CASHOTA EI010/C, WCA EI-00057, WAI W67, WW Loc. IO51RW), County Cork, Ireland (IOTA EU-115, WLOTA 2484), over the June Bank holiday Weekend 4th 5th and 6th of June 2011. QSL direct to EI1NC (QRZ.com). [CASHOTA]

04/06/2011: Members of the Sooland Amateur Radio Association, K0TFT, will be active on 4th June 2011 from Goat Island (USi NE006 & SD004), Missouri River. Goat island is on the border and counts for two islands with one QSO. This operation will also count for Cedar county, North Dakota and Yankton county, South Dakota. Plans are to be QRV 20 metre CW and SSB, on the usual island and IOTA frequencies. QSL via K0TFT (QRZ.com). [USi]

04/06/2011: Marcos LU7CAW/D, Ezequiel LU1EEZ/D, Javier LU2JFC/D and Mariano LU9ACJ/D will be active on 4th and 5th June 2011 from Martin Garcia Island (IOTA SA-055) and lighthouse (ARLHS ARG-045, TWLHD WLH LU-005, Admiralty G 0791). Plans are to be QRV on 80, 40, 10 and 2 metres. QSL via home calls, bureau or direct with SAE + sufficient postage. [F5NQL]

04/06/2011: Operators Simon M0VKY, Brian G0JKY, Drew G7DMO and Graham 2E0VPT will be active as MS0RSD from Park Bernisdale, Isle of Skye (EU-008, WLOTA 1626,

IOSA NH07, SCOTIA CN14, WW Loc. IO67TL, WAB NG45) from 4-11th June 2011. QRV on 80-10 metres using mainly SSB and PSK31. They will also be on 2 metre SSB for the RSGB 144MHz UKAC Contest (2000-2230z Tuesday, 7 June 2011. 144.310 MHz SSB). QSL via M0URX, bureau or direct. Log will be uploaded to eQSL. Website: dadarsdxpedisleofskye.webs.com/ [OPDX Bulletin]

06/06/2011: Mac, JA3USA, will be active as 4JA3USA from Azerbaijan between 6th and 10th June 2011. QRV on the HF bands, mainly SSB. QSL via home call. [F5NQL]

06/06/2011: Jan, PA4JJ, will be active holiday style as 9A/PA4JJ from Porec (Croatian mainland) on 6-24th June 2011. He will operate RTTY and PSK31 most of the time. QSL via home call (OQRS on: www.pa4jj.nl). [425 DX News]

06/06/2011: Look for Alex, DL1KD, to be active as PA/DL1KD from Texel Island (IOTA EU-038, WLOTA 0043) from 6-20th June 2011. QRV on the HF bands using CW and SSB. QSL via home call, direct or bureau. [rsgbiota.org]

06/06/2011: Ronny, DL1RNW, will be back on tour in Juni - Hallo, Sweden, on 6-12th June 2011 from Grid Square JP87, using the callsign SM/DL1RNW on 6 metre meteor scatter. Plans are to use 300 Watts and 11 element yagi. Exact times will be posted via ON4KST or MMMonVHF. [N8OFS]

07/06/2011: John, K9EL, will be operating as FS/K9EL from the island of Saint Martin (IOTA NA-105, DIFO FA-001, WLOTA 0383, Grid Loc. FK88) from 7-19th June 2011. QRV on CW, SSB and some RTTY, using an IC7000 and verticals for 80-10m and a 3 element yagi for 6m. John might also do some 6m operation from PJ7. QSL via home call. Logs will be uploaded to LoTW upon his return. [K9EL]

08/06/2011: John, KB4CRT (SMIRK #3932), will once again be active as VP2MRT from Gingerbread Hill, St Peters Parish, island of Montserrat (IOTA NA-103, WLOTA 1475, WW Loc. FK86VS) on 8-18th June 2011. QRV on 40 through 2 metres, depending on conditions. John will also take part in the ARRL June VHF Contest (11-13 June). QSL direct to home call (QRZ.com) with SASE or GS. LoTW later, No eQSL! [NG3K]

09/06/2011: The Strumblehead DX & Contest Group will once again be activating Ramsey Island (IOTA EU-124, WW Loc. IO71HU), Pembrokeshire, southwest Wales, using the club call MC0SHL for their annual mini trip/holiday from the 9th to 13th June 2011. The difference this year is the operation will be more relaxed and on air for fun rather than for any contest, although over the weekend of 11th and 12th June there is the WFF activity weekend, with the island having the designated site of Ramsey island NR WFF GWFF-072 (see www.m0oxo.com/ and the WFF area on Charles web page). QRV on 80m through to 6m, using 2 FT1000MP MkV's and a K3. They will also be taking amplifiers for each band and will also have the facilities for RTTY this year. All details of the island and previous activations by the group are on their website at: www.mc0shl.com/ and all QSL requests go through their manager Tim, M0URX with OQRS facilities on his website www.m0urx.com/ - all logs will be uploaded to LOTW and Clublog (www.clublog.org/) either during the trip if they can get a reliable internet connection or immediately they get back to the mainland and the farm. [Pete's-DX-Newsdesk]

10/06/2011: Roar, LA1EOA, will be active as JW1EOA from Longyearbyen, Spitsbergen Island (IOTA EU-026, WLOTA 0125, WW Loc. JQ78TF), Svalbard, on 10-15th June 2011. Plans are to be QRV on the HF bands, SSB only. QSL via home call, direct or bureau. [NG3K]

SPECIAL EVENTS -

03/06/2011: Special event station 7W2FIA will be active until the 6th of June 2011 for the 44th International Fair of Algiers. QRV on the HF bands using CW and SSB. QSL via the 7X bureau or direct (QRZ.com). [F5NQL]

03/06/2011: 8J1MORSE is a special memorial station that commemorates the 220th anniversary of the birth of Samuel Morse and the first successful Morse Code communication across the Atlantic Ocean by Guglielmo Marconi in 1901. With the advancement of radio communication technologies, the Morse Code is placed at the brink of extinction as the modern technology continues to replace the traditional arts of communication. This year, practical Morse Code examinations for amateur radio licenses will be abolished in Japan, as well as in other countries. As the Morse Code technique threatens to disappear even amongst the amateurs, we feel it very important to preserve the Morse Code technique as a thriving and valid means of communication. Contribute to this movement to preserve the art of the Morse Code! Just jump into the Morse Code world; you are always welcome! Let us make sure that the Morse Code never disappears amongst us amateurs. 8J1MORSE will be operated by members of A1 Club Japan with supports of JARL and CQ Publishing Co.,Ltd. We will be QRV in several JA callsign districts (maximum ten districts; JA0 to JA9). So, you will find "8J1MORSE/2", "8J1MORSE/3", etc. They will be QRV not only by CW mode, but also by PHONE modes in order to encourage beginner amateurs and welcome them to the CW world. In addition, if we have a chance, we plan to have "QRS hour" in which we never QRQ for the sake of the CW beginners. When you find our QRS keying, please just wait for a while and kindly give a chance of making a QSO to the CW beginners. A special QSL card will be sent via the bureau to all contacts made. 03/06/2011: A team of eight operators from the Austrian Military Radio Society (www.amrs.at) will be active as E711AMRS from Bosnia-Herzegovina on 3-5th June 2011. They will operate SSB, digital modes and some CW with three stations. QSL via OE4RGC, direct or bureau. [425 DX News]

03/06/2011: Special callsign TM190NB will be active from the Charente Maritime department at various times between 2nd June and 24th September 2011 for the 190th anniversary of Napoleon Bonaparte's passing. Operators will be Frank, F4DTO and Patrick, F4GFE. This special event is also valid for the 30th aniversary of the FFF-056, RNN-053 and WLF-006 foundation. Activation dates: 02 to 04 June; 14 to 17 July; 22 to 23 July; 30 to 31 July; 13 to 14 August; 18 September and 24 September 2011. QSL via F4GFE, direct or bureau. Website: monsite.orange.fr/f4dto [F5NQL]

04/06/2011: The Royal Naval Amateur Radio Society will run a Special Event station at the open day in HMS Collingwood on Saturday, 4 June 2011. The

callsign to be used is GB6COD, Collingwood Open Day. The station will be operational on all amateur bands from 1.8MHz to 440MHz. The Society headquarters station will be open for viewing from 9.30am to 6pm on the day. A number of demonstrations will be taking place using amateur radio and amateur television. QSL via the RSGB bureau. [GB2RS]

04/06/2011: Special event callsign TM50JPL ("Le jour le plus long") will be in use on 4-5th June 2011 from Rivedoux-Plage on Re Island (IOTA EU-032, DIFM AT-022, WLOTA 1407), one of the locations where "The Longest Day", the famous war film about the events of D-Day, was shot fifty years ago. QSL via F8FZC. [425 DX News]

04/06/2011: Special callsign TM90LH will be in use again on 4-5 June and 9-10 July 2011 to celebrate the 90th anniversary of the Societe Havraise de Telegraphie Sans Fil (F6KOH), one of the oldest amateur radio clubs in France. QSL via F6KOH. [425 DX News]

NEWS RELEASE #2 ? 04 June 2011

C21AA Nauru Dxpedition
10 NOV?06 DEC 2011

Members of Pacific DXers are pleased to announce that 6 operators will be active from Nauru with 3 complete stations on HF as well as a dedicated 6m station. Confirmed team so far: NJ7N, NL8F, VK4AN, VK4FW?2 more tbc.

Nauru is currently ranked at 44 on the world wide wanted list, 31 in most of EU and 19 on the wanted digital mode list. We fully intend to operate on SSB , CW, RTTY and PSK31. We will be on all bands 160m thru to 6m.

For logistical reasons, all equipment will be taken on same flight as ?excess baggage?.

QSL?s will be managed by Pacific DXers, with the task going to Bill, VK4FW. Qsling is available three ways?.. direct , bureau or on-line with Paypal ?postage? support.
Go to www.vk4fw.com/oqrs.php to request your QSL for that method.

Whilst each individual operator is responsible for their own personal expenses including air flights, accommodations, food etc?we are seeking support to help offset other costs, such as the large excess baggage charge, hotel room just for the radio equipment, QSL printing, QSL postage for Bureau cards, phone calls associated with planning, purchase of consumables and, most important of all? the donation of some equipment to native Nauruan hams!

A special Paypal account has been set up for support: dxpedition@... ? just add your callsign/name and any comments in the ?comment/message? box. All donors will be listed on the web site, which is ?under construction?, so the link doesn?t work yet? http://C21.pacific-dxers.com/supporters.html [unless anonymity preferred]

A special memento will be sent to donors who support us with $50 or more. These donors will be listed on the QSL card. Organizations that provide support will have their logo and link placed on the web page as well as their logo on the QSL Card [unless anonymity preferred].

Prior to operating from Nauru two of the team will operate from Fiji. VK4AN as 3D2A and VK4FW as 3D2T, including an entry in the CQ WW DX Contest.

Released for immediate publication. Editor: You may edit the content to fit your style of presentation, but, none of the content is to be deleted.

3D2_r - The 17-24 June 3D2CJ activity from Rotuma [425DXN 1047] has been postponed until September. Apparently HL5FUA and 6K2GCW will be joining forces with other operators. Check www.dxpedition.co.kr for updates
4J - Mac, JA3USA will be active as 4JA3USA from Azerbaijan on 6-10 June. QSL via home call. [TNX 4J5T]
9A - Csaba, DH7KU will be active as 9A/DH7KU from Pag Island (EU-170) on 12-22 June. He will operate holiday style on 40 and 20 metres CW. QSL via home call. [TNX DH7KU]
DL - Pavel, RU5A and Jurek, SP5VYI will be active as DL/RU5A and DL/SP5VYI from Usedom Island (EU-129) on 10 June. QSL via home calls. [TNX RU5A]
GW - The Strumblehead DX & Contest Group will once again be active from Ramsey Island (EU-124) using the club call MC0SHL on 9-13 June. They will operate SSB and RTTY with three stations on 80-6 metres, and will take part in the WFF Green Day on 11-12 June. QSL via M0URX. Further information can be found at www.mc0shl.com [TNX G1VDP]
HL - The 4-6 June D9K expedition to Ch'uja Island (AS-084) [425DXN 1047] has been cancelled. Instead DS1OYR, DS4NYE, HL1OYF, HL1VAU and possibily others will be active as either homecalls/3 and D9K from Anmyon Island (AS-080). QSL D9K via DS4NYE, others via home call. [TNX The Daily DX]
HZ - The 3-5 June 7Z1IR & 7Z1TT operation from Marzok Island (AS-191) [425DXN 1047] has been postponed until possibly sometime next week.
I - ARI Milano will participate in the Museum Ships Weekend (4-5 June) as II2IGTO (submarine "Toti") and II2EBE (training ship "Ebe") from the National Museum of Science and Technology. Look for activity on 80-10 metres (plus possibly 6m) CW and SSB. QSL via IQ2MI, bureau preferred.
I - Gianni, I1UWF will be active as I1UWF/p from the lighthouse at Capo dell'Arma (WAIL LI-001, ARLHS ITA-013) on 11 June in the morning. He will operate on 40 and 20 metres SSB and RTTY (14270, 14080, 7080 kHz). [TNX I1UWF]
JA - 8J1MORSE is a special memorial station that commemorates the 220th anniversary of the birth of Samuel Morse and the 110th anniversary

of the first successful Morse Code communication across the
Atlantic Ocean by Guglielmo Marconi. 8J1MORSE will be operated
until 30 November by members of A1 Club Japan from the various
Japanese call areas (8J1MORSE/2, 8J1MORSE/3, etc). All of the QSOs
will be confimed automatically via the bureau. Direct cards should
be sent to 8J1MORSE, 1-14-1-11-B Yoshino, Higashi-ku, Nagoya,
461-0027, Japan. Further information, including details on the
relevant awards (free of charge) at http://8j1morse.a1tokai.net/
JW - Roar, LA1EOA will operate SSB as JW1EOA from Longyearbyen
(EU-026), Svalbard on 10-15 June. QSL via home call. [TNX NG3K]
LU - Look for LU1EEZ/D, LU2JFC/D, LU7CAW/D and LU9ACJ/D to be active
from Martin Garcia Island (SA-055) and lighthouse on 4-5 June.
They will be QRV on 80, 40, 10 and 2 metres. [TNX F5NQL]
PA - Look for Alex, DL1KD to be active as PA/DL1KD from Texel Island
(EU-038) on 6-20 June. QSL via home call, direct or bureau. [TNX
rsgbiota.org]
SP - Look for SO5UM/1, SP5BUJ/1, SP5VYI/1, SP5X/1, SQ5AWR/1 and SQ5Q/1
to be active from Wolin Island (EU-132) on 8-13 June. They will
operate SSB, CW and some digital modes with two or three stations.
On 11-12 June they will be signing SN0WFF for the WFF Green Day.
QSL SO5UM/1 via RU5A, QSL SN0WFF via SP5X, others via home call.
[TNX RU5A]
TA - Celebrating the 100th anniversary of the Turkish Air Force, the TC
Special Wireless Activity Team will operate as TC100HKK from the
Air Force Command (Hava Kuvvetleri Komutanligi) until 6 June. The
first ten direct QSL cards will get the special First Day Cover
stamp. QSL via TA1HZ. [TNX TA1HZ]
UR - The Bila Tserkva Radio Club will be active as EM0UBC from the
Oleksandriia Dendrological Park on 9-12 June. QSL via UR4UXD. A
free of charge certificate can be requested by e-mail
(bcrc[@]ukr.net). [TNX UR7UD]
VP2M - John, KB4CRT will be active on 40-2 metres as VP2MRT from
Montserrat (NA-103) on 8-18 June, ARRL VHF QSO Party included. QSL
direct to KB4CRT, or via LoTW. [TNX NG3K]
YN - Look for W5MJ (YN2MJ) and W5PR (YN2PR) to be active from Nicaragua
on 9-13 June. YN2MJ will be QRV mostly on 160 and 80 metres with
an emphasis on Europe, while YN2PR will be be QRV on 6 metres,
ARRL VHF QSO Party included. [TNX The Daily DX]

ET3AA ---> "On 30 May 2011 the reopening of the club station of EARS, our
Ethiopian member society took place. Professor Doctor Heiko Schroeder, Head
of the Technical Faculty of the University of Addis Ababa and Hans Blondeel
Timmerman, President of IARU Region 1 cut the ribbon. Donations from STARS
and others helped to enable the revival of ET3AA. Led by Sid ET3SID the

club installed their their shack and built antennas on top of the roof of the Technical Faculty of the University of Addis Ababa". The full story is available on the IARU Region 1 website (www.iaru-r1.org).

MUSEUM SHIPS WEEKEND ---> Sponsored by the Battleship New Jersey Amateur Radio Station (NJ2BB), this year's Museum Ships Weekend will be held from 00.00 UTC on 4 June until 23.59 UTC on the 5th. Information on the event, including the relevant certificate and the listing of participating ships, can be found at www.nj2bb.org

TOP LISTS ---> The latest Topband, Topmode and Toplist listings are now available at www.425dxn.org/awards/toplist/index.html. QSOs confirmed through LoTW or included in on-line logs are eligible for listing. Send send your scores, as well as any request for further information, to Erminio Pandocchi, I2EOW (i2eow[@]fastwebnet.it)

SEANET CONTEST & CONVENTION ---> This year's SEANET Contest will take place on 4-5 June (24 hours). The results will be announced at the 39th SEANET Convention, to be held in Bandar Seri Begawan, Brunei Darussalam on 17-20 November. Full information on the Contest and the convention can be found at www.seanet2011.com

SOUTH SUDAN DXCC STATUS ---> By Martti Laine, OH2BH: "With great anticipation, DXers the world over are looking forward to the 9th of July this year as the predicted day of South Sudan's declaration of independence. Indeed, that declaration is set to happen, but it will not yet guarantee the birth of a new DXCC entity, at least at that time. The DXCC rules are written in such a way that only a new country's membership in the United Nations and/or its ITU country prefix will result in the anticipated DXCC counter. The U.S. State Department Geographer's list of Dependencies and Areas of Special Sovereignty obviously does not apply in this case.
The opinion from the ARRL is that no exceptions will be made in this case. They state that the event date - i.e. declaration of independence - will not cause potential QSOs to be counted retroactively. Rather, Newington categorically assumes that U.N. membership, which will most likely come first, followed by the release of an ITU prefix by the U.N. telecommunications agency, will lead to country status.
The prospect of a new country has taken an unexpected turn just recently. The country's borderline has never been settled between North and South Sudan in the area (Abyei) where most of the oil reserves are located. It was agreed under the 2005 Peace Agreement that the border issue will be resolved by the people in that province. A referendum to settle the matter has not happened. Instead, the North (ST2) has entered the disputed province with force. Additionally, the North has stated that they will not support an independent State in the south unless the contested region is theirs. The matter now remains totally in limbo (http://www.bbc.co.uk/news/world-13560829).
While the amateur radio project announced earlier this year by 5Z4DZ, ST2AR, W3UR and OH2BH is well underway, it is not yet reasonable to swing your antennas toward South Sudan, as we speak. The project has two

well-known DXers now permanently based in South Sudan: SM7PKK and YI1DZ/ST2DZ. The knowledge and the professional presence are in place to proceed with an immediate activation as soon as the above country status matters are resolved. More news to follow". [TNX OH2BN]

WORLD CASTLES WEEKEND ---> Organized by the World Castles Activity Group, it will be held on 25-26 June. Several stations are expected to operate from fortresses and castles in Belarus, Belgium, Croatia, Czech Republic, France, Germany, Hungary, Ireland, Italy, Poland, Portugal, Romania, Russia, Slovakia, Spain, Switzerland, The Netherlands, Ukraine and the United Kingdom. Information on the event can be found at www.wcagroup.org [TNX RN1CW]

A few days ago I developed chest pains and on Friday I underwent an operation to install three stents in arteries around my heart.

As a result, I am not able to travel to FS, Saint Martin, and PJ7 as planned on June 6th.

I will advise if I am able to re-schedule for later in the month.

If any of you are now looking for an easy to use Logging program, try the shareware version of the New WIN EQF* v 2.00. It is very easy to use and does all that the more expensive programs do. Download you a shareware copy of WIN EQF* at this location http://win-eqf.com/ and read the features and then goto the download page and download the latest version. You will like the program.

FOR IMMEDIATE RELEASE

MARKET REEF, OJ0B

This coming Saturday, Martti, OH2BH; Pertti, OH2PM and Pekka, OH2TA will land on the rocks for three days to finalize the semi-permanent antenna installation and to test Market Reef's new power plant. They will have two stations active as OJ0B primarily for 30M, 17M and 20M CW/SSB. It is also expected that one of the lighthouse keepers, Harri, OH6VM/OH0VM will follow the group for another week with the beam. OJ0B QSL via OH2BH.

A group of Finnish DXers have agreed with the Finnish Lighthouse Society (FLS), the folks currently operating and renovating the Market Reef lighthouse, that a permanent SteppIR beam can remain on the roof of the building and can be used by visiting DX groups at the cost of modest compensation to the FLS. New services also include a large generator/battery plant able to supply 3x 230 VAC 10A each (6KW) on a 24/7 basis for visiting groups.

In spite of inclement weather with icy storms, the SteppIR beam survived another winter season (2010/2011), and you can see its location by looking up the daily diary of the lighthouse for April 25, 2011 at <www.majakkaseura.fi>

You may wish to note their recognition of NCDXF and OHDXF for supporting their valuable activities in saving and restoring another DXCC counter.

FLS encourage radio visits to Market Reef from Aland Islands. If you plan to make a trip of your life as a small group and get into instant pileups, please contact the Finnish Lighthouse Society; <info@...> or these visiting DXers for more details.

The following operation is approved for DXCC credit:

TJ9PF - Cameroon
2011 Operation

Special Note:

"We have been notified that the TJ9PF QSL labels have been printed
with the year
2001 instead of 2011. This is a known software bug that has been fixed.
Regardless, we do not believe the integrity of the TJ9PF logs or
operation are
affected by this printing error. Also, the TJ9PF logs have now been
uploaded to
LoTW, providing a primary source of QSO confirmations. We will add
instructions
to the DXCC system internally to note this operation's correct year.
No one
wants to promote the wasting of resources to reprint labels or cards,
or to

Received at F5UFX's on June 7th, 2011:

Bonjour à tous

A la suite d'un bug informatique survenu dans l'édition des étiquettes de confirmation de QSO pour TJ9PF,
Gerard, F2VX, Frank, F4AJQ et Didier F5OGL ont pris contact avec Bill Moore, NC1, du bureau DXCC à l'ARRL.

Maintenant le log a été chargé sur LotW , Seb/F5UFX a reçu l'accusé réception et les cartes seront acceptées comme suit pour le programme du DXCC.

Opération 2011
Notice particulière:
“ Nous avons été avisés que les étiquettes sur les cartes QSL avaient été imprimées pour l'année 2001 en lieu et place de 2011. C'est un bug du logiciel d'édition, qui a été appréhendé et corrigé depuis.
Nous ne croyons pas que cette erreur d'impression doivent malgré tout entacher l'intégrité des logs et/ou cette opération TJ9PF.
Le log, chargé sur le LotW, nous a déjà produit une première source de confirmation de QSO's .
Nous transmettons une instruction interne à l'intention des membres de l'ARRL, chargés des contrôles du DXCC , afin qu'ils corrigent systématiquement l'année et lisent 2011 , pour TJ9PF.
Personne ne devra demander de gaspiller la ressource en exigeant réédition des étiquettes ou envoi de nouvelles cartes, pour annuler cette erreur qui, tout compte fait a si peu d'impact sur le programme.
Le DXCC accepte les QSL de TJ9PF avec la date 2001.

Press Release DXpedition to Rotuma as 3D2R

After many months of careful planning, we are pleased to announce our DXpedition to Rotuma-3D2R with a large multi-national DXpedition Team.

Rotuma is located in the South Pacific Ocean and is #32 on Club Log?s most wanted DXCC list.

Hrane Milosevic-YT1AD has recently visited Fiji and has obtained the license of 3D2R and a landing permit. We have received the Rotuma Island Council?s official approval as well as from the Prime Minister?s Office.

The team of 19 operators will meet in Fiji on September 24th and sail to Rotuma with an arrival slated for September 27th. We will be active on all bands and modes from September 27th to October 7th, 2011.

We will focus on the low bands at this time of the year and will make every effort to satisfy the needs of EU operators.

At this time, we are seeking Foundation, Club and Individual Sponsors to help us defray the costs of carrying out this DXpedition.

Explorer Scouts on the Scottish Scout ?New Horizons? Expedition will carry out practical development work at the Malawi National Scout Campsite near Zomba, where Malcolm GM3TAL will operate 7Q7MH during July 2011.

Although not a ?dxpedition? as such, look for activity on the upper HF bands (and possibly 50MHz), with SSB and CW.

This will be a month long ?field day? under canvas ? no towers or comfy resort style shacks and no Internet!

More details can be found here soon.

Sarah, NQ6K has outlined plans for a Dxpedition to Devon island NA-009
(with side trips to possibly Beechy island and Cornwallis) whilst
working there for three weeks beginning late June/early July.

By Nigel G3TXF
Nigel, G3TXF plans to operate as ZD7XF from St Helena between 22 and
30 June. The operation will be from the QTH of Barrie ZD7MY, which is
at 1200ft asl and has an excellent take-off to the north

The journey to ZD7 is via Capetown (ZS1) and there is a four day sea
voyage each way on the RMS St Helena.

ZD7XF plans to operate mainly on the HF bands on CW, but will also be
taking antennas for 80m/160m as well as for 6m.

There will not be any Internet access in the shack (nor is there any
mobile phone service on the island). However logs will be up-loaded to
both LoTW and ClubLog whenever practical.

The following is an update from Bert 7Z1IR:
Apologies for the confusion that happened. The validation procedure is
ongoing and official approval and new date will be given very soon to
all of you. Please stay tuned! To make it clear, we are not looking
for a two man show only, but we like to be a bigger team. Everybody is
more than welcome to join the team! We want to satisfy as many radio
friends as possible with a new one. You are welcome to join us running
our hobby together. Don?t hesitate to contact me!

I.C.P.O. Bulletin (10-17 June 2011)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

10/06/2011: The Clube Radioamadores do Entroncamento, with special call CS2CS, will be active on 10, 11 and possibly 12 June 2011 from Castelo da Sertã (WCA CT-0168, DCFP C-168, DMHP CB-019, DMP 0509, DDFP SRT-12), Province of Castelo Branco. Operation will be on HF - SSB/CW and Digital modes. QSL via CS1CRE, direct only (QRZ.com) or e-QSL. [CS1CRE]

10/06/2011: Pavel, RU5A and Jurek, SP5VYI will be active as DL/RU5A and DL/SP5VYI from Usedom Island (IOTA EU-129, DID O-13, WLOTA 1640) on 10th of June 2011. QSL via home calls. [425 DX News]

10/06/2011: Roar, LA1EOA, will be active as JW1EOA from Longyearbyen, Spitsbergen Island (IOTA EU-026, WLOTA 0125, WW Loc. JQ78TF), Svalbard, on 10-15th June 2011. Plans are to be QRV on the HF bands, SSB only. QSL via home call, direct or bureau. [NG3K]

10/06/2011: Doug, KF4VTT, will be visiting Bermuda (IOTA NA-005) from 10-17th June 2011 and staying at the QTH of VP9GE (WW Loc. FM72PI), using the callsign KF4VTT/VP9. Although this is not a true DXpedition, Doug will utilize 160M-6M on SSB, CW, RTTY and possibly PSK31 when time permits. His XYL and son will be accompanying him, so Doug will need to be fair about the amount of time spent on the air. As a personal goal, he hopes to finish DXCC and VUCC from VP9. Doug also hopes to be active on 6 metres during the ARRL June VHF QSO Party (11-13 June). QSL OK via KF4VTT by bureau, direct or LoTW. Website: home.mebtel.net/~kf4vtt/vp9/VP9.htm [NG3K]

10/06/2011: A group of German Scouts will be active again as OZ1RDP (www.oz1rdp.de/) from Romo Island (IOTA EU-125, DIA NS-001, Grid Loc. JO45) on 10-14th June 2011. They plan to operate SSB and BPSK31 mainly on 80, 40, 30 and 20 metres, and on 2m JT65. QSL via DL9BCP, direct or bureau. [425 DX News]

10/06/2011: Mike, KF6RCP, is currently on vacation in Cyprus [Sovereign Base] (IOTA AS-004, MIA MCI-002, WLOTA 0892) for the next four months. He will be operating from mostly from the beach using the callsign ZC4MIS. His station will be an FT-817ND, antenna tuner LDG Z817 and buddistick. Modes will be SSB and Digital modes, both PSK31 and JT65. Primary band Mike will use is 20 metres. He will also operate KF6RCP station via internet remote from here in Cyprus. Hope to catch you on the airwaves both from here in Cyprus and my remote station in California. Please contact me if you would like to schedule a QSO at [kf6rcp at gmail.com]. QSL via home call. Logs will be uploaded to LoTW and eQSL. [dx-world.net]

11/06/2011: Patrick, F8DYD/p, will activate the Mill Bellien (DMF 86-042), located in the commune of Mazeuil (CP 86110), Departement Vienne/86 and Province Poitou-Charentes (DPF 19) on 11th of June 2011. QRV on 80 and 40 metres, starting 05h30 UTC. QSL via home call, bureau or direct. [F8DYD]

11/06/2011: Gianni, I1UWF will be active as I1UWF/p from the lighthouse at Capo dell'Arma (WAIL LI-001, ARLHS ITA-013, WW Loc. JN33VT, WAIS CL07) on 11th of June 2011, in the morning. He will operate on 40 and 20 metre SSB and RTTY (14270, 14080, 7080 kHz). QSL via home call. [425 DX News]

11/06/2011: Dave K9DRO, Justin K9MU, John W9JN, Art N9BCA, Brian WB9E, and his son Jacob KC9TVG will activate EN38 from 11th June through 15th June 2011. The operation will commence with the 2011 ARRL June VHF QSO Party and continue a few days after. Exact duration will depend on weather and band conditions. They will employ a Field Day type operation using generators and operating out of a small cabin and sometimes vehicles. A homebrew 6-element yagi (20 ft boom) on 6m and a 2M5WL 17-element yagi w/ elevation on 2m will be utilized on 20-foot temporary masts. We will be running an amplifier on 6m which should provide around 700w of power. We will have a station on 6m and 2m continuously. Each station will have bandpass filters, laptop computers w/ WSJT, voice keyers, and logging software. The team will initially setup base camp in EN38cf for the duration of the contest. This will be northeast of Big Falls, MN in the Pine Island State Forest in Marty's, N0NKC, cabin. They will either setup a satellite station (K9MU/0) in EN48 during the day for 6m Es openings or completely move base camp to EN48 after they feel EN38 has been given its deserved attention. This will also depend on available radio locations. The EN27/EN37/EN28/EN38 grid corner is not far from basecamp so also look for K9MU/0 in those grids during the day. Tentative frequencies on 6m are 50.147 SSB/CW and 50.267 FSK441. On 2m, 144.207 SSB/CW and 144.147 FSK441. We will be sending on the 1st period (0-30 seconds) during FSK441 runs. Please spot them when heard. QSL direct only to W9JN and/or LoTW. [N8OFS]

11/06/2011: Vincent, F4BKV, plans to be active from Shetland (IOTA EU-012, IOSA SH01, SCOTIA SI11, WLOTA 0867), Orkney (IOTA EU-009, IOSA OR01, SCOTIA OI14, WLOTA 1652) and Great Cumbrae (IOTA EU-123, IOSA CL03, SCOTIA CS17, WLOTA 2087) on 11-13th June 2011, prior to joining the MS0INT team on their Outer Hebrides IOTA tour. He will use the callsign MM/F4BKV. QSL via RX3RC. Website: ms0int.com/ [MM0NDX]

11/06/2011: Martti, OH2BH; Pertti, OH2PM and Pekka, OH2TA will land on Market Reef (IOTA EU-053, ARLHS MAR-001, TWLHD WLH OJ0-001, WLOTA 0542, Admiralty C4472, WFF OHFF-038) on Saturday, 11th June 2011, for three days to finalize the semi-permanent antenna installation and to test Market Reef's new power plant. They will have two stations active as OJ0B primarily for 30m, 17m and 20m CW/SSB. It is also expected that one of the lighthouse keepers, Harri, OH6VM/OH0VM will follow the group for another week with the beam. OJ0B QSL via OH2BH. [OH2BN]

11/06/2011: The PG6N - team will be active from the Noordwijk Lighthouse (ARLHS NET-019), during the Coastel Week (Week van de Zee). The event will start on Saterday, 11th of June and will end on Kidsday Saterday, 18th of June 2011. Because the Es-period, the will be active on 6 and 2 metres. QRV on all HF bands

too. QSL please only via bureau! Website: pg6n.jouwweb.nl/english [PA7DA]

11/06/2011: Members of the Federacion de Radioaficionados de Cuba's in Las Tunas, eastern Cuba (IOTA NA-015, WLOTA 0032), will be active on 6 metres from Grid Square FL10MW, during the ARRL June VHF QSO Party (11-13 June) using the contest callsign T48K as a limited multi-operator entry. This will be the very first time in the history that a ham radio station transmits from this particular square on this band. Operators will be Carlos CO8CML, Douglas CO8DM, Ernesto CM8GJ and Raul CO8ZZ. They will use an Yaesu FT 857 running into a five element yagi from F9FT. QSL via DK1WI. [OPDX Bulletin]

18/06/2011: Andy, N8OFS [SMIRK #6737] will be active during the SMIRK 50MHz QSO Party as N8OFS/p (caboose portable) from the AC&J Railroad, located in Ashtabula County, Ohio (WW Loc. EN91OR). He will be QRV on 52.525 MHz FM.

Kenwood TS-60 at 50W to 29.4ft of LMR-400 to the "DOMINATOR" antenna at 29.5ft. QSL direct only to N8OFS (QRZ.com) or via e-QSL. [N8OFS]

19/06/2011: Special event station GB0BON will be activated by the Welland Valley Amateur Radio Society on 19th June 2011 for the 366th anniversary of the Battle of Naseby, the decisive battle of the English civil war. The battle took place on the 14th June 1645 in the small hamlet of Naseby just south of the town of Market Harborough in Leicestershire. The station will be located on a high point that overlooks the battlefield. This is the same location that Prince Rupert chose as his base to direct the battle from as it gave him a clear viev of the surrounding area. They will operate on all bands from 3.5Mhz to 70cm and try to be on air for as long as the petrol in the generator lasts. QSL's are 100% via eQSL and we will reply to any cards sent direct via G4XEX or via the RSGB bureau. For direct please send IRC's or 2 US$ and a sae. (UK SAE). [G4XEX]

19/06/2011: Todd, N4LA/p, plans to operate 40-10 metres from a beach house on Bogue Banks [aka Emerald Isle] (IOTA NA-112, USi NC010S), Carteret county, North Carolina, from 19th to 25th June 2011. This will be a part time effort, with no set schedule. Todd will operate only when he has some free time. QRV on 40, 20, 17, 15, 12 and 10 metre SSB, using Yaesu FT-857D @ 100 watts, Par End Fedz and Shock Cord Vertical. There will be the possibility of actual oceanside beach ops if time permits, using a A123 battery pack. QSL direct to home call or LoTW Only. Website: www.n4la.com/ [rsgbiota.org]

22/06/2011: Nigel, G3TXF, plans to operate as ZD7XF from St. Helena Island (IOTA AF-022, WLOTA 1488) between 22 and 30 June 2011. The operation will be from the QTH of Barrie ZD7MY, which is at 1200ft asl and has an excellent take-off to the north, overlooking Jamestown. Plans are to be QRV mainly on the HF bands on CW, but will also be taking antennas for 80m/160m as well as for 6m. There will not be any Internet access in the shack (nor is there any mobile phone service on the island). However, logs will be up-loaded to both LoTW and ClubLog whenever practical. QSL via home call. Further info at: www.g3txf.com/dxtrip/ZD7XF/ZD7.html [dx-world.net]

25/06/2011: Dave, VA3RJ, will activate Fort York (WCA reference VE-228), city of Toronto, Ontario, during the World Castles Weekend (WCW-2011) on 25th and 26th June 2011. QRV on 80-10 metres, mainly CW, running 100 Watts to 'hamstick' vertical antennas. QSL via VA3RJ, direct (SASE/SAE + 2gs) or by the bureau.

30/06/2011: Look for special event station 8J4KHAM to be active between 30th June and 23rd October 2011 to celebrate: 1) Hamfesta Kasaoka, 2) The 20th Anniversary of Kasaoka Airstation and 3) The opening of a Michinoeki (or Roadside Station) "Kasaoka Bayfarm". Kasaoka-city is located in Okayama Prefecture, Chugoku region, island of Honshu (AS-007, WLOTA LH-2376), Japan. QSL via bureau. [JJ1WTL/AC6IM]

01/07/2011: Explorer Scouts on the Scottish Scout "New Horizons" Expedition will carry out practical development work at the Makwawa National Scout Camp (WW Loc. KH74QR), Makwawa, Malawi, where Malcolm, GM3TAL, will operate 7Q7MH during July 2011. Although not a dxpedition as such, look for activity on the upper HF bands (and possibly 50MHz), with SSB and CW. This will be a month long "field day" under canvas - no towers or comfy resort style shacks and no Internet! QSL

via GM3TAL. Further details will be available soon at: www.7q7mh.org/ [dx-world.net]

01/07/2011: Between 1st July and 31st October 2011, special event station 8J2YMK (YMK: Yaramaika, or "Let's give it a try," implying a pioneering spirit) will be active to commemorate the 100th Anniversary of Hamamatsu-city (JCC 1802), by JARL. QSL INFORMATION -

The following operations are approved for DXCC credit:

TJ9PF - Cameroon - 2011 Operation

VK0KEV - Macquarie Island - Current Operation

Special Note:
"We have been notified that the TJ9PF QSL labels have been printed with the year 2001 instead of 2011. This is a known software bug that has been fixed. Regardless, we do not believe the integrity of the TJ9PF logs or operation are affected by this printing error. Also, the TJ9PF logs have now been uploaded to LoTW, providing a primary source of QSO confirmations. We will add instructions to the DXCC system internally to note this operation’s correct year. No one wants to promote the wasting of resources to reprint labels or cards, or to require resending of cards to fix an error which has little effect on the program. DXCC will accept TJ9PF QSLs showing the date as 2001.

FOR IMMEDIATE RELEASE

MARKET REEF, OJ0B

This coming Saturday, Martti, OH2BH; Pertti, OH2PM and Pekka, OH2TA will land on the rocks for three days to finalize the semi-permanent antenna installation and to test Market Reef's new power plant. They will have two stations active as OJ0B primarily for 30M, 17M and 20M CW/SSB. It is also expected that one of the lighthouse keepers, Harri, OH6VM/OH0VM will follow the group for another week with the beam. OJ0B QSL via OH2BH.
A group of Finnish DXers have agreed with the Finnish Lighthouse Society (FLS), the folks currently operating and renovating the Market Reef lighthouse, that a permanent SteppIR beam can remain on the roof of the building and can be used by visiting DX groups at the cost of modest compensation to the FLS. New services also include a large generator/battery plant able to supply 3x 230 VAC 10A each (6KW) on a 24/7 basis for visiting groups.
In spite of inclement weather with icy storms, the SteppIR beam survived another winter season (2010/2011), and you can see its location by looking up the daily diary of the lighthouse for April 25, 2011 at <www.majakkaseura.fi>
You may wish to note their recognition of NCDXF and OHDXF for supporting their valuable activities in saving and restoring another DXCC counter.
FLS encourage radio visits to Market Reef from Aland Islands. If you plan to make a trip of your life as a small group and get into instant pileups, please contact the Finnish Lighthouse Society; <info@...> or these visiting DXers for more details.

DXCC will accept TJ9PF QSLs showing the date as 2001". [TNX NC1L]

DXCC NEWS ---> VK0KEV (Macquarie Island, 2011 operation) has been approved for DXCC credit. "If you've had this operation rejected in a recent application please send a note to dxcc[@]arrl.org. You can verify the update to your record either by checking your LoTW account, or, you'll see a change in the live daily listing on the DXCC web site". [TNX NC1L]

J48O ---> The website for the 17-25 June operation from Othonoi Island (EU-052) [425DXN 1047] can be found at www.j48o.com

MARKET REEF ---> "A group of Finnish DXers have agreed with the Finnish Lighthouse Society (FLS), the folks currently operating and renovating the Market Reef lighthouse, that a permanent SteppIR beam can remain on the roof of the building and can be used by visiting DX groups at the cost of modest compensation to the FLS. FLS encourage radio visits to Market Reef from Aland Islands. If you plan to make a trip of your life as a small group and get into instant pileups, please contact the Finnish Lighthouse Society (info[@]majakkaseura.fi) for more details". [TNX OH2BN]

QSL ZL8X ---> The last 1,000 envelopes have been mailed, and all of the direct requests (through OQRS or by mail) have been processed. So "if you don't have your QSL card in your mail in 10 to 15 days", DL1MGB reported on 7 June, "please contact us via our contact form on our website (www.kermadec.de). We already started with processing all bureau requests which were received through our Online QSL Request System. They will be sent via bureau around end of June". A photo book containing 140 pictures "from the beginning of the adventure till the last sunset" can be purchased on the website.

SOUTH SUDAN ---> The Intrepid-DX Group and the DX Friends/Tifariti Gang (www.dxfriends.com/SouthernSudan2011)continue to move forward with their plans to activate Southern Sudan. "We have held several successful meetings with representatives of the Government of Southern Sudan", they say in their Press Release #3 dated 6 June. "We have been issued an amateur radio license for the purpose of this DXpedition. The Government of South Sudan is very supportive of our plans to visit Juba and to help them celebrate the birth of their new country.
The Government of South Sudan will declare their independence from Sudan on

July 9th, 2011. They have applied to the UN for admission as a member state. The UN General Assembly and Security Council will vote on the matter in the weeks following the declaration of independence.
While there have been attacks and fighting in the disputed border region of Abyei, these issues are not expected to derail the emergence of this new country.
We plan to be in the new capital of Juba and to be ready to start our DXpedition upon admission by the UN. We will have 18 operators operating 24X7 on seven active stations.
At this time, we are seeking Foundation, Club and Individual Sponsors to help us defray the costs of carrying out this DXpedition". [TNX N6PSE]

+ SILENT KEYS + Alexey A. Voronkin (UR5EDU) lost his life on 8 June, when he fell from his tower while trying to fix the antenna. YP6EPC Again On The Air

YP6EPC is active on PSK from 23rd May to 31st December, 2011. This year the
station is operated by Alexandru family from Mediaş. Operators are - Adrian
Alexandru, YO6CVA (OM) and Rodica Alexandru, YO6OXP (XYL).

Mediaş is the second largest city in Sibiu County (EU Area EU.RO.SB), Transylvania, Romania. Mediaş is located in the middle basin of Târnava Mare
River, at 39 km from Sighişoara and 41 km from Blaj. The health resort Bazna,
officially recognized for the first time in 1302, is 18 km from Mediaş. Mediaş
is known best for its role in production of methane gas. The area where Mediaş
is located is the site of the largest natural gas field in Romania. The headquarters of Romgaz - the national gas exploitation enterprise - and of
Transgaz - the natural gas carrier - are in Mediaş. The distance between Mediaş
and the county's residence Sibiu is 55 km.

Mediaş has one of the best preserved historical centers in Romania and also some
well preserved medieval fortifications. One of the most impressive symbols of
the town is the Tower of the Buglers, which is about 70 meters tall. Its construction started in the 13th century. The city lies in the middle of the
area which was inhabited by Transylvanian Saxons and in an area of 20 km around
it there are dozens of fortified churches, two of them UNESCO World heritage
sites.

The most important location references are - Grid Locator: KN26ED; EU Area:
EU.RO.SB (Sibiu); DXDA-3585. QSL-cards should be sent via YO5OO (ex YO6AJI).

3XY1D, Guinea
Georg DK7LX, Wolf DL4WK, Sigi DL7DF, Frank DL7UFR, Jan SP3CYY and
Leszek SP3DOI will be active as 3XY1D from Guinea between October 18th
to November 1, 2011.

ANNOUNCING re-commencement of THE PACIFIC DX NET

As from 0600-UTC every Monday-Wednesday-Friday [UTC day] on 14.265MHz
[plus-minus QRM].

Primary Net Control is VK4AN, with alternates assisting.

It is a net for members, dxpeditions and rare DX. Check-in are only
accepted from these categories.

If you wish to become a member of the PACIFIC DX NET, send your CALL
and NAME to vk4an@... and a number will be assigned
commencing from 501.

Pacific DXer members are automatically members of the net using their
membership number . If you are interested in DX throughout the
Pacific Region, then consider joining the Pacific DXers
http://pacific-dxers.com

Any Dxpedition or rare DX that checks in will be asked to announce
what frequency they will QSY to after working members for the benefit
of others that want to work them.

*Folks,
Yesterday QRZ.com made changes to the lookup services restricting
call sign look ups via their anonymous look up server. This change
temporarily broke both the GoWin and WIN EQF look up service to QRZ.
Both programs have supported QRZ's XML service and when I raised this
issue with Fred at QRZ, he quickly found the problem and it is now
resolved. Both GoWin and WIN EQF* work as they are supposed to using
the QRZ subscriber service requiring the special Login/Password issued
by QRZ XML subscription service.
All is well with GoWin, WIN EQF* and QRZ.COM.

I never would have seen that John, thanks. Maybe Internet should be
the FIRST item in the drop-down list instead of the last. Even when I
clicked on the down-arrow, I still only saw disk drives (without
scrolling). I assumed disk drives were the only choice. I wonder who
else doesn't know about this?

I just had a user ask me how to set up GoWin to use the XML
subscription service from QRZ.COM.
This made me think, "how many other users have this question".

Here is how you do it
Open GoWin and on the tool bar at the top of the page click on
OPTIONS/CALL SIGN DATABASE TYPE/QRZ ! then at the top of the page
click on
OPTIONS/INTERNET (you may have to scroll down, its the last choice in
the list)
now GoWin will ask you for the XML login / password that you have for
the subscription service.
You're done.

An International Team consisting of Leader Oleg R3FA, Co-leader Alex UT5UY, Michel FO5QB, Sergey UX0HX, Max UZ1HZ, Alex US0KW, Andy UU4JMG, Alex UX0LL, Andy RK7A, Leo UA7A and Andy RA6LBS will be active on all bands, all modes as:

TX7M ? October 19 ?til November 1, 2011 from Hatiheu, Nuku Hiva, Marquesas Isl.
TX5A ? October 28 ?til October 30, 2011 from Hatiheu, Nuku Hiva, Marquesas Isl. (for CQ WW SSB)
TX3T ? October 16 ?til October 19 and November 1 till November 4, 2011 from Papeete, Tahiti.

Marquesas Islands FO/M is ranked #26 in EU and #36 in the World?s Most Wanted List (by www.clublog.org statistics). The team will make a special attempt for LOW Band activity. Running of this DXpedition to remote Pacific Islands is always very expensive. The team invite organisations and individuals to make a donation towards the cost of this operation.

For more information visit the official website.

JX5O
The Jan Mayen trip will begin for some of us as soon as in 1 week! The DXpedition is just around the corner...

Actually we may say our trip has begun already in a way. A half of our generators' fuel is already on route to JX now thank to the Borea Adventures company which took it on board on our yacht in prior our DXpedition.

Today we present a few pics taken during antenna tests at one of our prime supporters - Jurek SP3GEM - the antenna master and the same person who supported our previous DX project - XR?Y. He sponsored the 30/40m vertical to JX5O. He also built the 6m beacon antenna that will be brought/donated to Jan Mayen to bring JX7SIX to life again. The beacon antenna is a heavy duty construction and has no soldered parts - an essential feature in harsh, arctic weather conditions!
****
YJ8A
Andy, P29CS will be active as YJ8A from Efate Island, OC-035 until 17th July 2011.

QSL via M0URX.
****
5R8IC

Eric, F6ICX will once again be active as 5R8IC between 15 Nov to 17 Dec, 2011 from Saint Marie island, AF-090 .

Holiday style operation, with no online log during activity. CW RTTY and PSK63 using 100w and various GP or Inv-L. Hexbeam for 20-10m. QSL via H/C.

WORLD CASTLES WEEKEND (WCW 2011)
Work on the air from historical places, monuments and the architectural
constructions relating to fortification to rise of interest to historical and
architectural heritage as well as visiting extant historical monuments.
During the World Castles Weekend there is a good possibility to fulfil

conditions of various award programs and increase your collection by beautiful QSL-cards.
Radio hams of all countries and territories are invited.
From 00:00 UTC of Saturday 25th June till 23:59 UTC of Sunday 26th June. All HF and VHF amateur bands.
Full info at: www.wcagroup.org/ENG/wcw.html

IOTA 50TH ANNIVERSARY MARATHON -
The year 2014 marks the 50th anniversary of the launch of the Islands On The Air (IOTA) Programme by British SWL Geoff Watts, BRS-3129. As a build-up to our celebrations on this occasion, the RSGB IOTA Manager and Committee announce an exciting activity period in which all licensed amateurs world-wide are invited to participate.
For a two-year period during 2012 and 2013, IOTA chasers are encouraged to contact as many different IOTA groups as possible, and IOTA activators to play their part by operating from as many groups as possible, with special emphasis on the less-frequently activated ones. Certificates and awards will be available to both 'Chasers' and 'Activators' to reflect attainment of graduated bands of performance together with attractive prizes for top scorers.
From 0000 UTC 1 January 2012 until 2359 UTC 31 December 2013.
Full info at: www.rsgbiota.org/marathon/index.php
The IOTA SWL Marathon Competition will be run by Hans, DE3EAR, during the same time frame. Full info about the SWL competition can be found at: de3ear.weebly.com/iota-swl-marathon.html [DE3EAR/G3KMA]

RAC Bulletin 2011-015E - Manitoba Declares "Amateur Radio Week" as local "Hams" prepare for a Public Demo of Emergency Communications 2011-06-21
Winnipeg, MB June 21st 2011 - The Province of Manitoba has declared June 20-24th as "Amateur Radio Week" in response to the support local Amateur Radio Operators have supplied in the last year. The Proclamation, which is posted at the website of the Winnipeg Amateur Radio Club (www.mts.net/~warc/), was signed by the Minister responsible for the Emergency Measures Organization (EMO), Steve Ashton.
This weekend, the public will have a chance to meet and talk with Winnipeg’s ham radio operators and see for themselves what the Amateur Radio Service is about. Showing the newest digital and satellite capabilities, voice communications and even historical Morse code, hams from across the North America will be holding public demonstrations of emergency communications abilities. Several dignitaries including the Director of EMO and the Deputy Mayor will also be visiting.
There are over 65,000 Amateur Radio licensees in Canada, and more than 2.5 million around the world. Through the Radio Amateurs of Canada (RAC) Amateur Radio Emergency Services program, ham volunteers provide emergency communications for thousands of provincial and local emergency response agencies, all for free.
Credit is to go to the Public Information Officer for the Winnipeg Amateur Radio Club Mr. Jim Sutton, ve4sig. The Winnipeg Amateur Radio Club is a RAC Affiliated Club. A lengthier press release went out to all media in Manitoba.

President - Radio Amateurs of Canada

RAC Bulletin 2011-016E - Mike Kelly, VE3FFK appointed to the National Field Organization Secretariat 2011-06-21
I am very pleased to introduce the latest addition to the RAC National Field Organization Secretariat. Mike Kelly VE3FFK joins us as EP Canada Advisor. With a wealth of Emergency Preparedness knowledge and experiance, he will be a much needed presence in the Ottawa area in dealing with both the Federal and Provincial governments on matters relating to Wireless Radio Interoperability. Mike has had a long standing relationship with the Canadian Emergency Management College and is the "go to" guy to be registered for their training programs. Mike is also a regular volunteer at RAC HQ in Ottawa.
Welcome aboard Mike!

KL7RRC
Yuri, N3QQ and other Russian Robinson Club members are planning to operate as KL7RRC from the Alaskan island St. Matthew NA-232:
Rescheduled to July 25-August 15, 2012
****
K6VVA/KL7
#3 - June 23, 2011 (1000 UTC) - By Rick, K6VVA - This First-Time Activation of IOTA NA-242 is on schedule, and we are in the 30 day countdown period. All airfare bookings are in place, and advance shipments underway to help offset the extremely high equipment baggage costs on the small plane we must take to get from Barrow to Point Lay, Alaska.

Our objective is at least 3 days QRV between 22 July and 26 July (2011) on 40/30/20/17m depending upon WX and North Latitude propagation. Hopefully there will be no solar flares. We will be primarily on CW to give as many Little Pistol IOTA stations a chance to work us. We will be utilizing two complete stations, two generators, one backup station taken ?just in case? ,and sufficient components to re-build an antenna 3 times in the event of any bear vandalism. Diligent planning has been done and consideration given to possible contingency situations.

This will be an extremely expensive activation due to generally high costs on the North Slope of Alaska. We will be renting a small trailer on the Island which was vandalized by polar bears several months ago. An electric bear fence and bear spray have been purchased and advanced shipped, however for increased safety we must also hire one or more local ?Bear Guards? to be with us on the Island 24/7 as we will be quite intensely focused on making QSOs with our headphones on!

At this point, Mike and I have committed to all expenses ourselves. We anticipate a small stipend grant from IREF to help, but since this is a never before activated ?New One? in a challenging remote area,

hopefully the IOTA Community at large will lend additional assistance. Any donations will be greatly appreciated, and should be sent to our QSL Manager: Fred Stenger, N6AWD, 6000 Hesketh Dr., Bakersfield, CA 93309 USA. Optionally, you may use the PayPal DONATION button. NOTE: Donations are NOT tax-deductible (sorry).

Thanks very much. Mike & I hope to give you a NEW IOTA at NA-242 !!!

V47DA ---> The Daily DX reports that Conny, DL1DA "has not been QRV as V47DA from St. Kitts and Nevis for several years. He does not know anything about the recent June 2011 activity".

+ SILENT KEYS + Dan Holloway, VK8AN passed away on 20 June. "He had had serious illnesses over the last several years", VK4AAR says, "but passed away due to severe pneumonia". Dan operated from several new or rare IOTA groups, eg VK8AN/p (OC-229, 1999), VK6BM (OC-234, 2000), VK6BSI (OC-243, 2001), VK6AN (OC-266, 2004), VK6LI (OC-071, 2004) and VK6DHI (OC-206, 2005). His major long lasting effort was to Troughton Island (OC-154), between the 1990s and early September 2003, when he went QRT from there. Other recently reported Silent Keys include Francisco Campos Crespo (EA4BT), Johnny Roche (EI5CJB), Paddy McGorman (EI7BS), Tim Haynes (G8PTP), Erkki Korpelainen (OH1DG), Raimo Molarius (OH7QC) and Desmond Roy Hearsum (W8PR).

Greetings,

I will be operating from Costa Rica 10-17 July 2011 as TI7/K2DBK.
My location will be in the northwest part of the country near the city
of Liberia in the Guanacaste region. I will be on vacation with friends
so this will be a "holiday-style" operation with operating mostly taking
place in the late afternoon local time. I will be operating SSB only
10m-20m and possibly 6m if conditions permit using 100w and a
Buddipole. QSL via my home call.

DXNL 1734 - Jun 29, 2011
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail:dxnl@...)

translation by: Bob, DL7VOA
(e-mail:dl7voa@...)

EDITOR'S NOTE:

I have been the editor of the DX Newsletter for the past four and a half years and this work has always made me a lot of fun. I had good conversations with the readers and the feedback was mainly positive. Constructive criticism has been taken very seriously at all times and if possible I used it to improve the quality of the bulletin. Now, the time has come to focus on my other hobbies and to get back to my radio as well. However, I am still available occasionally as a vacation replacement.

I want to say thank you to all readers for your support, all YLs, XYLs and OMs for sending me information and also to my colleagues Fredy,DE0MST, and Ric,DL2VFR, without their help no IOTA info would be available in the DXNL, and last not least also to Rob,DL7VOA, who has translated the bulletin into English and distributed both the German and English bulletins always very reliably.

My successor will be OM Alexander Derichs, DG8KAD. Please support him with information just as you have supported me. Only then it is guaranteed that you can find the DX Newsletter on your station's table every week.
I wish Alexander good luck with this time consuming work servicing the DX community worldwide.

Vy 73 de Helmut, DL7MAE!

CU - AZORES ISLANDS, EU-003
Angelo,DM1AC, Carsten,DM1CG, and Joachim,DL9MS, will be active from the Azores Island Sao Miguel (EU-003) as CR2EME. They will work not only via EME but on all HF bands from Jun 29 until Jul 5. QSL via DL9MS.

EA6 - BALEARIC ISLANDS, EU-004
Michael,EA6/DL4ABO, will be QRV in holiday style working with QRP in

CW only from Mallorca (EU-004) from Jul 1-5. Listen for him on 20m and 17m during the evening hours. QSL cards should be sent to his homecall.

J2 - DJIBOUTI
John,F4FUC, will show up as J28UC starting in July and will stay in Djibouti until summer 2013. Activities are planned on 40m-10m using a TS480 with 100 watts, a vertical (20/15/10m) and dipoles for 40/20/10m. QSL via homecall.

OJ0 - MARKET REEF, EU-053
OJ0/SA5BJM (CW), OJ0/SA5BCG (digital/SSB), OJ0/SA0BJF (digital/SSB) and OJ0/SA5BDS (SSB) are going to become active from Market Reef (EU-053) on 80m-2m between Jun 30 and Jul 2. They are all members of the QRP radioclub SA2ME. Find more information athttp://www.sa2me.blogspot.com

PY0/F - FERNANDO DE NORONHA, SA-003
Marcelo,PY2FN, will be QRV as PY0FO from Fernando de Noronha (SA-003) from July 2-9. He works only in CW on 160m-6m on following preferred QRGs (if necessary he works split and listens 2-5 kHz up):
1814, 3514, 7014, 10114, 14014, 18084, 21014, 24894, 28014, 50094 kHz.
Special emphasis will be put on the 6m band.
QSL via bureau, direct or LoTW to PY2FN.
See also:http://www.py0fo.com.br

SV5 - DODECANESE, EU-001
Bertl,DJ5MN, writes: "I am spending the holidays with my family on Rhodos from Jun 30 until Jul 10. I will work in CW and SSB on 160m-6m signing SV5/DJ5MN with 100 watts and a vertical for HF and 25 watts and yagis for 2m and 70cm. QSL only via the DARC bureau, I don't need your dollars."

T6 - AFGHANISTAN
T6SH is the callsign of Steve,W6EOD, who is based in the province Helmand until November. Steve works only in CW on 20m and 40m using a KX1 transceiver and a vertical. QSLs via bureau or direct to K1BV.

XU - CAMBODIA
Barry,ZL1DD, will stay in Sihanoukville from Jul 1-7 and hopes to hit the airwaves as XU7ADD.

YJ - VANUATU
YJ8A is Andy,P29CS, who activates Efate Island (OC-035) until Jul 17. QSLs also via bureau to M0URX.

5N - NIGERIA
Valery,5N6/YL2SW, is back in Nigeria since Jun 16 and will stay there until Jul 15. Besides working in CW and SSB he also wants to try RTTY. Valery has a very unstable power grid so it is not unusual that he disappears right in a QSO.
Please send your QSLs via bureau or direct to his homecall.
Russian stations should send their QSL via RV3MQ.

7Q - MALAWI
Malcolm,GM3TAL, is part of the "Scottish Scout New Horizons Expedition"
and will have his QTH at the Malawi National Scout Campsite near Zomba.
You can expect activities as 7Q7MH in CW/SSB on the high bands and 6m
during the month of July. QSLs unfortunately only direct via G0IAS.

Greetings,

I will be operating from Costa Rica 10-17 July 2011 as TI7/K2DBK. My
location will be in the northwest part of the country near the city of
Liberia in the Guanacaste region. I will be on vacation with friends so
this will be a "holiday-style" operation with operating mostly taking
place in the late afternoon local time. I will be operating SSB only
10m-20m and possibly 6m if conditions permit using 100w and a Buddipole.
QSL via my home call.

Hello,

I?ve created new free hamradio callbook -http://www.hamqth.com. Since the owner of one popular server decided to hide all addresses until you are not registered, I decide to write my own.

You can also register to our server, edit or add your own address, write some biography details, put photos here etc. What is unique, you can choose if your address or other contact details will be shown also to unregistered users. It is your choice, not my. I won't hide your address or any details. Only you can do that.

Now callbook includes only data widely available on the Internet for free. I?ve imported whole USA FCC database, Italian, T7, OK and VE callbook.

If you want to see an example how it looks like, here is my profile: http://hamqth.com/search.php?callsign=ok2cqr

I hope, you?ll like The HamQTH.com callbook and use it very often.

I am currently working on a new project to add to the data file
for GoWin. It will take several weeks to complete, but some of the
work is included in the data file released Wednesday. Hope the
additional information will be useful to all of you.

Ascension 2011 DXpedition - ZD8D
UPDATE: Bad news from Ascension Island. They have had heavy rainfalls in late April. The street to Garden Cottage (our planned operating site) up in the Green Mountain area was damaged, so there is no chance to reach that area until October.
We changed our plans and will now have a guesthouse in Georgetown, which is not ideal. We have to rely on our fiberglass poles, as there are no trees etc. We are afraid, that we will be handicapped on 160 and 80m, but we will do our best, of course. [dx-world.net]

SATERN GETS NEW DIRECTOR
After serving as Director of the Salvation Army Team Emergency Radio Network (SATERN) for more than 23 years, Major Patrick E. McPherson, WW9E, is stepping down. Major Rick Shirran VE3NUZ, of Toronto, Ontario, has been appointed as the new Director. McPherson -- an ARRL member -- founded SATERN in June 1988. Shirran, who received his Amateur Radio license in 1975, served 12 years as a member of the Royal Canadian Navy as a Radio Operator and Communications Technician. He is a Commissioned Officer/Pastor in The Salvation Army Canada and Bermuda Territory. Prior to his appointment, Shirran served as the Emergency Disaster Services Director and SATERN Director for The Salvation Army in Canada and Bermuda Territory.

Folks,
When you are using the GoWin program and you find a record that
the manager is not
correct, please send me the correct information ASAP.

If you are going on a major DXpedition or just leaving the
country for holiday and plan to
operate from a foreign country, Please send me the Call sign, Qsl
manager for your
operation. I will add it to the weekly data file and include it in the

July 02th 2011

In just a few short days, the people of Southern Sudan will declare their independence from Sudan and will become the new Republic of Southern Sudan. Vice President of South Sudan, Dr. Riek Machar Teny has announced that admission as a member state of the United Nations will take place on July 14th, 2011.
The DX Friends and the Intrepid-DX Group continue to monitor the UN General Assembly and Security Council votes and are moving forward with our plans for a large multi-national DXpedition to take place soon after the UN admission occurs.
Equipment has been procured and is being staged for rapid delivery to Juba, the new capitol of Southern Sudan. Team members have applied for their visas and we are awaiting them now.
We have held several successful meetings with representatives of the Government of Southern Sudan. We have been issued an amateur radio license for the purpose of this DXpedition. The Government of South Sudan is very supportive of our plans to visit Juba and to help them celebrate the birth of their new country.
We plan to soon be in the new capital of Juba and to be ready to start our DXpedition after admission by the UN. We will have 18 operators operating 24?7 on seven active stations.

Thank you,
The Intrepid-DX Group and The DX Friends.

PRESS RELEASE NUMBER 4 ? July 5, 2011

The 4W6A team welcomes Bernd L?nger, VK2IA, as the seventh and final member of the DXpedition. Bernd has joined the DXpedition in order to help balance the requirement for CW operation. He brings a wealth of DXpedition and contesting experience from Europe and the Asia-Pacific area.

Also joining the team, although not in Timor-Leste itself, are Col McGowan, MM0NDX, and Kev Haworth, M0TNX. Col, who is the founder and editor of the DX World website [http://dx-world.net], has been appointed as pilot while Kev will be the assistant QSL manager to Tim, M0URX. Col will be responsible for providing feedback to the team on Atauro Island. He may be contacted atdxer59@...

CDXC (Chiltern DX Club ? the UK DX Foundation), the RSGB DXpedition Fund, the German DX Foundation, the Northern California DX Foundation, the European DX Foundation, the Nippon DX Association and the Northern Illinois DX Association are the latest DX clubs and foundations that are kindly providing financial support for the DXpedition. The team is very grateful to all DX groups, companies and individuals who have offered sponsorship. All are listed with thanks on the 4W6A website at http://www.4w6a.com/sponsors.html If you or your DX club also wish to help, there is a "Donations" page on the 4W6A website. Payments may be made by credit or debit card and you do not need to have a PayPal account yourself in order to make a donation.

4W6A will be QRV from Atauro Island (IOTA OC-232), Timor-Leste (East Timor), from 16 to 26 September 2011. Activity will be on all bands 10 to 160 metres, using CW, SSB and RTTY. The QSL manager is M0URX, direct (SAE plus 1 IRC / $2), via the bureau, or LoTW. The entire log will be uploaded to LoTW as quickly as possible after the end of the operation or, if possible, even during the DXpedition. QSLs may also be requested using the QSL request form on the website.

IARU HF World Championship 2011

To IARU Region 2 Member Societies:

The coming weekend, July 9th and 10th, the 2011 version of the IARU
HF World Championship will take place.

The objective of this SSB and CW contest is to contact as many other
amateurs, especially IARU member society HQ stations, around the world
using the 160, 80, 40, 20, 15 and 10 meter bands. It is open to all
radio amateurs around the world.

We invite IARU member societies to actively participate with their
HQ stations.

The rules for this year's contest can found here:

Hi gang,

Just received a note this morning from my friend Geoff, G0PFH, who informs me he will once again be Scotland bound to activate a trio of lighthouses for the deserving. Beginning Monday, July 25th thru Friday, July 29th, Geoff will be activating the following ARLHS SCO lighthouses utilizing the Halifax club call GS2UG.

SCO-111 = Killantringan Lighthouse
SCO-177 = Port Patrick Lighthouse
SCO-223 = Southerness Lighthouse

Geoff is uncertain as to the order the lights will be done, but preliminary information is available on QRZ.com under the call GS2UG. This info will
be up-dated as his plans become firm. Please be sure to read and follow the QSL instructions.

Many of you will recall Geoff had a successful expedition to the Mull of Galloway and Corsewell Point lighthouses (SCO-144& SCO-052) this past November, so here's hoping the propagation gods are smiling upon us once again.

Happy hunting,

Jim KA3UNQ

Hi there !

By this e-mail we would like to inform you that belgian operators crew associated with hams from the Finistere (France , Departement 29) has set up an dx-pedition to the

GLENAN Archipelago (EU-094) with the call TM1G (EPC# 14639)

I purpose you to take 5 minutes of your time. Rather than a long text, have a click on

http://www.qrz.com/db/tm1g

where you will find pictures of the operators as well as sights of this pretty French archipelago.
In about 30 days from now on, we will be on the air from there to make it possible for the ham's to contact EU-094 a wanted IOTA reference by 54 %., and after the IOTA Contest, we will activate two castle's (references 29-004 and 29-032) and one new FFF reference (FFF-200) and differents DIFM

There is also a link to support this expedition in order to cover the QSL costs, the transportation of about 650 Kgs materials . Thanks beforehand.

You will see all infos about our project and the photographies of the operators as well as sights of this pretty French archipelago located about 17km west of FOUESNANT LES GLEMAN City, in the Atlantic ocean.

If you want to support us, to help us, to sponsor us so that another "adventure" should be set up soon, your sponsoring or your donation is largely appreciated to cover the QSL costs , the material transport, ... The sponsoring is not for the OM' S ..... You can do it here

PRESS RELEASE NUMBER 4 - July 5, 2011
The 4W6A team welcomes Bernd Länger, VK2IA, as the seventh and final member of the DXpedition. Bernd has joined the DXpedition in order to help balance the requirement for CW operation. He brings a wealth of DXpedition and contesting experience from Europe and the Asia-Pacific area.
Also joining the team, although not in Timor-Leste itself, are Col McGowan, MM0NDX, and Kev Haworth, M0TNX. Col, who is the founder and editor of the DX World website [http://dx-world.net], has been appointed as pilot while Kev will be the assistant QSL manager to Tim, M0URX. Col will be responsible for providing feedback to the team on Atauro Island. He may be contacted at dxer59@...
CDXC (Chiltern DX Club - the UK DX Foundation), the RSGB DXpedition Fund, the German DX Foundation, the Northern California DX Foundation, the European DX Foundation, the Nippon DX Association and the Northern Illinois DX Association are the latest DX clubs and foundations that are kindly providing financial support for the DXpedition. The team is very grateful to all DX groups,

companies and individuals who have offered sponsorship. All are listed with than
ks on the 4W6A website at http://www.4w6a.com/sponsors.html If you or your DX
club also wish to help, there is a "Donations" page on the 4W6A website.
Payments may be made by credit or debit card and you do not need to have a
PayPal account yourself in order to make a donation.
4W6A will be QRV from Atauro Island (IOTA OC-232), Timor-Leste (East Timor),
from 16 to 26 September 2011. Activity will be on all bands 10 to 160 metres,
using CW, SSB and RTTY. The QSL manager is M0URX, direct (SAE plus 1 IRC / $2),
via the bureau, or LoTW. The entire log will be uploaded to LoTW as quickly as
possible after the end of the operation or, if possible, even during the
DXpedition. QSLs may also be requested using the QSL request form on the
website.

4W6A ---> 4W6A will be QRV on all bands and modes from Atauro Island (OC-232), Timor-Leste on 16-26 September [425DXN 1045]. Bernd Laenger, VK2IA has joined the DXpedition in order to help balance the requirement for CW operation. Col McGowan, MM0NDX (dxer59[@]gmail.com) has been appointed as pilot and will be responsible for providing feedback to the team on the island. The latest press release (5 July) can be found at www.4w6a.com, along with further information on the DXpedition and details on how contribute to the project.

QSL GALLERY ---> The large collection of QSL cards on Les Nouvelles DX's web site has been updated. Thirteen different galleries include cards for the ten Most Wanted DXCC Entities (333 QSLs), the 60 deleted DXCC entities (1308 QSLs), obsolete prefixes (3407 QSLs), stations from Magrebh from 1947 to 1962 (377 QSLs), D5 and DL5 stations from 1945 to 1962 (63 QSLs), Antarctic bases (832 QSLs) & TAAF (Terres Australes and Antarctiques Francaises, 264 QSLs), the various French DXCC island Entities in the Pacific Ocean (347 QSLs) & the Indian Ocean (97 QSLs), pre-1945 countries (1243 QSLs), French Departments (692 QSLs) and CONUS (226 QSLs), plus a gallery for cards not accepted by DXCC (126 QSLs). Several cards are still and your participation is encouraged - please visit www.LesNouvellesdx.fr and send your comments to lesnouvellesdx[@]free.fr [TNX F6AJA]

QSL VP2VV ---> Cards for contacts made on 20-23 June 2011 should go to N6EE (all other dates QSL via VP2VQ). Ron uploaded his VP2VV log to LoTW on 5 July. [TNX N6EE]

QSL VIA I0MWI ---> Stefano, I0MWI reports he is in charge for the direct QSLling for KH6/K8OQ, KH6/KC0TEA, KH7M and WH7M. QSL to Stefano Cipriani, Via Taranto 60, 00055 Ladispoli RM, Italy.

QSL VIA SM6CVX ---> All direct requests for last April's P29VCX (OC-102,OC-117 and OC-240) and P29VLR (OC-231) IOTA activities have been processed and mailed. If you do not receive yours within a reasonable period of time, please contact Hans (sm6cvx[@]hjelmstrom.se). Cards for requests that did not include return postage have been sent via the bureau. [TNX SM6CVX]

SOUTH SUDAN ---> On 9 July "the people of Southern Sudan will declare their independence from Sudan and will become the new Republic of Southern Sudan. Vice President of South Sudan, Dr. Riek Machar Teny has announced that admission as a member state of the United Nations will take place on July 14th , 2011.
The DX Friends and the Intrepid-DX Group continue to monitor the UN General Assembly and Security Council votes and are moving forward with our plans for a large multi-national DXpedition to take place soon after the UN admission occurs.
Equipment has been procured and is being staged for rapid delivery to Juba, the new capital of Southern Sudan. Team members have applied for their visas and we are awaiting them now.
We have held several successful meetings with representatives of the Government of Southern Sudan. We have been issued an amateur radio license for the purpose of this DXpedition. The Government of South Sudan is very supportive of our plans to visit Juba and to help them celebrate the birth of their new country.
We plan to soon be in the new capital of Juba and to be ready to start our DXpedition after admission by the UN. We will have 18 operators operating 24/7 on seven active stations.
At this time, we are seeking Foundation, Club and Individual Sponsors to help us defray the costs of carrying out this very important DXpedition. Our official website is http://www.dxfriends.com/SouthernSudan2011/" [TNX N6PSE]

SOUTH SUDAN ---> The Northern California DX Foundation is pleased to announce a major grant to the Intrepid DX Group and the DX Friends who have joined together to activate the new entity of the Republic of Southern Sudan. Licensing is imminent and operation could begin in the next few days. [TNX W0GJ]

WHQS AWARD ---> "MK QTC", the Polish Radio Amateurs' Journal, sponsors the 2011 W-HQ-S award for working at least ten HQ stations during the upcoming IARU HF World Championship. Please e-mail qtc[@]post.pl for complete details.

+ SILENT KEYS + Henry Lewis (G3GIQ) passed away on 5 July. "Henry was one of the hobby's real gentlemen and will be greatly missed by his many

friends, not just here in the UK but worldwide from the many close contacts made over the air and at conventions", G3KMA says. "A long-time supporter of the DXCC and IOTA programmes he amassed very large scores in both, 336/371 in DXCC and 1058 in IOTA. He was a founding member of CDXC - the UK DX Foundation. He also served in the early years of RSGB's tenure of IOTA as an IOTA checkpoint and Committee Member".
Other recently reported Silent Keys include Enzo Ruggiero (IW7EER) and Jamie Pye (ZL2NN).

July 14th 2011

On July 9th, the Republic of South Sudan was born upon their successful
declaration of independence from Sudan. The Country of Sudan has
congratulated and recognized the Republic of South Sudan.
Today, on July 14th, 2011, the United Nations admitted the Republic of South
Sudan as the newest member state. This is a significant achievement for this
new country and a significant milestone for amateur radio. It is expected
that the ARRL will now add South Sudan to the DXCC list of entities.
The DX Friends and the Intrepid-DX Group continue to move forward with their
plans to activate this new entity with a multi-national DXpedition team.
With our visas in hand, the teams will soon be making their way towards
Africa and ultimately to Juba, the new capitol of this new nation.
We will have five active stations, operating 24 hrs a day.
We will be in regular contact with our US, EU and JA Pilot Stations and we
will pay close attention to propagation reports from them. We ask that you
please make contact with the pilot stations only during the DXpedition and
to please refrain from contacting the team members directly via email. We
will announce our call sign once we are in Juba and ready to become active.

Thank you,
The Intrepid-DX Group and The DX Friends.

After downloading the new weekly data file from the Golist site,
make sure you shut down your GoWin program and then install the new
data file.
This download has a new GoWin.exe program file in it and will give you
an install
error if GoWin is running.

>>> NEW DXCC ENTITY: THE REPUBLIC OF SOUTH SUDAN <<<

On 14 July the UN General Assembly admitted the Republic of South Sudan as
the 193rd member of the United Nations.
Consequently, South Sudan has been added to the DXCC List as a new Entity
(the 341st on the "current" list, thus moving the Honor Roll threshold
to 332), by way of Section II, 1(a) of the DXCC Rules. The DXCC entity code
assigned to Republic of South Sudan is 521. This is a totally new Entity for
all DXers (i.e. the deleted Entity of Southern Sudan, ST0 has NOT been
reinstated, as per DXCC Rules), and the DXCC Desk will begin immediately
accepting QSOs for it, with a start date of July 14, 2011.
"The deadline for the Honor Roll and annual listings is December 31, so you
must submit the new entity to DXCC by then in order to retain your Honor
Roll status," Bill Moore, NC1L explained. "For Logbook of The World (LoTW),
you may submit all your QSOs with the Republic of South Sudan stations
anytime. There is no need to hold them out of your log or do anything
differently from what you already have been doing. You do not need to
assign country names or identifiers. After we issue certificates to the
Republic of South Sudan license holders, LoTW will make matches and

assign the correct entities automatically."
The Republic of South Sudan is also the newest addition to the CQ DX Award
Countries List (it is #342, as CQ counts Kosova). Verifications confirming
contacts after July 14, 2011 are acceptable for credit. No award credit is
available for southern Sudan contacts made during the 1980s and 90s. The
new addition will be reflected in CQ DX Honor Roll totals to be compiled
near the end of September. South Sudan will count as a country (entity)
multiplier for the CQ DX Marathon, the CQ World Wide DX Contest and any
other CQ contests that use country multipliers.
As of 14 July, the International Telecommunication Union (ITU) has not
announced a prefix block for the Republic of South Sudan.

SOUTH SUDAN ---> In their latest press release (14 July) the DX
Friends and
The Intrepid-DX Group (www.dxfriends.com/SouthernSudan2011/)
state they
"continue to move forward with their plans to activate this new
entity with
a multi-national DXpedition team. With our visas in hand, the
teams will
soon be making their way towards Africa and ultimately to Juba,
the new
capital of this new nation. We will have five active stations,
operating 24
hrs a day.
We will be in regular contact with our US, EU and JA Pilot Stations
and we
will pay close attention to propagation reports from them. We ask
that you
please make contact with the pilot stations only during the
DXpedition and
to please refrain from contacting the team members directly via
email. We
will announce our call sign once we are in Juba and ready to become
active".

On 15 July MM0NDX (EU Pilot for the DXpedition) released the
following
schedule:
"The Intrepid DX Group is meeting the DX Friends in Cairo on July
21st. On
July 22nd, they all fly from Cairo to Juba, South Sudan. On July
23rd, they
will meet with the Ministry of Communications to amend licenses to
the new
ITU prefix. They expect to be active later on July 23rd, or July 24th
until
shut down on August 10th, 2011".

SB DX ARL ARLD028
ARLD028 The Republic of South Sudan Is Now a DXCC Entity

At 10:18 AM (EDT) on Thursday, July 14, the UN General Assembly met to vote on whether or not to admit the Republic of South Sudan as its 193rd member state. The Republic of South Sudan was unanimously admitted and is now a member of the United Nations; a two-thirds majority is needed to become a member of the UN.

Immediately following the General Assembly meeting, the flag of the Republic of South Sudan flew for the first time in front of the UN, ceremoniously marking its membership in the UN.

Now that the Republic of South Sudan is a member of the United Nations, the new country is now a DXCC entity by way of Section II, 1(a) of the DXCC rules. The DXCC Desk will begin immediately accepting QSOs for this new entity, with a start date of July 14, 2011.

According to DXCC Manager Bill Moore, NC1L, the Honor Roll numbers move from 340 to 341 for the Top of the Honor Roll, and for Honor Roll it becomes 332. "The deadline for the Honor Roll and annual

listings is December 31, so you must submit the new entity to DXCC by then in order to retain your Honor Roll status," Moore explained.

"For Logbook of The World (LoTW), you may submit all your QSOs with the Republic of South Sudan stations anytime. There is no need to hold them out of your log or do anything differently from what you already have been doing. You do not need to assign country names or identifiers. After we issue certificates to the Republic of South Sudan license holders, LoTW will make matches and assign the correct entities automatically."

As of July 14, the International Telecommunication Union (ITU) has not announced a prefix block for the Republic of South Sudan.

RRTC-2011 has a great pleasure to invite you to take part in RRTC held from 07:00 UTC July, 16th 2011 till 14:59 UTC July, 16th, 2011. 8 hours only!

Russian operators will be back at it this weekend, as 14 different two-man teams will use a Field Day style event. The teams will be set up close together as por table stations, using an agricultural area not far from Nizhniy Novgorod.

Rules for RRTC outside participants:
1. Date and contest period: The Saturday of the third full weekend of July (July 16th, 2011) beginning 07:00 UTC and ending 14:59 UTC. Both Single and Multi operator stations may operate the entire 8-hour period.
2. Everybody can work everybody.
3. Modes: CW and SSB.
4. Bands: 7, 14, 21 and 28 MHz.
5. Band and (or) mode can be changed at any time. Only one signal is allowed at a time.
6. Exchange: Outside participants sends RS (RST) and ITU zone number. Russian Radio Team Championship competitors sends RS (RST) and three-character combination, e.g. 599 XYZ.
7. Station with the same call-sign may be worked on different bands/modes, to include both modes per band.
8. Scoring Point System: QSO with RRTC station (special call-sign series R3XY-R3XY X- digital, Y - letter) - one point. QSO with outside participant from the same ITU zone - one point. QSO with outside participant from different ITU zone on the same continent - three points. QSO with outside participant from different ITU zone on different continent - five points.
9. Multipliers: ITU zone and new three-character combination received from an RRTC team - one point for the multiplier on each band (regardless of mode). RRTC station gives no ITU zone multiplier.
11. Entry categories:
A - Single operator, mixed (CW and SSB), high power
B - Single operator, mixed (CW and SSB), low power (100 W and less)
C - Single operator, SSB, high power
D - Single operator, SSB, low power (100 W and less)

E - Single operator, CW, high power
F - Single operator, CW, low power (100 W and less)
G - Multi operator team (2 or 3 operators), mixed (CW and SSB).
12. Awards: Special trophies, certificates and medals will be awarded to the world`s top scoring stations in both the A and G categories. Certificates and medals will be awarded to the world's 2nd and 3rd stations in both the A and G categories. Certificates will be awarded to the world's top three stations in the B-F categories. Achievement commemorative pennants will be awarded to those participants making at least 10 QSOs with RRTC competitors and submitting email logs to ochr@.... Logs must be submitted no later than 17:00 UTC, July 16th, 2011.
13. Logs: Any contest logging software can be used which supports IARU HF World Championship. Only email logs are accepted, Cabrillo log format shall be used according to IARU HF Championship requirements. File name should be mycall.cbr where mycall is your callsign.

Please send the file as an attachment to ochr@srr.ru during 2 hours after contest, for checking RRTC team. 10 QSO`s with RRTC competitors - special RRTC plaque!

Thank you and see you in RRTC 2011! [RRTC 2011]

SA-045 ACTIVATION - PRESS RELEASE

Orlando (PT2OP) and Fred (PY2XB) will carry on an operation from Parazinho Biologic Reserve in Bailique Archipel (SA-045) From August 17th thru August 24th 2011.

The team will operate on SSB/CW and DIGITAL modes from 40m to 10m. They will use IOTA and DX frequencies. The callsigns have been issued as PQ8OP (Orlando) and PQ8XB (Fred). Orlando will carry on mostly Phone and Digital traffic. Fred will do mostly CW and also DIGITAL.

They will also have 6m capabilities and will monitor the band for openings. The equipment will be Icoms 706 and 7000 with an 400W THP amplifier. Antennas will be an SteppIR vertical (40-6m) and a Zepp (40-10m). Power will be off a Diesel generator. Eventually, during generator off periods, batteries will be used.

The Parazinho Bilologic Reserve is an biologic sanctuary. Only an Environmental Ministery/State Secretary outpost is available in the site. The site is about 300km straight line far from French Guyana border.

Few meters from the outpost there is an automatic Lighthouse run by Brazilian Navy. So this operation will not only account for a rare IOTA but also for WLOTA awards (L-1123) and ALRHS (number awaiting confirmation).

QSO valid for Brazilian Islands Diplom DIB AP-03; Brazilian Lighthouses Diploma DFB AP-03 and South American Lighthouses Diplom DFA.

The team will arrive in Macapa, capital city of the state of Amapa, on August 14th. Then on the 16th it will sail to the Biologic Reserve. The boat ride takes 12 hours to Vila Progresso - a small fishermen community, plus 30 minutes in a motor boat to the reserve. Boat ride schedule will depend on tides that can get amplitudes as high as 10meters.

The team will take food , water and essential goods as well a spare generator and fuel for the entire period. The team will return on the 25th to Macapa, depending on the tide levels.

To be confirmed, on the August 26th its planned an activation from São José de Macapa Fortress, the biggest historic brazilian fortress. Valid for DFH Historical Brazilian Fortress with code DFH AP-01.

PQ8OP cards will be handled by PT2OP and PQ8XB cards by PT7WA.

Stay tuned

>>> NEW DXCC ENTITY: THE REPUBLIC OF SOUTH SUDAN <<<

On 14 July the UN General Assembly admitted the Republic of South Sudan as the 193rd member of the United Nations.
Consequently, South Sudan has been added to the DXCC List as a new Entity (the 341st on the "current" list, thus moving the Honor Roll threshold to 332), by way of Section II, 1(a) of the DXCC Rules. The DXCC entity code assigned to Republic of South Sudan is 521. This is a totally new Entity for all DXers (i.e. the deleted Entity of Southern Sudan, ST0 has NOT been reinstated, as per DXCC Rules), and the DXCC Desk will begin immediately accepting QSOs for it, with a start date of July 14, 2011.
"The deadline for the Honor Roll and annual listings is December 31, so you must submit the new entity to DXCC by then in order to retain your Honor Roll status," Bill Moore, NC1L explained. "For Logbook of The World (LoTW), you may submit all your QSOs with the Republic of South Sudan stations anytime. There is no need to hold them out of your log or do anything differently from what you already have been doing. You do not need to assign country names or identifiers. After we issue certificates to the Republic of South Sudan license holders, LoTW will make matches and assign the correct entities automatically."
The Republic of South Sudan is also the newest addition to the CQ DX Award Countries List (it is #342, as CQ counts Kosova). Verifications confirming contacts after July 14, 2011 are acceptable for credit. No award credit is available for southern Sudan contacts made during the 1980s and 90s. The new addition will be reflected in CQ DX Honor Roll totals to be compiled near the end of September. South Sudan will count as a country (entity) multiplier for the CQ DX Marathon, the CQ World Wide DX Contest and any other CQ contests that use country multipliers.
As of 14 July, the International Telecommunication Union (ITU) has not announced a prefix block for the Republic of South Sudan.

SOUTH SUDAN ---> In their latest press release (14 July) the DX Friends and The Intrepid-DX Group (www.dxfriends.com/SouthernSudan2011/) state they "continue to move forward with their plans to activate this new entity with a multi-national DXpedition team. With our visas in hand, the teams will soon be making their way towards Africa and ultimately to Juba, the new capital of this new nation. We will have five active stations, operating 24 hrs a day.
We will be in regular contact with our US, EU and JA Pilot Stations and we will pay close attention to propagation reports from them. We ask that you please make contact with the pilot stations only during the DXpedition and to please refrain from contacting the team members directly via email. We will announce our call sign once we are in Juba and ready to become active".
On 15 July MM0NDX (EU Pilot for the DXpedition) released the following schedule:
"The Intrepid DX Group is meeting the DX Friends in Cairo on July 21st. On July 22nd, they all fly from Cairo to Juba, South Sudan. On July 23rd, they will meet with the Ministry of Communications to amend licenses to the new ITU prefix. They expect to be active later on July 23rd, or July 24th until shut down on August 10th, 2011".

SOUTH SUDAN UPDATE. Here is the latest information regarding the South Sudan DXpedition from Paul, N6PSE:
"Today, the Intrepid-DX Group is making their way to Cairo to meet with the DX Friends. Our advance team will arrive in Juba, South Sudan tomorrow (July 20th) with a list of tasks to perform in advance of the main team. As the ITU has not yet issued a new prefix for South Sudan, our license that was issued in March has the call-sign of ST0R (Sierra Tango Zero Romeo). That will be our call for the DXpedition unless the ITU issues a new prefix which will require that we amend our license. More updates to follow.
Thank you,
Paul N6PSE

SB DX ARL ARLD028
ARLD028 The Republic of South Sudan Is Now a DXCC Entity

At 10:18 AM (EDT) on Thursday, July 14, the UN General Assembly met to vote on whether or not to admit the Republic of South Sudan as its 193rd member state. The Republic of South Sudan was unanimously admitted and is now a member of the United Nations; a two-thirds majority is needed to become a member of the UN.

Immediately following the General Assembly meeting, the flag of the Republic of South Sudan flew for the first time in front of the UN, ceremoniously marking its membership in the UN.

Now that the Republic of South Sudan is a member of the United Nations, the new country is now a DXCC entity by way of Section II, 1(a) of the DXCC rules. The DXCC Desk will begin immediately accepting QSOs for this new entity, with a start date of July 14, 2011.

According to DXCC Manager Bill Moore, NC1L, the Honor Roll numbers move from 340 to 341 for the Top of the Honor Roll, and for Honor Roll it becomes 332. "The deadline for the Honor Roll and annual listings is December 31, so you must submit the new entity to DXCC by then in order to retain your Honor Roll status," Moore explained.

"For Logbook of The World (LoTW), you may submit all your QSOs with the Republic of South Sudan stations anytime. There is no need to hold them out of your log or do anything differently from what you already have been doing. You do not need to assign country names or identifiers. After we issue certificates to the Republic of South Sudan license holders, LoTW will make matches and assign the correct entities automatically."

As of July 14, the International Telecommunication Union (ITU) has
not announced a prefix block for the Republic of South Sudan.

It is with sad news that I pass along Scott Lehman, N9AG, the QSL manager for PJ2T has become a silent key. N9AG was the longtime manager for nearly all of our operations at PJ2T answering literally hundreds of thousands QSL requests - he will be greatly missed.

If you are waiting for a PJ2T confirmation, please be patient.

SPECIAL EVENTS -

23/07/2011: TK9VOCE, will be aired starting in the afternoon of 23 July until July 24, by Corsican Hams, from the convent of Cervione for the 40th anniversary of the ADECEC - Voce Nustrale. QRV all modes and bands, HF, VHF (except 50 MHz which is forbidden there), and UHF. QSL via TK1LG. [F5NQL]

23/07/2011: The year 2011 is the 100th anniversary of Turkish Air Force. In May, TCSWAT was on the air as TC100HKK. For those who missed having a QSO for the 100th anniversary, TCSWAT will once more be on the air using a special callsign, but this time as TC100TAF on 23-31 July 2011. Activity will be on the HF bands, mainly SSB, but look out for BPSK31 and SSTV signals especially during the nights! QSL via TA1HZ, direct or bureau. [OPDX Bulletin]

23/07/2011: Special event station TC7EYOF will be active on 23-30 July 2011 for the 11th European Youth Olympic Festival to be held in Trabzon, Republic of Turkey. QSL via YM7KA, direct (QRZ.com). [425 DX News]

25/07/2011: On 29-30 July 2011, on the Kiev water basin in Vyshgorod, Ukraine, the F1 Power Boat Grand Prix 2011 will be held. Bogdan, UT7UU, will operate special event station EO2011U for this event using the callsign EO2011U. QRV between 25 July and 5 August 2011, on most of the HF bands, using SSB, CW, RTTY and PSK 31/63. QSL via UT7UU. [QRZ.ru]

27/07/2011: Amateur radio stations have been set up at each World Scout Jamboree since 1957. They provide live-links from the Jamboree to the home countries of the participants over short-wave radio as well as being interesting stations for other radio amateurs to contact. From 27 July till 7 August 2011, the 22nd World Scout Jamboree at Rinkaby in Sweden will be on the air with call sign SJ22S (Scout Jamboree No 22 Sweden). This is a special event callsign. The station will offer an exciting radio-scouting programme including kit building and fox hunting to the Jamboree participants. Jim, ZL2APE, who is the NZ National Organiser for the Scout Jamborees on the Air, will be one of the station operators. Further information, frquencies and QSL route can be found under SJ22S on QRZ.com. [Southgate ARC]

6 METRES & UP -

5W0GJ on 6m EME -
Now that the summer Es season is winding down, it is time to remind you again that it is time for some half million mile 6m DXing to begin again! In case any of you serious 6m operators with digital mode capability still need Samoa (5W), this is a reminder that I am going there in only FOUR WEEKS! All you need is some decent ground gain for your 6m yagi, an amplifier and JT65A mode. For North and South American stations, I will be elevating on MY end, so you can just keep your antenna aimed at the horizon during your moonset during the last days of August. With ground gain and optimum EME cndx, amazing things are possible - I worked N3CXV with his single 6M5X yagi on both my previous DXpeditions to 3D2 and E51. For European stations, our best chance is during the week of August 22 during my moonrise. Although cndx are not as good then as on the last weekend of August, it is also your moonset, so we have a good chance of ground gain on both ends, which should make up for the difference in Degradation.
If you are one of the numerous 6m stations who have recently added elevation, please try to catch up with me during my moonrise out over the water. I expect that to be my best direction. I was surprised to find W7CE with his single 6M9KHW pointed up in the air was one of the first stations I worked during my first moonrise from 3D2 last fall! Full information is on my website below and also will be updated there and on the MMM on VHF DXpedition website:
http://www.bigskyspaces.com/w7gj/Samoa2011.htm - Please read the information on my website about my schedule and also familiarize yourself with the procedure I use for my 6m EME DXpeditions:
http://www.bigskyspaces.com/w7gj/DXpedition%20Procedure.pdf
I am excited about handing out a new DXCC to many deserving 6m operators who take the time to get on and look for me on JT65A mode. Please spread out and only work me once, to allow others an opportunity for a contact during these limited days! I hope to be able to update a list of stations worked from time to time as I can find a place with internet access. I hope you also will be able to add a 5W0GJ QSL card on your wall ;-) GL and VY 73, Lance, W7GJ. [MMMonVHF]

SILENT KEYS -

It is with sad news that I pass along Scott Lehman, N9AG, the QSL manager for PJ2T has become a silent key. N9AG was the longtime manager for nearly all of our operations at PJ2T answering literally hundreds of thousands QSL requests - he will be greatly missed.
If you are waiting for a PJ2T confirmation, please be patient.

International Lighthouse Lightship Weekend (ILLW) -
This annual amateur radio event was started in Scotland in 1995 by the late Mike Dalrymple (GM4SUC) and other members of Ayr Amateur Radio Group (AARG). The event is always held on the 3rd full weekend in August starting at 0001 UTC on Saturday and finishing at 2359 UTC on Sunday. It also coincides on the Sunday with International Lighthouse Day an event organised by the International Association of Lighthouse Keepers whereby many world lighthouses are open to the public for the day.
This years event takes place 20-21 August 2011 - Duration 48 hours.
The basic objective of the event is to promote public awareness of lighthouses and lightships and their need for preservation and restoration, and at the same time to promote amateur radio and to foster International goodwill.
So come and join us in the fun of the weekend, establish a station at a lighthouse, lightship or maritime beacon. The more the merrier. If you decide to join us in the fun just fill in the official online entry form with your details. This will enable other stations to be aware of who is participating in the event. You may also send you entry, or any questions regarding the rules, via the "Contact Us" link in the main menu.
Website and further information at: http://www.illw.net/ [VK2CE]

ILLW milestone ahead of time -
With entries running well in advance of this time last year, the 300th is club station OH6NR located at Rövargrund Lighthouse in Finland.
One of seven received from that country, the milestone entry is for an island in Western Finland, to be activated by DXers as a club using the vanity callsign OH6N, who on their recent outings to Rövargrund favoured HF through 6-metres including the digimodes.

With 30 days to go there have been a steady average of five entries a day.
This is to escalate in the final weeks and it's not too late to get
permission to set up and make an entry.
Looking around the globe there's strong support from Argentina, Chile and
interest from Brazil in South America. In the north there's Canada and the USA.
In Oceania we have Australia, New Zealand and New Caledonia. While across to
South East Asia to find Indonesia, Thailand, The Philippines and Malaysia.
South Africa and has a presence, with entries also received from England,
Europe, Portugal, Scandinavia, Spain, Lebanon and across to the Russia.
So far we have more than 40 countries in all including the smaller ones of
the Azores, Azerbaijan, Gibraltar, Honduras, Namibia, Puerto Rico and Saint
Lucia.
Visit the revised website at www.illw.net/ to check out the full list of
entries, read more details or register for the International Lighthouse and
Lightship Weekend on August the 20th and 21st.

Folks,
I have been told that the transmit frequency of Both operations
is currently in dispute.
It could be that BOTH will be transmitting on or about the same
frequency. This will
cause major problems for those trying to work one or the other. So be
sure of the call sign
your work and log. Surely this minor detail between the two groups
will be resolved before
ON THE AIR time.

FRANCE: POSTAL RATES ---> French postal rates for priority letter items (up to 20g) mailed abroad have increased since 1 July:
0.77 EUR European Union countries and Switzerland
0.89 EUR rest of the world
A postage calculator on-line service can be found at www.laposte.fr.

NOT THE MANAGER ---> "For some reason I am getting more and more QSL cards for RK3AZY/1", Ric, DL2VFR says. However, he is not and has never been the QSL manager for this station.

QSL DZ1P ---> "The DZ1P (11-13 March, OC-091) cards were printed and shipped on 11 June", VE7DP says, "but delivery has been delayed due to a recent postal strike in Canada. The package should arrive some time this month - PSE QRX, all direct requests will be attended to promptly".

QSL FT5 ---> Les Nouvelles DX has printed a small batch of cards for FT5ZB (Amsterdam, 1988), FT0ZB (Amsterdam, 1988) and/or FT2XE (Kerguelen, 1988). If you still need a QSL, you can send your request to F3CJ, either direct (Joel Cathelain, Les Antennes, 4 hameau des Tilleuls, 62118 Pelves, France) or via the bureau. [TNX F6AJA & Les Nouvelles DX]

+ SILENT KEYS + FOC and HSC member Jens Sperling (DL7AKC) passed away at 45 years of age. A 100% CW operator, he took part in the D68C (2001), 3B9C (2004) and 3B7C (2007) DXpeditions.
Timothy Lloyd Anderson (K0OR) lost his life on 16 July when a communications tower he was helping dismantle was blown over by a gust of wind. Tom Embree (NC0K) was seriously injured in the accident.
Scott A. Lehman (N9AG) passed away on 19 July. A top-notch contest operator, he was also the QSL manager for J64AS, J68AS, J6A (1998 only), J6DX, J6LSC, PJ2/K9SG, PJ2C (March 2003), PJ2H (March 2002), PJ2HQ, PJ2Z(October 2001) and PJ2T (he answered "literally hundreds of thousands QSL requests", N0VD says. "If you are waiting for a PJ2T confirmation,

please be patient").
Other recently reported Silent Keys include Pericles Costa Lima (PT7BR), V. Rajan Henry (VU2HY), M. V. P. Kini (VU2SX) and Stig E. Ekblad (W2JWF).

UPDATEfrom Fabrizio IN3ZNR/WH0Q:

Just to let you know, we?ve still 16 more days stay in Juba, South Sudan.
The pileups are terrific, but really hard going on 15& 20m. Please keep
cool everyone! Target for the next few days is to give a new DXCC to all
callers. Next week we plan to move around on the bands more. Thank you for
your time trying to work us. Greetings from Juba!

Message from Rick, K6VVA
(Sent from Barrow, Alask)

Mike/K9AJ and I obtained a Land Use Permit to access and activate NA-172 after our NA-242 operation (3,875 QSOs with 2 man team), but are now rescheduling for July, 2012. This was due to questionable propagation and the auoral zone effects which affected us in NA-242). We also want to make
it a longer activation to give more IOTA Chasers an opportunity for a QSO.

As it turned out, our plane for the return from NA-242 to Barrow was delayed
which would have further reduced our already limited QRV plans for NA-172.
While here in Barrow, today we had a helicopter QRX to take us out for a close up recon flight of NA-172, but could not make the trip because of the
local fog problems all day long.

Most importantly, SAFETY concerns always rule. Had we managed to get on the
Island, even with Bear Guards, the dense fog would have meant limited visibility and NOT a safe situation.

Stay tuned for further details about NA-172 in 2012.

FYI & 73 from Barrow, Alaska (The Top Of The World)..

Rick, K6VVA & Mike, K9AJ

Hi Gang,

Beginning Saturday, July 30, and going till August 5th, Steve KD0ETC and a
group of kayakers will be visiting several islands in the Apostle group in
Wisconsin. The plan is to activate a few of the lighthouses along the way and to provide the US Island hunters an opportunity to work a new island as
well. Here are the islands with the ARLHS numbers for the lights and their
U S Island Award numbers:

YORK ISLAND (base camp) (no LH) WI-017
SAND ISLAND ARLHS USA-722 WI-018L

RASPBERRY ISLAND ARLHS USA-688 WI-019
DEVILS ISLAND ARLHS USA-228 WI-015

***(Note: the "L" following WI-018 indicates this is a LAKE island in US-I
parlance. The three other US-I numbers have no designator, implying they have not been activated before or not "qualified" by having attained the required 25 QSOs. Hopefully we will remedy that situation. Also note that LAKE
islands DO NOT QUALIFY for IOTA.)

Steve plans to be on the air from 1500 UTC until 2100 UTC each day, BEGINNING ON SUNDAY, JULY 31st....but maybe, just maybe, late on Saturday evening
if they get an early start. There are also several contingencies to be aware of, especially weather conditions, so be patient and considerate of what
these gentlemen are trying to do.

Proposed frequencies are the normal ARLHS 20 and 17 meter spots, but keep in mind we have the IOTA Contest this weekend, so we might find Steve above
14300 if 20 is crowded. That is why spotting will be so important. If you hear or work Steve, please post the TIME and FREQ, plus the LH and island numbers if possible. I am told there is no 40 meter capability this trip so
please don't ask.

QSL INSTRUCTIONS:
Please QSL direct only to KD0ETC with a Self Addressed Stamped Envelope (S.A.S.E.) No exceptions.

Good luck to Steve and his three partners and happy hunting to all you LH and island chasers.

Jim KA3UNQ

IOTA CONTEST ---> The following stations have announced their participation in this year's RSGB IOTA Contest (from 12 UTC on 30 July through 12 UTC on the 31st). For lastest additions please give a look at www.rsgbiota.org, and at the announced operation lists maintained by
Ric, DL2VFR (www.iota-expedition.com/IOTA2011/iota2011.html)
and Bill, NG3K (www.ng3k.com/Misc/iota2011.html)
Other groups will be activated during the weekend, but advance information did not mention if the operators participate in the contest. Full details on the IOTA Contest can be found at www.iotacontest.com
SWLs please note that the IOTA SWL Contest has been picked up by the Mediterraneo DX Club (www.mdxc.org/swl/index.php), in cooperation with the RSGB HF Contests Committee, and it will be held in parallel with the IOTA Contest.
Good luck to you all!

GTC CW CUP ---> The first Greek Telegraphy Club CW Cup will run from 12 UTC on 24 September through 12 UTC on the 25th. Email Stathis Maliakis, SV5DKL (sv5dkl[@]rho.forthnet.gr) for complete details. [TNX SV5DKL]

NA-172 ---> Rick, K6VVA and Mike, K9AJ went QRT from NA-242 on 25 July, after 3875 QSOs. The trip to NA-172 has been cancelled because of "a combination of poor HF conditions and a limited amount of available time on the island, in addition to the trouble of changing existing travel arrangements". It will be rescheduled for July 2012. [TNX W6SC]

NA-198 ---> VE9MY, VE9GLF and VO1DK had to cancel their activity from Little Bell Island (NA-198) [425DXN 1055] because of inclement weather conditions. [TNX VE9MY]

QSL AP2ARS ---> Dragan, 9A6W has been guest operating from AP2ARS (the Pakistan Amateur Radio Society's station in Islamabad) for a few days. He will leave the country on 3 August. QSL for this operation only via 9A6W. [TNX The Daily DX]

QSL IL3A ---> Bureau cards for the Extreme DX & Contest group's activities from the Venice Lagoon islands can be requested by email from the QSL manager IK3HHX (mariohhx[@]tiscali.it). [TNX IZ3EBA]

QSL PJ2T ---> The new QSL manager is W3HNK. QSL cards that have already been sent to the late N9AG (SK) will be forwarded to W3HNK, so there is no need to resubmit. Future logs will continue being uploaded to LoTW. [TNX The Daily DX]

ST0R ---> The ST0R log search is now current for QSOs made between 15.36 UTC on 22 July and 13.18 UTC on he 29th. A total of 47,011 QSOs has been made with 14,235 unique callsigns.
Check www.dxfriends.com/SouthernSudan2011/ for log updates, news from the team in Juba and pictures.

Qsl Managers, if you have any any changes to the stations you manage lately, or some of your stations are doing a DXpedition or Special Event, I would like to have the info.

Mainly DX Call Sign, Manager, IOTA info if any and Direct, Bureau, LOTW, OQRS in any mix.

Thank you
John K1XN @ The Golist, Qsl Manager Database systems.

10286. ON4QM

Yahoo group: GOLIST (2011 — 2012)
Date: 2011-08-02 22:45:19 UTC
From: ALAN ZACK
Topic: 10286 Message: 10286

SK Marcel Dehonin (ON4QM) passed away after a
long illness. He will be remembered mainly for his operations from the Pacific, such as A35DM, FW5XX, H44QM, ZK1DM, ZK2XX, ZK3DM and FO0DEH from several rare IOTA groups in French Polynesia and the Austral Islands.

Does anyone know if somebody has his logs and has taken up his QSL's for his IOTA

Expeditions? He operated from several very rare IOTA QTH's. QSL's sent to his QRZ.COM

address before his death remain unanswered.

HAMs in Portugal and Slovenia get more space for amateur radio on the 6m band. Starting from Apr 4, 2012, amateur radio operation on 6m is allowed on 50-52 MHz in Portugal (at the moment on 50,0-50,5 MHz). The Portuguese PTT explains that with the shutdown of analog television. Slovenian HAMs can work on 5260 kHz with 100 watts - for one year. [Southgate ARC]

VP8DMH rides again...

After thinking that my time down South was done, it seems I'm going back.

The British Antarctic Survey have offered me a summer post for the coming season. This time I'll be going to Halley, between the end of December and the beginning of March.

Halley is the second-largest station, after Rothera where I was stationed last time. There has not been much recent amateur activity from the station to my knowledge, which I hope to rectify! As well as the opportunity to activate Halley 5 (the current base), this year sees the commissioning of the new base at Halley 6.

The short summer season will obviously be very busy, especially with the commissioning of the new station, but my intention is to put both the old and new base on the air as time permits.

Off to Cambridge tomorrow to consign my trusty K3 for shipping...

73, Mike, VP8DMH / M0PRL

WP4FE receives 9N1FE callsign -
My name is Fernando Cardona from Puerto Rico, USA (WP4FE), I got my Nepal license (9N1FE) last week and will be active occasionally, only in 20M, when I

have some free time since I am working here in a mission Hospital (Scheer Memorial Hospital of the Seven day Adventist Church in Banepa, Nepal, that is located 30 kilometers East of Kathmandu). I am using a old Kendwood TS-120S with a comet H422 antenna in V, 25 to 30 meters high in top of a water tank.
Thank you 73, Fernando 9N1FE

FOR IMMEDIATE RELEASE-Malpelo DXpedition 2012
August 5, 2011
Contact: bob@...

The Malpelo 2012 DXpedition is pleased to announce that the HK0NA operating
team is now complete with 16 operators. This is an international team of excellent operators, representing 8 different countries, and includes 3 members of the CQ DX Hall of Fame.

The team will depart from Buenaventura, Colombia on January 22, 2012 for the
235 mile trip to Malpelo. Depending on sea and landing conditions, we expect to be QRV within 36 hours after landing for about 10-12 days. The team will return to Buenaventura on Feb. 6, 2012

Operations are planned on 160 through 6 meters on CW, SSB and Digital modes.

We wish to thank Elecraft for the loan of seven K3 transceivers and five of
the new KPA 500 amplifiers. RF Concepts (Alpha) has agreed to loan the team
three Alpha 8410 amplifiers for use on the low bands and DX Engineering will
supply most of the DXpedition antennas.

Thanks to N2OO and the SJDXA who have graciously agreed to handle QSL duties. You may recall the expert job they did for 3Y0X and K5D recently.

Contributions are being sought from DX Foundations, DX Clubs and individual
DXers. Your financial assistance is kindly requested. You may contribute
directly to DXARC (Colombia) or to K4UEE (North America), DJ9ZB (Europe), or JA1ELY (Asia/JA). See our website: www.hk0na.com for further
details on how you can help.

We plan periodic press releases with information of interest. Also, watch
the website for breaking news.

Thanks,
Jorge Prieto, HK1R

DXpedition leader

F - Geoffrey, F4FVI and Chris, HB9ELV will be active as TM0NOI from Noirmoutier Island (EU-064) on between 12-14 August. QSL via F4FVI (bureau) or HB9ELV (direct). Further information can be found at qrz.com under TM0NOI.
GU - Bob, M0MCV will be active holiday style as MU0MCV from Guernsey (EU-114) on 9-16 August. QSL via home call, direct or bureau. [TNX M0MCV]
HK0_m - The team for next year's DXpedition to Malpelo [425DXN 1041] is now complete and includes HK1MW, HK1N, HK1R, HK1T, HK1X, HK3JJH, DJ9ZB, K4UEE, K5YY, LU9ESD, OH0XX, VE7CT, W6IZT, WB9Z and YV5SSB/6. They will depart from Buenaventura, Colombia on 22 January 2012 for the 235 mile voyage to Malpelo. Depending on sea and landing conditions, they expect to be QRV within 36 hours after landing for about 10-12 days. The team will return to Buenaventura on 6 February.
Operations are planned on 160-6 metres on CW, SSB and digital

modes, from two operating sites with 6-7 stations QRV on open bands. "Our antennas will be strategically deployed to maximize our signal and to ensure DXers worldwide will have an opportunity to QSO us. We expect to dedicate one antenna solely to Asia as that direction is usually blocked by a mountain top". QSL via N2OO. Contributions are being sought from DX Foundations, DX Clubs and individual DXers. You may contribute directly to DXARC (Colombia) or to K4UEE (North America), DJ9ZB (Europe) or JA1ELY (Asia). Further information on the DXpedition and details on how you can help can be found at www.hk0na.com [TNX K4UEE and DJ9ZB]

KH - A group of five operators will be active as KH7Q (QSL direct via AH6NF) from the rare Kalawao County on the island of Molokai (OC-019) during the Hawaii QSO Party, to be held from 4 UTC on 27 August through 22 UTC on the 28th (http://www.karc.net/HQP). The team will be there from 25 to 29 August, with some activity on 12, 17 and 30 metres before and after the contest as time permits. [TNX KH7U]

LX - Look for Alex LX/PA1AW, Ronald LX/PA3EWP, Dennis LX/PA7FM and Jo LX/PA9JO to be active from Wiltz, Luxembourg from 30 August to 6 September. They will operate on all bands (160-2m) and modes. QSL for all callsigns via PA1AW, direct or bureau, and LoTW. An OQRS will be available on the expedition's website. On-line logs and further information can be found at http://lx2011.lldxt.nl.

PA - Will, PE1OPM and Manfred, PE1OXV will be active as PE1OPM/p from Schouwen Duiveland (EU-146) on 9-12 August. QSL via PE1OPM, direct or bureau. [TNX rsgbiota.org]

PJ7 - Travis, AF6WU and Kjerstin, KJ0DVA will be active as PJ7/homecalls from Sint Maarten (NA-105) on 11-15 August. They will operate SSB mainly on 15, 17 and 20 metres. QSLs via AF6WU (direct preferred) and LoTW. [TNX VA3RJ]

PJ7 - Isao, JH1ROJ will be active from Sint Maarten possibly as PJ7ROJ on 18-25 August. He plans to operate CW and SSB on all bands, with 500 watts, a HF6V and a 2-element beam for the higher bands. QSL via home call and LoTW. [TNX JH1ROJ]

SM - Hans, DK3PZ will be active as SM1/DK3PZ from Gotland Island (EU-020) on 13-20 August. QSL via home call, bureau or direct. [TNX rsgbiota.org]

UA - Celebrating the 90th anniversary of the Komi Republic, special event callsign UE90K will be in use from various Districts until 31 August. Further information can be found at http://srr.komi.ru/contest/komi90/grafik_en.html. QSL via UA9XL.

W - A group operating as K1HRO/1 will be active from the White Island lighthouse, White Island (Isles of Shoals) on 7 August. They plan to have two SSB stations and one CW station. [TNX The Daily DX]

W - Butch, N8CHS will be active as N8CHS/4 from Santa Rosa Island (NA-142) on 7-12 August. QSL direct to home call. [TNX rsgbiota.org]

W - The Old Barney ARC (www.obarc.org) will operate again as W2T from the Tucker's Island lighthouse (USA-911) located in the Tuckerton Seaport on 13 and 14 August, from 13 UTC through 21 UTC each day.

Operation will be primarily on 40, 20 and 17 metres SSB with two stations. QSL via N2OO. [TNX N2OO]
W - Special memorial station N3U will be active on 8-15 September in remembrance of United Flight 93 and the tragic events that occurred on 11 September 2001. QSL via W3PN. [TNX W3BTX]
YB - John, 9M6XRO and Steve, 9M6DXX will be operating holiday style as YB9/GM3OOK and YB9/G4JVG from Bali (OC-022) from 12 to 15 September on a stopover while on their way to Timor-Leste for the 4W6A DXpedition. Activity will be part time but on all bands 6 to 80m using CW and RTTY (YB9/GM3OOK) and SSB (YB9/G4JVG) using 100W to beam antennas. QSL both YB9/GM3OOK and YB9/G4JVG via M0URX, direct, bureau, LoTW and OQRS (see www.m0urx.com). [TNX 9M6DXX]
ZL - Paul, ZL4PW will be active as ZL4RUGBY between 19 August and 31 October to celebrate the playing in New Zealand of the 2011 Rugby World Cup. QSL via home call, direct or bureau, and LoTW. [TNX ZL4PW]

IOTA TOUR ---> Alessandro, IZ4AMS will be active as DL/IZ4AMS from Helgoland Island (EU-127) on 11-13 August and as PA/IZ4AMS from Texel Island (EU-038) on 14-17 August. He will operate holiday style on 20 metres SSB. QSL via home call, direct or bureau. [TNX rsgbiota.org]

9N0MD ---> "The Nepal 2011 team is pleased to announce a new and improved website in response to the interest our DXpedition has generated. Please visit our new site www.mdxc.org/nepal2011 to keep up to date on the status of our expedition and keep in contact with our team members and pilots". [TNX IZ8CCW]

DXCC NEWS ---> Changes have been made to the DXCC e-mail contact system and dxcc[@]arrl.org is no longer in use. "In an effort to better serve our clients", Bill Moore (NC1L) says, "we have created a number of new e-mail addresses that will be delivered to the most appropriate person depending upon the subject. Please visit http://www.arrl.org/awards-branch-contacts for a listing of the new e-mail addresses and the general topics that they cover".

ST0R ---> The remaining ST0R team members will do their "best for to keep at least 4 stations on the air during the weekend". K1LZ will be working mainly on the low bands until 10 August sunrise ("QRM and QRN levels are over 599+10 and our daily storm does not help with statics noise"). The log search is now current for QSOs made through 12.13 UTC on 5 August. A total of 96,877 QSOs have been made with 23,952 unique callsigns. Check www.dxfriends.com/SouthernSudan2011/ for log updates, news from the team in Juba and pictures.

T32C ---> The container of equipment for the T32C expedition to Kiritimati, Estern Kiribati (28 September-26 October) has reached Fiji and is due to ship soon to T32. "The team is now pretty much complete, with no less than 41 operators, some of whom will be there for the whole period, others will be there for the first or second half. At any one time there will be around 30 operators on the island, permitting us to operate round the clock on all bands with, propagation and other factors permitting, two stations QRV on each of 80 through 10". The latest Press Bulletin, issued on 2 August, and extensive information on the DXpedition can be found at www.t32c.com [TNX G3XTT]

TOP LISTS ---> The latest Topband, Topmode and Toplist listings are now available at www.425dxn.org/awards/toplist/index.html. 10299. Storage boxes for QSL card

From: ALAN ZACK
Topic: 10299 Message: 10299

Some time ago someone posted their recommendations for plastic file boxes to store QSL cards. I had thought I saved that email for future reference but now can't find it. I don't know if Outlook archived it or what. Anyway, I would like to hear from others of their recommendations. I am currently using Rubbermaid stackable boxes but have filled them up with lots of more cards to file.

Maybe best to reply to me directly as to not risk the ire of other subscribers who may not be interested.

From: "Oreste D'Anzilio, IZ8EDJ"<iz8edj@...>

Dear DXers,

As you know, the long awaited activation of Malpelo Island is scheduled for the late January/early February of 2012. Malpelo Island is currently ranked # 12 world-wide among the most needed DXCC entities! This 2012 Dxpedition will be led by Jorge, HK1R and include five Colombian operators and 11 foreign operators representing 7 countries. Included are three members of the CQ DX Hall of Fame..DJ9ZB, K4UEE and K5YY. SEE:www.hk0na.com for a complete list of operators.

The last major operation from Malpelo Island was in 1990, although there have been several short visits to the island since. Our QSO goal is to exceed the total number of QSO made by all the previous DXpeditions combined. That should give everyone a good shot a putting HK0NA is their log on several bands and modes.

The team will be QRV on 160m-6m, CW, SSB, and Digital modes. Elecraft will be supplying the team with seven K3 transceivers and several of their new KPA 500 amplifiers. Alpha will supply some of their High Power 8410's for the low bands and DX Engineering will supply many of the antennas to be used. We plan to have two operating sites and 6-7 stations QRV on open bands/modes. Our antennas will be strategically deployed to maximize and our signal and to ensure DXers worldwide will have an opportunity to QSO us. We expect to dedicate one antenna solely to Asia as that direction is usually blocked by a mountain top.

Fifeteen team members will take three weeks off work and away from home and pay all their transportation cost to Colombia and back. The team is hopeful that the DX community at large will contribute the remainder of the needed funds. This includes contributions from DX foundations, DX clubs, corporate sponsors and individual DXers.

So, please consider a generous contribution to this project. Have your club or organization's logo included on our QSL card by contributing $500 or more; $250 to have your club's name included on the card. Individual contributions of $100 or more will be listed on our QSL card. Everyone who supports the DXpedition will be listed and thanked on our website.

We encourage you to visit the Malpelo DXpedition website (www.hk0na.com) and donate via the PayPal link. It's free and easy. You can contribute with a major credit card, AND you don't even have to have a PayPal account to do it! If that is not convenient, you may print the contribution from provided there and mail in a check or money order.
All checks should be made payable to: Bob Allphin (North America) or Franz

Langner (Europe). Please indicate on the "for" line: "Malpelo Island 2012".

Please send all contributions to their respective addresses shown on
QRZ.com.

The team of experienced amateur and friends prepared a serious amateur expedition to the far island Rotuma, which belongs to the state Fiji, but it is very important for the amateur, because it counts as a separate country by DXCC list. Our goal is to activate the beautiful island of Rotuma in all amateur frequency from 1.8 MHz to 144 MHz and all amateur modes. Our team will work CW, SSB, FM, RTTY, SSTV, PSK etc...

TEAM is: YT1AD, K3LP, K1LZ, UA4HOX, PY5EG, WD5COV, SV2BFN, AA4NN, N6PSE, YT3WW, UA4HBW, RU4SU, JT1CO, JT1DO, LZ1VVV, HL5FUA, RW4NW, YT3W.

Landing permit and amateur radio license for CAL 3D2R already existing.

The team of experienced amateur and friends will gather at the 24th Fiji September 2011 and expect a departure from the port of Suva 25th In September 2011 around noon. The journey takes 36 hours. We expect the first activity at amateur frequencies on 27th September 2011 and will be active the next 10 days. Return to Fiji is expected 8.oktobra 2011 in the morning in the same harbor where we came from!!

We hope that the whole amateur world will enjoy the amateur activity and QSO's with our team.

==========
LOOKING AHEAD -

20/08/2011: From 20 until 22 August, Geoff MM5AHO and crew (ILLW UK0122) will operate maritime mobile from a 10m yacht on Scotland's west coast visiting inaccessible lighthouses. This year prime target destinations are Skerryvore (BARLS A4096, ARLHS SCO-060, TWLHD WLH GM-021, WLOTA 1453, WAB NL82), which is 12 miles off Tiree (EU-008, IOSA NH04, SCOTIA DI10) in the Atlantic, and Dubh Artach [pronounced "doob arr-tack"] (BARLS A4098, ARLHS SCO-060, TWLHD WLH GM-021, WLOTA 1453, WAB NM10) 15 miles off the isle of Colonsay (EU-008, IOSA NH19, SCOTIA DI05). Both are rock mounted Stevenson built lights and both are subject to heavy weather. Sixty foot waves have been measured at Dubh Artach, so both operations are strictly weather permitting. In the event of poor weather, a series of lesser, but never-before-activated lighthouses will be visited. Equipment on board comprises an FT-857, running 100W into an antenna formed by the insulated backstay of the yacht's mast, plus two verticals. It is hoped to land on each rock, but radio operations are unsafe ashore so they will be conducted from the boat, anchored as close as is safe. QSL via MM5AHO. [G4IAR]

20/08/2011: Lee, F5MUX, will once again be active as TK5UX from the island of Corsica (IOTA EU-014, DIFM TK-001, MIA MCO-001, WLOTA 1390) between 20 August and 3 September 2011. QRV holiday style on the HF bands, mainly CW, using 100 Watts and 1/4 wave vertical. QSL via F5MUX, bureau preferred. Each contact will be confirmed via eQSL. [F5MUX]

21/08/2011: Anja, DH2AK and Torsten, DL1THM will be active as PJ2/homecall from the island of Curacao (IOTA SA-099, WLOTA 0942) between 21 August and 8 September 2011. QRV holiday style on the HF bands. QSL via home calls, bureau or direct. [DE0MST]

25/08/2011: Five operators from Oahu will travel to the Kalaupapa, Molokai peninsula, island of Molokai (IOTA OC-019, USi HI015S, WLOTA 1045) and Kalawao County, the site of Kalaupapa National Historical Park (WFF KFF-043) where Hawaii residents and others who were afflicted with leprosy (today called Hansen's disease) were exiled. The team will be there from 25-29 August 2011,

operating up to 2 stations on 40-10 metre SSB and CW in the Hawaii QSO Party (27-28 August). Before and after the contest they may be on WARC bands as time permits. Callsign will be KH7Q. QSL via AH6NF or operator instructions. The group will not have real-time Internet access while there. Website: www.karc.net/HQP [KARC]

04/09/2011: Fred, K9VV / NP2X, will be active as PJ6/NP2X from the island of Saba (IOTA NA-145, WFF PAFF-027, WLOTA 2043) from 4-9 September 2011. Holiday style activity on the HF bands using mostly CW, with a little SSB, using 100 watts and wire antennas. No digital modes or 6m operation. When the bands are poor, Fred will be scuba diving! QSL via K5WW. [NG3K]

15/09/2011: Christo, LZ3FN, will be active as SV9/LZ3FN from the island of Crete (IOTA EU-015, GIOTA KRS-005, MIA MGC-005, WLOTA 1400) from 15-24 September 2011. QRV on the HF bands using CW and SSB. QSL via home call. [NG3K]

10/10/2011: John, W5JON and XYL Cathy, W5HAM will once again be active as V47JA and V47HAM respectively from Calypso Bay, island of St. Kitts (IOTA NA-104, WW Loc. FK87PG), between 10 October and 5 November 2011. QRV on 80-6m SSB (including 60m). John will also participate in the CQWW DX SSB Contest (29-30 October) as a Single-Op/All-Band entry. QSL both callsigns via W5JON (QRZ.com) [NG3K]

01/12/2011: Look for Bill, K9HZ to be active from Rum Point, Grand Cayman Island (IOTA NA-016, WLOTA 1042, WW Loc. EK99II) as ZF2HZ in December 2011. QSL via home call. [dx-world.net]

18/02/2012: Jim, N6TJ, will once again be active as ZD8Z from Ascension Island (IOTA AF-003, WLOTA 1491) for the ARRL DX CW Contest (18-19 February 2012) as a Single-Op entry. Look for some pre and post contest activity also. QSL via AI4U, bureau or direct. [NG3K]

==========

SPECIAL EVENTS -

19/08/2011: Special event station ZL4RUGBY will be active between 19th August and 31st October 2011 from the South Island of New Zealand (IOTA OC-134, WLOTA 0342) for the 2011 Rugby World Cup (www.rugbyworldcup.com/), which will be held in various locations of New Zealand between 9 September and 23 October. Expect activity on all HF bands. QSL via ZL4PW, direct (QRZ.com) or via the bureau. NO eQSL. Logs will be uploaded to LoTW. Website: www.qrz.com/db/ZL4RUGBY [ZL4PW]

RAC Bulletin 2011-023E - Deputy Director Appointed at St. John's AGM.
2011-08-07

The 2011 AGM was hosted by the Society of Newfoundland Radio Amateurs [SONRA].

Atlantic Director Everett Price, VO1DK, took advantage of the recent AGM in St. John's Newfoundland to announce the appointment of Len Morgan, VE9MY, to the newly created position of Deputy Director for the Atlantic Region.

Len is well known to the Region having served as Atlantic Director for two terms ending in December 2010. This appointment will allow for greater representation for Atlantic members. Everett, VO1DK is a resident of Newfoundland and Labrador while Len 's home is in New Brunswick.

The position of Deputy Director was approved by the membership at the Halifax AGM in 2010 and subsequently approved by the federal government in February 2011. The Deputy Director position provides for continuity of organization and greater access by members. The Deputy differs form the position of Assistant Director in that the incumbent fullfills the duties of Director when the Director is not available and serves as an observer at Board meetings.

DXCC DIGITAL AWARD ---> In accordance with Minute 29 of the July 2011 ARRL Board of Directors meeting, the DXCC award for RTTY is now changed to Digital. Digital will now replace RTTY on these certificates effective 25 July 2011. [TNX NC1L]

HF-DX CONVENTION ---> The VI International HF-DX & Contest Convention organized by ARI Catania (www.arict.it) will be held at the President Park Hotel (Acicastello) on 10-11 September. Main speakers will include I2VGW, I8NHJ, IT9EJW, IT9IZY, IW9GTN, YT1AD and I1JQJ. Please contact Santo Coppola, IT9ICS (santocoppola[@]tin.it) for further information. [TNX IT9ICS]

ILLW ---> The 14th annual International Lighthouse/Lightship Weekend, Conducted under the sponsorship of the Ayr Amateur Radio Group, will take place from 00.01 UTC on 20 August until 23.59 UTC on the 21st. Complete information on this popular event, including a list of participating stations (412 so far), can be found at http://illw.net/

JARVIS ISLAND 2012 ---> The DXpedition to Jarvis Island organized by Radio Expeditions Inc [425DXN 1009] has been postponed once again, this time to November-December 2012, "due to a scheduling conflict with the Braveheart".

ROCKALL 2012 ---> A team of four highly experienced IOTA activators (George EA2TA, Christian EA3NT, Simon IZ7ATN and Col MM0NDX, all part of the larger MS0INT IOTA adventure group) have plans to operate from the extremely rare and dangerous Isle of Rockall (EU-189).
Accompanied by Nick Hancock, a climber with considerable experience in inhospitable places, they aim to land and stay atop Rockall for maximum 48 hours. "With research and historical data, we believe the end of May/beginning June 2012 is a viable time period to put Rockall on the air", they say. As Rockall is an isolated speck of rock surrounded by water, weather and seas will dictate the entire expedition. Near perfect landing conditions are required, and the skipper of their yacht will have the final say.
The team is seeking donations to help offset some of the expense. To donate, you can use paypal (rockall.eu189[@]gmail.com). A website is under construction. [TNX MM0NDX]

ST0R ---> ST0R (South Sudan) has been approved for DXCC credit. The DXpedition went QRT at 7 UTC on 10 August, after 121,286 QSOs (55458 CW, 47696 SSB and 18132 RTTY) with 27,994 unique callsigns.
"We are very excited about how well the ST0R DXpedition went", Paul N6PSE says. "The DX Friends and the Intrepid-DX Groups worked well together and really enjoyed our three weeks together. We are already talking about our next DXpedition/Adventure!
We are quiet happy that we met our goal of 120,000 QSOs and set a record

for RTTY contacts during a new country activation.
We wish to thank all of
our donors and supporters. Ordinarily we thank our donors with an
individual message, however the Internet in Juba was very unreliable and we
were often without any connection to the outside world other than Amateur
Radio.
This week, we held another meeting with the Engineering staff of the
Ministry of Communications to guide them in their ITU prefix application.
We are also providing them with guidance to develop and improve their
Amateur Radio program and policies". Tony, EA5RM (Team Co-Leader and QSL
manager) will investigate your 'busted call' requests, if you email him
directly.

+ SILENT KEYS + Microwave pioneer Ludovico "Vico" Zauli (I4ZAU, ex I6ZAU)
passed away on 2 August. Other recently reported Silent Keys include Mario
Borri (IK1CHM) and Nikolai N. Malikov (U3CN).

From: "Orlando Perez Filho"<pt2op@...>

Gentlemen,

Sunday, August 14th we start our trip to Macapa, capital city of Amapa State towards the activation of Parazinho Island in the Balilique archipelago, IOTA SA-045.

I, PY2XB and Orlando, PT2OP, will use PQ8XB and PQ8OP calls respectively from August 17th thru August 25th. We plan to be QRV from 10 thru 40m CW, SSB and RTTY.

The island is located in the mouth of the Amazon River, where it encounters the sea. Life in this region is governed by tides and therefore dates and boat schedules are tide dependent.
We will stay at the Parazinho Environmental Reserve. There are links for 2 shorts movies about the reserve atwww.qrz.com/db/pq8xb

Logistics are complicated to accomplish our task. Orlando had to fly to Macapa few months ago to check it all prior to our depart. We will carry fuel, food, water, batteries, spare generator, etc in a 12 hours boat trip from Macapa to Vila Progresso, a fishermen village, plus 30 to 40 minutes of small boat trip to the Reserve. All tide dependent.

There are very few operators in PQ8 land, so we will be glad to give everyone a first contact to this rare Brazilian spot and callsign.

Contacts will be valid for IOTA (reference SA-045), WLOTA (L-1123) and ARLHS (awaiting confirmation of reference number) awards. Also will be valid for DIB Brazilians Islands Diploma (reference AP-01), DFB Brazilians Lighthouses Diploma (reference AP-03), DFS South Americans Lighthouses Award, WAB Worked All Brazil (PQ8).

When returning home, we will stop over in Macapa for a couple days. We may activate S?o Jos? de Macap? fortress using our calls /PQ8 if possible.

QSLs for PQ8XB will be handled by PT7WA and for PQ8OP by PT2OP.

Additional information when available will be posted atwww.qrz.com/db/pq8xb

We would like to thank everyone who helped us to put this operation together. Special thanks to Mr. Manoel Reinaldo from Amapa Environmental Office, Policarpo-PY8JPS, and Sandro- PQ8SL, Luciano- PT7WA,
and Ed- PY4WAS e Alex- PY2WAS

I.C.P.O. Bulletin (19-26 August 2011)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

19/08/2011: The Radio Club Uruguayo will be active as CW1R from Punta del Este Lighthouse (ARLHS URU-008, Admiralty G0682), Bay of Maldonado, Uruguay, on 19-21 August for the ILLW. Plans are to have at least two stations active on 80-10 metres CW, SSB and digital modes. QSL via bureau, or direct to CX1AA (Radio Club Uruguayo, P.O.Box 37, 11000 Montevideo, Uruguay). [425 DX News]

19/08/2011: Operators Ki-Sun HL4MC, Gyeong HL4CEL, Wang-hyun HL4RBR, Kei HL2UVH, Eun-Gwang DS4EOI, Nao JA1HGY and Zorro JH1AJT will be active as D9A from Cheju Island [Cheju Do] (IOTA AS-026, WLOTA 0686, KDN M11, WW Loc. PM33GM) from 19-26th August 2011. This special callsign will be used during the 20th Asian Conference on Intellectual Disabilities from the Ramada Plaza Jeju Hotel. Activity will be on 160-10 metres, 6 and 2 metres, using CW, SSB, RTTY and FM. QSL via DS4EOI. [OPDX Bulletin]

19/08/2011: Bruce, ZL1AAO, plans to be active holiday style as E51AAO from the island of Rarotonga (IOTA OC-013), South Cook Islands, from 19-28th August 2011. The property he will be staying at is located on Muri beach, a popular resort area. QRV on the HF bands when time permits - tourist activities come first. QSL via home call. [OPDX Bulletin]

19/08/2011: A large group of operators from the Telford and District Amateur Society will be active as GP3ZME/p from the isle of Guernsey (IOTA EU-114, WLOTA 0013, Grid Loc. IN89) on 19-24 August. They plan to be QRV on 80-10 metres, as well as on 6 and 2m and the SHF bands. QSL via G3ZME, bureau preferred. [425 DX News]

19/08/2011: Aki, JA1NLX, is planning to operate as JA1NLX/VK4 from Lizard Island (IOTA OC-187) on 19-23 August, 2011. Lizard Island is located about 240Km north of Cairns, Queensland. He plans to be QRV for three or four days in August on HF CW and SSB. Exact details are not fixed yet. [dx-world.net]

19/08/2011: Taka, JA8COE, is currently active the island of Yagishiri (IOTA AS-147, WLOTA 2512), Hokkaido Prefecture, Rumoi Subprefecture, Tomamae District, as JA8COE/8 until 20 August 2011. QSL via home call (QRZ.com). The island (Yagishiri To) is most notable for the beauty of its nature. Much of the islands surface is covered with untouched forests, especially of Taxus cuspidata, the Japanese Yew. Thus, it was designated a part of Shokanbetsu-Teuri-Yagishiri Quasi-National Park (WFF JAFF-034). [rsgbiota.org]

19/08/2011: Look for Jari OH1BOI, Sral OH1W and Hannu OH1JJO to be active from the island of Vormo (IOTA EU-097, WW Loc. KP20CA, OHC208 Inkoo), using the callsigns OH1AV/2 and OH1N/p, from 19-21 August 2011. QRV on all HF bands,

propagation permitting, CW/SSB/Digi modes. QSL goes via OH1BOI, bureau or direct. [rsgbiota.org]

19/08/2011: Members of the Hellenic Amateur Radio Association of Australia (HARAOA), namely Tommy VK2IR, Raffy VK2RF, Binu VK2BNG, Al VK2VEC and possibly others will be active as VK2CL from the Montague Island (IOTA OC-223) Lighthouse (ILLW AU0071, ARLHS AUS-110, TWLHD WLH VK-049, WLOTA 0722, Admiralty K2576, WW Loc. QF53CR), New South Wales, Australia, from 19-22 August. Activity is mainly for the International Lighthouse-Lightship Weekend (20-21 August). QRV on the HF bands, propagation permitting. QSL VK2CL via VK2IR. Website: www.haraoa.com/ [NG3K]

19/08/2011: Operators Trevor VK3ATX, Dan VK3DWH, Mick VK3CH and Urey VK3ATA are currently active as homecall/p from Gabo Island (IOTA OC-196) and lighthouse (ILLW AU0080, ARLHS AUS-078, TWLHD WLH VK-031, WLOTA 1031, WW Loc. QF42WK) until 21st August 2011. This will include an entry in the International Lighthouse-Lightship Weekend (20-21 August), using the callsign VK3ATX. Plans are to be QRV 80-20 metres with delta loop antennas. QSL via home calls. Suggested frequencies will be posted at: vk3atx.net/ [rsgbiota.org]

20/08/2011: Jose CT1DSV, Antonio CT1ENV and other operators will be active on 20-21 August 2011 from the Fort-lighthouse of Barra [Aveiro] (WCA CT-00357, DMHP AV-011, DFP FBL-01, ARLHS POR-101) using the special callsign CR5L. QSL via CT1DSV. [RN1CW]

20/08/2011: Jorge CT1EXR, Lutz CT1JNQ, Angel CT1JTQ and Alex CT5KAO will be active as CR5LSV from the Cape Sao Vicente lighthouse (ILLW PT0011, ARLHS POR-012, DFFA Fa-01, DFP FAL-01, PFFP FP-059, Admiralty D2168), Southwestern Alentejano and Costa Vicentina Nature Park (DPRN FF-012, WFF CTFF-012), for the ILLW (20-21 August). They plan to operate CW, PSK31, RTTY and SSB on 80-10 metres. QSL via operator instructions. [425 DX News]

20/08/2011: Carlos CT1CSY, Jose CT1GZB and Rafael CT2JXT will be active as CR6LH from the Cabo da Roca lighthouse (ILLW PT0015, ARLHS POR-007, DFP FES-01, Admiralty D2108), Sintra-Cascais Nature Park (DPRN FF-011, WFF CTFF-011) for the ILLW (20-21 August). They plan to operate SSB, RTTY, PSK31 and QRS CW on the HF bands. QSL via CT1GZB. [425 DX News]

20/08/2011: The Association of Radioamadores of the Village of Moscavide (ARVM) will be activate as CS2HNI from the premises of the lighthouse (ILLW PT-0012, DFP FES-12, ARLHS POR-021 at Forte do Cavalo - Sesimbra (DCFP F-038, DMHP ST-028, WCA CT-00214) during the International Lighthouse-Lightship Weekend (20-21 August). QRV on 40, 20, 15 and 10 metre SSB. QSL saw CT1RVM, bureau preferred. Note: This is the special event station "in memoriam" of our beloved Friend Arthur Gil, CT2HNI. [AVRM]

20/08/2011: A few hams from the Clubstation VFDB e. V. Ortsverband Moers - Kreis Wesel Z63, Duisburg, Germany, will test several monoband verticals (80m-10m) as DL0M using large kites flying up to 100m high. Listen for DL0M in CW, SSB and digital modes on the 20th and 21st of August 2011. Reports are welcome, also via e-mail to marcus -at- dl1mh.de [DX Newsletter]

20/08/2011: From 20 until 22 August, Geoff MM5AHO and crew (ILLW UK0122) will operate maritime mobile from a 10m yacht on Scotland's west coast visiting inaccessible lighthouses. This year prime target destinations are Skerryvore (BARLS A4096, ARLHS SCO-060, TWLHD WLH GM-021, WLOTA 1453, WAB NL82), which is 12 miles off Tiree (EU-008, IOSA NH04, SCOTIA DI10) in the Atlantic, and Dubh Artach [pronounced "doob arr-tack"] (BARLS A4098, ARLHS SCO-060, TWLHD WLH GM-021, WLOTA 1453, WAB NM10) 15 miles off the isle of Colonsay (EU-008, IOSA NH19, SCOTIA DI05). Both are rock mounted Stevenson built lights and both are subject to heavy weather. Sixty foot waves have been measured at Dubh Artach, so both operations are strictly weather permitting. In the event of poor weather, a series of lesser, but never-before-activated lighthouses will be visited. Equipment on board comprises an FT-857, running 100W into an antenna formed by the insulated backstay of the yacht's mast, plus two verticals. It is hoped to land on each rock, but radio operations are unsafe ashore so they will be conducted from the boat, anchored as close as is safe. QSL via MM5AHO. [G4IAR]

20/08/2011: During the International Lighthouse and Lightship Weekend (August 20-21st) the special callsign PG6HK will be active from the old lighthouse in Harderwijk [aka De Vischpoort](ILLW NL0038, ARLHS NET-162), Netherlands. The team will be active on several modes on HF and VHF. Operators include Cil PA1RBZ, Gert PA2LO, Michel PD0JMB, Ben PD0PDB and Jack PD2J. QSL via PA2LO, bureau preferred. Website: www.PG6HK.com/ [OPDX Bulletin]

20/08/2011: Look for the PG6N team to be active on 20-21 August 2011 for the International Lighthouse-Lightship Weekend from the Noordwijk Lighthouse (ILLW NL-0009, ARLHS NET-019, WW Loc. JO22FF). QSL via PA7DA, bureau preferred. [PA7DA]

20/08/2011: Lee, F5MUX, will once again be active as TK5UX from the island of Corsica (IOTA EU-014, DIFM TK-001, MIA MCO-001, WLOTA 1390) between 20 August and 3 September 2011. QRV holiday style on the HF bands, mainly CW, using 100 Watts and 1/4 wave vertical. QSL via F5MUX, bureau preferred. Each contact will be confirmed via eQSL. [F5MUX]

20/08/2011: Members of the Ipswich & Districts Radio Club will be active as VI4FI during the International Lighthouse-Lightship Weekend (20-21 August) from the Sandy Cape lighthouse (ILLW AU0043, ARLHS AUS-148, TWLHD WLH VK-059, WLOTA 2976, WW Loc. QG65OG), Fraser Island (IOTA OC-142, WFF VKFF-186), Queensland, Australia. QRV on 80-10 metres, SSB only. Operators currently are Paul VK4FPDW, Derek VK4MIA, Mike VK4QS and Graham/VK4FGCC. QSL to VK4MIA direct (QRZ.com) and eQSL. Website: www.sandycape2011.com/ [dx-world.net]

20/08/2011: The Great South Bay ARC will be operating as W2GSB/LH from the Fire Island (IOTA NA-026, USi NY013S) lighthouse (ILLW US0019, ARLHS USA-286, TWLHD WLH K-060, WLOTA 1922), Suffolk County, New York, for the International Lighthouse-Lightship Weekend (20-21 August). The operators will be Walter KA2CAQ, Bob K2TV, John K2IZ, Alice KC2VLV, Bill W2ANQ, Joe KC2RJW, Pete WB2OQQ, Tom KA2D, John W2JGH and John W2HCB. QSL direct with SASE/SAE + sufficient postage to W2GSB (Fire Island LH, PO Box 1356, West Babylon, NY 11704 USA). Website: www.gsbarc.org/ [rsgbiota.org]

20/08/2011: Bill, W7KXB/p, will activate the Patos Island Lighthouse (ILLW US0123, ARLHS USA-584, TWLHD WLH K-117, WLOTA 4138), on Patos Island (IOTA

NA-065, USi WA047S), San Juan County, Washington, for the International Lighthouse-Lightship Weekend (20-21 August). Expect activity on most HF bands. QSL via his home call (QRZ.com). [ILLW]

20/08/2011: A team of operators from the Radio Club Provincial Chiloe (CE7BLI) will be active as XR7F from the Punta Corona lighthouse (ILLW CL0020, ARLHS CHI-013, WLOTA 0750), located on Isla Grande de Chiloe (IOTA SA-018, DICE ICE-701) on 20-21 August for the International Lighthouse Lightship Weekend. Greetings from India!

On the occasion of International Lighthouse& Lightship Weekend (ILLW), four stations - Akshay VU2BUG, Basappa VU2NXM, Nandu VU2NKS and Deepak VU2CDP are going to be QRV as AT?ULH from Uttan Point Lighthouse (WLOL IND 119). Uttan is a small fishing village in the northern suburb of Bhayander just outside of Mumbai.

We hope to run two stations with activity focused primarily from 40m and up. 80m operation is not ruled out, condx permitting.

Further details are onwww.qrz.com/db/at?ulh

Another station VU9CLA is QRV from Alleppey in Kerala -the Alleppey Lighthouse is turning 150 years in March 2012.

With 2 lighthouses on air this weekend (Alleppey VU9LCA and Uttan AT0ULH) it gives prefix hunters a rare opportunity to work 2 unique VU prefixes. So give us a shout if you hear either of us!

[Tnx: Deepak VU2CDP]

4W6A TIMOR-LESTE (EAST TIMOR) DXPEDITION SEPTEMBER 16 ? 26, 2011
www.4w6a.com

PRESS RELEASE NUMBER 5 ? August 22, 2011

The 4W6A DXpedition is now less than one month away. Low-band operators will be pleased to hear that the team now has a Titanex V160E 87ft / 26.5m-high vertical antenna for use on 160m at 4W6A. The antenna was shipped from the manufacturers in Germany and has arrived in Darwin, Australia, from where it will be trans-shipped to Dili, Timor-Leste, later this month.

The team had previously planned to use an 18m Spiderbeam pole as the support for a 160m inverted-L. With the arrival of the Titanex vertical, the 18m Spiderbeam pole will now be used for a full-size 80m quarter-wave folded monopole vertical instead.

Other antennas include monoband quarter-wave verticals for 40, 30 and 17m kindly sponsored by Tony Burt, VK3TZ, of Rippletech Electronics in Australia, a 2-element phased array for 40m, an Australian-made Com-an-tena vertical for 10, 15 and 20m, a Butternut HF6V, a 15m vertical dipole, and a G3TXQ Hexbeam made by team member Ant David, MW0JZE. All the antennas will be located on the beach within a few metres of the ocean.

Thanks to the generous sponsorship received from many DX foundations, clubs and individual DXers, it has become possible to ship much of the heavier equipment to Dili, Timor-Leste, in advance of the expedition. The team is very grateful to all DX groups, companies and individuals that have sponsored the expedition. All are listed with thanks on the 4W6A website atwww.4w6a.com/sponsors

4W6A will be QRV from Atauro Island (IOTA OC-232), Timor-Leste (East Timor), from 16 to 26 September 2011. Activity will be on all bands 10 to 160 metres, using CW, SSB and RTTY with up to four stations simultaneously. The QSL manager is M0URX, direct (SAE plus 1 IRC / $2), via the bureau, or LoTW. The entire log will be uploaded to LoTW as quickly as possible after the end of the operation or, if possible, also during the DXpedition. Direct or bureau QSLs may also be requested using the M0URX Online QSL Request Service (OQRS) at http://m0urx.com/oqrs (there is also a link from the 4W6A website at www.4w6a.com/qsl-information).

10329. CQ CONTEST UPDATE

Yahoo group: GOLIST (2011 — 2012)
Date: 2011-08-22 13:22:05 UTC
From: GOLIST
Topic: 10329 Message: 10329
Attachments: 1 described; binary payloads are missing from this source WARC

Dear fellow contesters,

Another CQ WW season is just over the horizon. This CQ WW Contest Committee update is part of our continuing effort to keep you informed.

The new award program for assisted entrants continues to expand. Plaques now exist for high power and low power assisted for the World, Europe and the U.S.A. and certificates for all deserving assisted winners. An update to the complete list of available plaques will be posted to cqww.com in the near future.

In early October, the CQ WW CC will provide another informative Webinar. Stay tuned for the exact time and date.

This CQ WW Contest Committee update deals three subjects:

1. Compliance with Rule III.10: Only one signal is allowed on a band at any time.

2. What happens to your log after your submit it to cqww.com?

3. Paper logs

1. Beginning with the 2010 contest season, the CQ WW Contest Committee began utilizing SDR technology enabling the entire CQ WW contest to be recorded. We are grateful to several individuals for allowing us to utilize their recordings. Our purpose was two-fold: To create a ?live? archive of the CQ WW contests and to check compliance with Rule III.10: ?Only one signal is allowed on a band at any time.? The purpose was to discover whether two signals actually were on the SAME band at exactly the same time. You can find the results of our studies within the CQ WW CW results and the expanded result on the CQ magazine Web site.

For more than 40 years, multi-multi stations have utilized two or more stations on a single band. Recently, the use of two transmitters on a single band has been more broadly adopted by the MS and M2 categories as well. Many stations utilize either a software or hardware lockout device to prevent two simultaneous signals. *However, many do not.* It is almost a certainty that unless you have a lockout device, you will violate Rule III.10. *Starting with the 2011 contests we are requiring a station with two transmitters on the same band to utilize a lockout device.* New Rule III.12 addresses this issue, ?When two or more transmitters are present on a band, *either a software or hardware device MUST be used to prevent more than one signal at any one time; *interlocking two or more transmitters on a band with alternating CQs (soliciting contacts) is not allowed.?

The second part of rule III.12 concerns dueling CQs. This new rule simply expands the already existing ban on dueling CQ?s in the multi-multi category to any station with two or more transmitters on the same band. The main purpose of this rule is to prevent, for example, 50 stations from taking up 100 different frequencies on already crowded contest bands.

You can find the full rules for the CQ WW at cqww.com under RULES or in the September issue of CQ magazine.

2. What happens to your log after it received?

In summary:

A. A database is created from all submitted contacts.

B. The database is cleaned up to remove non-callsigns, etc.

C. The country file current to the contest weekend is utilized.

D. All logs are treated the same, i.e., the logs are analyzed using the same country file and callsign database mentioned above.

E. The final results are produced.

Members of the CQ WW Contest Committee are all active contesters. Log checking members do not interact or check their own category of entry.

3. The address has changed for paper logs. All paper logs should be sent to: Paper Logs, Box 481, New Carlisle, OH 45344, USA. Please mark SSB or CW on the envelope.

As always, feel free to contact usatquestions@....
Thanks and see you this fall in the CQ WW!

4W6A TIMOR-LESTE (EAST TIMOR) DXPEDITION SEPTEMBER 16 - 26, 2011

PRESS RELEASE NUMBER 5 - August 22, 2011

The 4W6A DXpedition is now less than one month away. Low-band operators will be pleased to hear that the team now has a Titanex V160E 87ft / 26.5m-high vertical antenna for use on 160m at 4W6A. The antenna was shipped from the manufacturers in Germany and has arrived in Darwin, Australia, from where it will be trans-shipped to Dili, Timor-Leste, later this month.

The team had previously planned to use an 18m Spiderbeam pole as the support for a 160m inverted-L. With the arrival of the Titanex vertical, the 18m Spiderbeam pole will now be used for a full-size 80m quarter-wave folded monopole vertical instead.

Other antennas include monoband quarter-wave verticals for 40, 30 and 17m kindly sponsored by Tony Burt, VK3TZ, of Rippletech Electronics in Australia, a 2-element phased array for 40m, an Australian-made Com-an-tena vertical for 10, 15 and 20m, a Butternut HF6V, a 15m vertical dipole, and a G3TXQ Hexbeam made by team member Ant David, MW0JZE. All the antennas will be located on the beach within a few metres of the ocean.

Thanks to the generous sponsorship received from many DX foundations, clubs and individual DXers, it has become possible to ship much of the heavier equipment to Dili, Timor-Leste, in advance of the expedition. The team is very grateful to all DX groups, companies and individuals that have sponsored the expedition. All are listed with thanks on the 4W6A website at www.4w6a.com/sponsors

4W6A will be QRV from Atauro Island (IOTA OC-232), Timor-Leste (East Timor), from 16 to 26 September 2011. Activity will be on all bands 10 to 160 metres, using CW, SSB and RTTY with up to four stations simultaneously. The QSL manager is M0URX, direct (SAE plus 1 IRC / $2), via the bureau, or LoTW. The entire log will be uploaded to LoTW as quickly as possible after the end of the operation or, if possible, also during the DXpedition. Direct or bureau QSLs may also be

requested using the M0URX Online QSL Request Service (OQRS) at
http://m0urx.com/oqrs (there is also a link from the 4W6A website at
www.4w6a.com/qsl-information).

HA South Pacific Tour rescheduled

Due to difficulties in organizing and making arrangement for the
transportation to Banaba, we decided to reschedule the HA South
Pacific Tour DX pedition to January/February 2012.

We will leave Budapest on 8 January. The operation will start from
Tuvalu, on 12 January, as T2HA. We will be back to Fiji on 26 January
and 3 days of operation can be expected as 3D2HA. We will leave for
Tarawa, on 31 January. Operation from Kiribati will take place till 23
February. We will attempt to go over Banaba for 7-10 days within this
period. We will do our best to get over to Banaba, but the exact time
of T33HA Banaba operation can be announced from Tarawa only. Two
stations will be on the air from 160-10 meters bands on CW, SSB, RTTY
and some PSK modes.

The landing permit to Banaba, licenses and flight tickets to Fiji,
Tuvalu and Tarawa are in hand. The radios, antennas, PAs and other
technical stuff have already been put together and packed. The weight
of these packages exceeds the 100 kg (200 pounds). We will bring
everything with us, as excess baggages. This DX pedition does not an
expedition with dozens of operators, neither family holiday. It will
be a "simple two men show". However our 8 weeks long operating plan,
working from 3 different rare countries, make it very expensive. We
will cover the flight tickets, accommodations and other personal
expenses. The excess baggage fees and the transfer to Banaba are
extremely expensive. Thus we are seeking support from DX Foundations
and Organisation to help us to cover the extremely high transfer
expenses to Banaba and the excess baggage fees. Personal contributions
are also welcomed. More information on http://ha5ao.novolab.hu

73 de Laci - HA0HW

Herbie (G6XOU) will be QRV as GB65ISWL from 0000Z Friday
(tonight) until 2359Z on Monday evening (29th).

QRV on PSK31 and SSB.

This callsign is to celebrate the 65 years, since the formation of the
International Short Wave League. (ISWL).

This callsign is registered with the EPC.

All the GB65ISWL details are on QRZ.com or www.iswl.org.uk

QSL - Direct, via Bureau and eQSL.cc.

This coming weekend is a Bank holiday in England, so a lot of extra
UK activity may be seen on Monday.

Very soon the ARRL will hold an election for Delta Division
Director. Mickey Cox, K5MC is our current
Diretor and has represented us well at ARRL. I urge each ARRL Delta
Division member to RE-ELECT
Mickey Cox, K5MC as our voice at ARRL.
You must vote to make your voice heard.
Thank you
John K1XN

Edited by I1JQJ & IK1ADH
Direttore Responsabile I2VGW

7Q - Harry, 7Q7HB is back at Club Makokola in Malawi until 23 November. He will be QRV when it is possible, because "at this time there is a poor electricity situation" and "diesel for generators is scarce". QSL via G0IAS (direct only). [TNX G0IAS]
9A - Special callsign 9A20V will be in use from Vukovar, Croatia until 21 November in remembrance of the tragic events of 20 years ago. Look for activity on 80-10 metres CW and SSB. All of the QSOs will be confirmed automatically via the bureau. The QSL manager for direct requests is 9A6DR. [TNX 9A6DR]
9A - Look for Silverio 9A/IK3IUL, Ampelio 9A/IK3JBP, Calogero 9A/IW3ILP and Giacomo 9A/IZ3DBA to be active from Porer Island (EU-110) on 14-16 October. They will operate mainly CW with some SSB on 80-10 metres. QSL via home call, bureau preferred. [TNX IZ3EBA]
9H - Raul, IC8ATA will operate holiday style as 9H3AT from Malta (EU-023) from 29 August to 5 September. QSL via home call.
9H - Jasper, PB2JJ will be active as 9H3JN from Malta on 2-14 September. He will operate mostly CW with some SSB on 80-10 metres. QSL via home call. [TNX NG3K]
H40 - Jacek, SP5DRH will be active as H40KJ from Pigeon Island (OC-065), Temotu Province on 8-21 October. He will concentrate on 160 metres (with a focus on Europe) as long as there is propagation otherwise he will concentrate on 80m CW and RTTY (17 and 15 metres). Further information can be found at www.sp5drh.com/h40/. QSL via SP7DQR, direct or bureau, and LoTW.
HB0 - Jan, OK1XD will be active as HB0/OK1XD from Liechtenstein between 1 and 10 September. He will operate holiday style on 80-10 metres mainly RTTY and PSK31, with some SSB and CW. QSL via home call, bureau preferred. [TNX NG3K]
I - Claudio, IZ0KRC will be active as IA5/IZ0KRC from Elba Island (EU-028) from 28 August to 8 September. He will operate holiday style on 40-2 metres SSB, CW and RTTY. QSL via home call, bureau preferred. [TNX rgsbiota.org]
I - Aldo, IK2ANI will be active as IF9/IK2ANI from Favignana Island (EU-054) on 1-6 September. He plans to operate SSB, CW and RTTY on 30-6 metres. [TNX IK2ANI]
KL - Rick, K6VVA will be active as K6VVA/KL7 from Revillagigedo Island,

Alexander Archipelago (NA-041) from around 4 UTC on 6 September until around 6 UTC on the 8th. He will operate mainly CW on 30, 20 and 17 metres with a focus on Europe and Asia, where this IOTA group is particularly needed. Later on 8 September he will move to the other side of the island for a "needed partial holiday", but he will also be QRV for North America, South America and Africa, and possibly operate the CW Sprint contest as KL8C on 11 September. QSL via N6AWD, direct or bureau. Check for updates www.k6vva.com/iota/na041/ [TNX K6VVA]
OJ0 - PG4M reports that the OJ0CC operation from Market Reef [425DXN 1059] has been cancelled. One of the team members broke his leg during the trip, and the group is returning home. [TNX The Daily DX]
ON - The Radio Club de Binche will operate special event station ON4WAR on 3 September (11-20 UTC) and 4 September (10-18 UTC) to commemorate the Belgian resistance during World War II. QSL via ON7RY, bureau preferred. [TNX F8REF]
OZ - Look for Horst OZ/DF6FL, Siegfried OZ/DL9ZE and Peter OZ/DL5FF to be active from Bornholm Island (EU-030) from 27 August to 10 September. They will operate SSB, CW and RTTY on 40-10 metres. QSL via home calls. [TNX DX Newsletter]
PA - Promoting the World Statues Festival that will take place in Arnhem at the end of next month, Fred, PA0FAW will be active as PA11WSF on 1-25 September. He will operate mainly CW and PSK31. QSL via home call, direct or bureau.
P4 - W3BTX and W3TEF will be QRV as P49T from Aruba (SA-036) from 31 August to 7 September. Expect holiday style activity on 160-10 metres SSB and CW. QSL via W3BTX. [TNX NG3K]
TU - The Italian DXpedition Team (namely Alfeo I1HJT, Silvano I2YSB, Carlo IK1AOD, Vinicio IK2CIO, Angelo IK2CKR, Marcello IK2DIA and Stefano IK2HKT) will be active as TU2T from Cote d'Ivoire in October-November (dates TBA). They plan to operate CW, SSB and RTTY on 160-10 metres with 3-4 stations. QSL direct to I2YSB. Further information, band/mode survey and OQRS can be found at www.i2ysb.com. Once again Arturo IK7JWY will be the pilot station for the expedition (it will be possibile to contact him through the dedicated forum at www.hamradioweb.org/forums/) [TNX I1HJT]
UA - Commemorating the 300th anniversary of the birth of Russian scientist Mikhail V. Lomonosov, special station R300ML will be active from various districts of Arkhangelsk Region between 1 September to 30 November. QSL via RN1ON. [TNX RN1ON]
VE - Commemorating the Centennial of Parks Canada, the world's first national parks service, special prefixes will be available for use in Canada from 1 September to 31 October. Canadian stations with a VA prefix can use CF, VY can use CI, VO can use CH, and VE can use CG.
W - Look for Wayne, K9YNF to be active as K9YNF/1 from Peaks Island (NA-137) on 25-30 September. He plans to be QRV on or around 14260 and 18128 kHz SSB and 14070 kHz PSK31, running 100 watts into a vertical dipole. QSL via home call. [TNX K9YNF]

YJ - A team of eight operators (namely Ian VK3BUF, Michael VK3GHM, Lee VK3GK, Luke VK3HJ, Dianne VK3JDI, Chris VK3QB, Ben N6MUF and Tom NQ7R) will be active as YJ0VK from Efate (OC-035), Vanuatu from 30 September to 12 October. They plan to operate three stations "as often as possible" on 160-10 metres SSB, CW and RTTY/PSK31, with an emphasis on 12, 17 and 30 metres. They have also been granted permission to operate on 60m. QSL via VK2CA, direct or bureau, and LoTW. Log search and further information can be found at http://yj0vk.odxg.org/

SOUTH PACIFIC TOUR POSTPONED ---> "Due to difficulties in organizing and making arrangement for the transportation to Banaba", Pista HA5AO and George HA5UK [425DXN 1045] have postponed their 8-week tour until January-February 2012. Activity will start on 12 January from Tuvalu (T2HA), followed by Fiji (3D2HA) on 26 January. On the 31st they will leave for Tarawa, Western Kiribati, where they will be active as T30HA until 23 February. Hopefully they will be able to go and operate from Banaba (T33HA) for 7-10 days during this time frame. They will operate CW, SSB and digital modes with two stations on 160-10 metres. QSL via HA5UK, direct or bureau, and LoTW. Bookmark http://ha5ao.novolab.hu/ for updates.

3D2XX (1988) ON LOTW ---> The computer disks have been lost, but W6SZN has the paper log. You can email your QSO data to Kip (kedwards[@]itol.com) and he will upload the requests to LoTW once a week or so. This was the first DXpedition to Rotuma. [TNX The Daily DX]

4W6A ---> The 4W6A team now has a Titanex V160E vertical antenna for use on 160 metres. They had previously planned to use an 18m Spiderbeam pole as the support for a 160m inverted-L. With the arrival of the Titanex, the 18m Spiderbeam pole will now be used for a full-size 80m quarter-wave folded monopole vertical instead. All the antennas will be located on the beach within a few metres of the ocean.
4W6A will be QRV from Atauro Island (OC-232), Timor-Leste on 16-26 September. There will be up to four station active on 160-10 metres CW, SSB and RTTY.
QSL via M0URX, direct or bureau (OQRS at www.m0urx.com). The entire log will be uploaded to LoTW as quickly as possible after the end of the operation or, if possible, also during the DXpedition. Further information can be found at www.4w6a.com [TNX 9M6DXX]

QSL VIA W8AEF ---> "Due to poor health, Dan Brown (NA7DB) has passed logs for all of the following over to W8AEF", The Daily DX reports:
9M0M 1-9 Mar 2001 XZ1ZV 30 Jan- 2 Feb 2000
NA7DB/HP4 4-13 Jan 2003 XZ5DB 31 Mar - 3 Apr 2002

XZ1L 30 Jan - 2 Feb 2000 ZK1AAG 6-17 Mar 1994
XZ1VS 31 Jan - 2 Feb, 2000 ZK1WTU 6-10 Mar 1994
XZ1YL 30 Jan- 2 Feb 2000 ZK1ZRD 6-17 Mar 1994
There are no cards left for some of those activities, so he will issue "just a note confirming the contact rather than a printed QSL. Logs will be loaded to LoTW when time permits".

XF4L (1989) ON LOTW ---> Some of the computerized logs have been lost, and only one third of the QSOs has been uploaded to LoTW. However "the paper logs remain intact and individual QSOs can be uploaded by contacting OH2BU". [TNX The Daily DX]

?

Delta Division Director of ARRL

Folks,
Very soon the ARRL will hold an election for Delta Division Director. Mickey Cox, K5MC is our current Diretor and has represented us well at ARRL. I urge each ARRL Delta Division member to RE-ELECT
Mickey Cox, K5MC as our voice at ARRL.
You must vote to make your voice heard.
Thank you
John K1XN

Folks,
Due to new sources of Qsl Managers being found, the weekly data
file updates for your GoWin program and logging systems will be
produced and uploaded either on each Monday or Tuesday
of the week instead of the weekend. I think this will better serve you
in your Qsling chores.
